

## Crafting masks with the Vaessen Creative glitter kit

Crafting with children becomes a party with Vaessen Creative's glitter kit. This kit is packed with colourful crafting materials, all in glitter theme. Make a unicorn mask and superhero mask using the steps in this DIY. Have fun crafting!

**1**  
First, make the unicorn mask. Use the instruction booklet and three colours of glitter foam from the kit. Trace the shapes from the booklet onto the foam with a pen, pressing hard enough to leave an impression.

**2**  
Trace over the lines on the foam with a pen.

**3**  
Cut out all the shapes with a (children's) pair of scissors.

**4**  
Punch holes in the sides of the mask using a hand punch.

**5**  
Glue all the pieces together with (children's) glue and decorate the mask with glitters, stones, etc.

**6**  
Attach two cords or elastic bands to the holes on the sides of the unicorn mask. Now it's ready to wear!

Now, make the superhero mask. Use the instruction booklet and three colours of glitter foam from the kit. Trace the shapes from the booklet onto the foam with a pen, pressing hard enough to leave an impression.

Trace over the lines on the foam with a pen.

Cut out all the shapes with a (children's) pair of scissors.

Punch holes in the sides of the mask using a hand punch.

Glue all the pieces together with (children's) glue and decorate the mask with glitters, stones, etc.

Attach two cords or elastic bands to the holes on the sides of the superhero mask. Now it's ready to wear!
