

Creating a colourful card with half circles

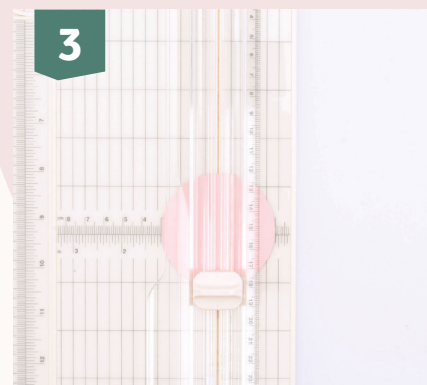

In this DIY, we'll show you how to make a vibrant card using Florence's pastel linen cardstock. By creatively combining half circles, you can achieve a stunning and unexpected effect!

1 Start by selecting seven different colours from the Florence multi-pack of pastel linen cardstock. Cut a 3 cm circle from the first sheet. With each subsequent sheet, cut a circle 1 cm larger, until you have a 9 cm circle. Then go back to a 3 cm circle in the same colour order.

2 Once all the circles are cut, your result should resemble the one shown above.

3 Set the two smallest circles aside, and cut the remaining circles in half.

4 Take one half of each circle and stack them, aligning the outer edges. Form two stacks this way. Arrange the stacks opposite each other, creating the appearance of a flowing wave of colours.

5 Cut a strip of paper measuring 2 x 9 cm, and stamp a cheerful message onto it.

6 Glue the half circles together, then attach them to the stamped strip of paper. Finally, secure the smallest whole circles at each end. To finish, create a double card by cutting an A4 sheet in half and scoring one half in the middle. This will give you a card measuring 14.8 x 10.5 cm. Attach your circle creation to the front.
