

Maldives National Skills Development Authority

National Competency Standard for Sewerage System Operation and Maintenance

Standard Code: CONS04V1/21

Qualification Name: National Certificate III in Sewerage System Operation and Maintenance
Qualification Code: CONS04Q1L3V1/21

PREFACE

Technical and Vocational Education and Training (TVET) Authority was established with the vision to develop a TVET system in the Maldives that is demand driven, accessible, beneficiary financed and quality assured, to meet the needs of society for stability and economic growth, the needs of Enterprise for a skilled and reliable workforce, the need of young people for decent jobs and the needs of workers for continuous mastery of new technology.

TVET system in the Maldives flourished with the Employment Skills Training Project (ESTP) funded by ADB with the objective of increasing the number of Maldivians, actively participating in the labor force, employed and self-employed. The Project supported expansion of demand driven employment-oriented skills training in priority occupations and to improve the capacity to develop and deliver Competency Based Skill Training (CBST). The project supported delivery of CBST programs to satisfy employer demand-driven needs. Currently CBST is offered for six key sectors in the Maldives: Tourism, Fisheries and Agriculture, Transport, Construction, Social and the Information and Technology sectors. These sectors are included as priority sectors that play a vital role in the continued economic growth of the country.

The National Competency Standards (NCS) provides the base for initiating the training in those topics. The NCS are endorsed by the Employment Sector Councils of the respective sectors and validated by the Maldives Qualification Authority. These NCS were developed in consultation with Employment Sector Councils representing employers. They were designed using a consensus format endorsed by the Maldives Qualifications Authority (MQA) to maintain uniformity of approach and the consistency of content amongst occupations. This single format also simplifies benchmarking the NCS against relevant regional and international standards. NCS specify the standards of performance of a competent worker and the various contexts in which the work may take place. NCS also describes the knowledge, skills and attitudes required in a particular occupation. They provide explicit advice to assessors and employers regarding the knowledge, skills and attitudes to be demonstrated by the candidates seeking formal recognition for the competency acquired following training or through work experience. By sharing this information, all participants in the training process have the same understanding of the training required and the standard to be reached for certification. Certification also becomes portable and can be recognized by other employers and in other countries with similar standards.

In an effort to accelerate the provision of water supply and sewerage services, the Government of Maldives has placed great emphasis towards increasing financial resources from the national budget and much needed institutional reforms in the water and sanitation sector. With the additional resource received from international development and donor agencies significant improvement have been made in the sector. The Government received a grant from Green Climate Fund (GCF) for the project which is being jointly implemented by the Government of Maldives and United Nations Development Programme (UNDP) to Support vulnerable communities in Maldives to manage climate change-induced water shortages.

An important aim of the project is to strengthen the management and institutional capacity of the Water and Sanitation Sector which ensures the sustainability of the water services implanted and contributes to the national policy goals and strategies related to sector capacity development. This is being achieved by encouraging and supporting local educational institutions to develop courses, conduct technical training and educational programs.

TVET Authority and the Ministry of Environment have signed a Memorandum of Understanding (MoU) to setup the National Competency standards for plumbing, water and sewerage system operations and utility laboratory services. The development of these Standards has been assigned to the Maldives Institution of Technology (MIT) with TVET authority reviewing and approving the material.

NCS are the foundation for the implementation of the TVET system in Maldives. They ensure that all skills, regardless of where or how they were developed can be assessed and recognized. They also form the foundation for certifying skills in the Maldives National Qualification Framework (MNQF).

It is with great pleasure we present these National Competency Standards (NCS) for plumbing, water and sewerage system operation and utility laboratory services, developed by the Ministry of Environment in coordination with the Ministry of Higher Education under the support of Green Climate Fund project “Supporting vulnerable communities in Maldives to manage climate change-induced water shortages”.

Mohamed Hashim

Minister of State for Higher Education

TVET Authority

Ahmed Nisham

Quality Assurance Consultant

TVET Authority

TECHNICAL PANEL MEMBERS

#	Name	Designation	Organization
01	Mohamed Siraj	Director	Ministry of National Planning, Housing and Infrastructure
02	Mohamed Fazeeh	Assistant Director	Ministry of Environment
03	Mohamed Ibrahim Jaleel	Assistant Director	Ministry of Environment
04	Adam Mubeen	Assistant Director	Utility Regulatory Authority
05	Abdul Hameed Hussain		Male' Water and Sewerage Company
06	Ahmed Fathhee	Assistant Director	Housing Development Corporation
07	Hussain Shiyam	Civil Engineer	Association of Civil Engineers
08	Abdulla Hussain Rasheed	Executive Member	Association of Civil Engineers
09	Mohamed Saif Saeed		Association of Civil Engineers
10	Hassan Shiraz	Lecturer	Maldives National University
11	Raunaq Mohamed	Senior Engineer	FENAKA

EMPLOYMENT SECTOR COUNCILS

#	Name	Designation	Organization
01	Hassan Shameem	Managing Director	INOCA Pvt Ltd
02	Mohamed Naseer	President	Contractors Association
03	Ismail Ameen	Professional Member	Architect Association of Maldives
04	Mohamed Musthafa	Director General	Ministry of Environment and Energy
05	Mohamed Rasheed	Assistant Director, Project Management and Development	Housing Development Corporation
06	Adnan Haleem	Secretary General	Maldives National Association of Construction Industry
07	Ahmed Musthaq	General Manager Engineering and Maintenance	Maldives Airports Company Limited
08	Ahmed Migdhad	Director	Ministry of Economic Development
09	Hussain Shiyam	Civil Engineer	Association of Civil Engineers
10	Mariyam Abdul Rahman	Director	Ministry of Youth, Sports and Community Empowerment
11	Ibrahim Shareef Hassan	Manager of Academic and Student Structure Board	Maldives Institute of Technology (MIT)
12	Mohamed Haikal Ibrahim	Head of Department Engineering	Maldives National University
13	Mohamed Shahud	Assistant Engineer	Ministry of National Planning
14	Muaz Ibrahim	Assistant Manager Projects	MWSC
15	Mohamed Waheed	Assistant Lecturer Grade 2	Maldives Polytechnic

National Competency Standard has been endorsed by:

 <p>Hassan Shameem Chairperson Construction Employment Sector Council</p>	 <p>Mohamed Naseer Vice-Chairperson Construction Employment Sector Council</p>
<p>Technical and Vocational Education and Training Authority Ministry of Higher Education Handhuvaree Hingun, M. World Dream Male', Maldives</p>	
Date of Endorsement: 15 th February 2021	Date of Revision: NA

Standard Development Process

To begin with, Assistant Sewerage System Operator occupations were profiled through study of the occupation across Maldivian workplaces. During the study, utility enterprises and their relevant occupations were reviewed and the job descriptions were further studied. In addition to that, current trends of occupations internationally were also reviewed. These processes led to the development of the Draft Competency Standard.

Referred draft of national standard will be submitted through the TVETA to a team of Technical Panel (TP) selected from the Maldivian workplaces to review the Assistant Sewerage System Operator Standard. Members of the TP may wish to change the standard by recommending changes. Purpose of this process is to develop a standard that reflects work practices of Sewerage System Operation and Maintenance personnel across the Maldives. Technical Panel meetings will continue in reviewing the Assistant Sewerage System Operator Standard until the Final Draft is drawn which is agreed and accepted by all the participating members.

Final Draft of Assistant Sewerage System Operator Standard approved by the TP will then be submitted to the Construction Employment Sector Council for endorsement and validation. A brief report on how the National Competency Standard for Assistant Sewerage System Operator reflecting the process of compilation will be presented to the Construction Employment Sector Council together with the standard. Council members will further review and if Construction ESC recommends any change, Consultant is required to bring those changes and once agreeable, Assistant Sewerage System Operator Standard will be endorsed by the Council.

With the endorsement from the Construction Employment Sector Council, final document of the National Competency Standard of Sewerage System Operation and Maintenance will be submitted to the Maldives Qualification Authority (MQA) for final approval. With approval from MQA, the National Competency Standard of Sewerage System Operation and Maintenance will be published on TVETA website, to be used by training providers in delivering Sewerage System Operation and Maintenance programs across the Maldives.

Description of “Assistant Sewerage System Operator”

Sewer Technicians play an important role within the Sewerage sector of the Maldives as they undertake creation of all kinds of structures with varying sizes, levels of complexity, and uses. National Certificate III in Sewerage System Operation and Maintenance are mapped and organized in such a way to ensure those competent in the referred qualification will have the knowledge and skills to contribute positively to the local Sewerage industry.

Prospective Job opportunities

Upon successful completion of the National Certificate III in Sewerage System Operation and Maintenance students can work in the following jobs.

- Assistant Sewer Technician
- Assistant Sewer Plant Operator

KEY FOR CODING

Coding Competency Standards and Related Materials

DESCRIPTION	REPRESENTED BY
Industry Sector as per ESC (Three letters)	Construction Sector (CON) Fisheries and Agriculture (FNA) Information, Communication and Technology (ICT) Transport Sector (TRN) Tourism Sector (TOU) Social Sector (SOC) Foundation (FOU)
Competency Standard	S
Occupation with in an industry sector	Two digits 01-99
Unit	U
Common Competency	CR
Core Competency	CM
Optional / Elective Competency	OP
Assessment Resources Materials	A
Learning Resources Materials	L
Curricular	C
Qualification	Q1, Q2 etc.
MNQF level of qualification	L1, L2, L3, L4 etc.
Version Number	V1, V2 etc.
Year of Last Review of standard, qualification	By “/” followed by two digits responding to the year of last review, example /21 for the year 2021

1. Endorsement Application for Qualification 01

2. NATIONAL CERTIFICATE III IN SEWERAGE SYSTEM OPERATION AND MAINTENANCE

3. **Qualification code:** CONS04Q1L3V1/21

Total Number of Credits: 62

4. Purpose of the qualification

The Certificate III in Sewerage System Operation and Maintenance will develop and train technicians to effectively install, operate and maintain sanitation and sewerage systems within domestic settings.

5. Regulations for the qualification

National Certificate III in Sewerage System Operation and Maintenance will be awarded to those who are competent in units 1+2+3+4+5+6+7+8+9+10+11+12+13+14+15+16+17

6. Schedule of Units

Unit No	Unit Title	Code
Common Competencies		
01	Apply Occupational Health and Safety requirements	CONCM01V2/20
02	Apply work ethics and optimize professionalism	CONCM02V2/20
03	Practice effective workplace communication	CONCM03V2/20
04	Provide effective customer care	CONCM04V1/21
05	Perform computer operations	CONCM05V1/21
06	Provide first aid	CONCM06V1/21
07	Respond to fire	CONCM07V1/21
Core Competencies		
08	Apply Science and Engineering Measurements	CONS04CR01V1/21
09	Perform Workshop practice	CONS04CR02V1/21
10	Apply electrical skills	CONS04CR03V1/21
11	Carry out simple concreting and rendering	CONS04CR04V1/21
12	Prepare Estimate and Read layout	CONS04CR05V1/21
13	Install sewerage systems	CONS04CR06V1/21
14	Install below ground domestic sewerage systems	CONS04CR07V1/21
15	Operate sewerage pump station and sea outfall	CONS04CR08V1/21
16	Operate and Maintain Sewerage Treatment Plant	CONS04CR09V1/21
17	Locate and clear blockages within domestic sewerage systems	CONS04CR10V1/21

7. Accreditation requirements	The training provider should place trainees in relevant industry or sector to provide the trainees the hands-on experience exposure related to this qualification.
8. Recommended sequencing of units	As appearing under the section 06

Units Details

#	Unit Title	Code	Level	No of credits
01	Apply Occupational Health and Safety requirements	CONCM01V2/20	III	04
02	Apply work ethics and optimize professionalism	CONCM02V2/20	III	03
03	Practice effective workplace communication	CONCM03V2/20	III	03
04	Provide effective customer care	CONCM04V1/21	III	05
05	Perform computer operations	CONCM05V1/21	III	03
06	Provide first aid	CONCM06V1/21	III	05
07	Respond to fire	CONCM07V1/21	III	03
08	Apply Science and Engineering Measurements	CONS04CR01V1/21	III	04
09	Perform Workshop practice	CONS04CR02V1/21	III	03
10	Apply electrical skills	CONS04CR03V1/21	III	03
11	Carry out simple concreting and rendering	CONS04CR04V1/21	III	03
12	Prepare Estimate and Read layout	CONS04CR05V1/21	III	03
13	Install sewerage systems	CONS04CR06V1/21	III	04
14	Install below ground domestic sewerage systems	CONS04CR07V1/21	III	05
15	Operate sewerage pump station and sea outfall	CONS04CR08V1/21	III	04
16	Operate and Maintain Sewerage Treatment Plant	CONS04CR09V1/21	III	04
17	Locate and clear blockages within domestic sewerage systems	CONS04CR10V1/21	III	03

Packaging of National Qualifications:

National Certificate III in Sewerage System Operation and Maintenance will be awarded to those who are competent in units 1+2+3+4+5+6+7+8+9+10+11+12+13+14+15+16+17

Qualification Code: CONS04Q1L3V1/21
