

Investment Update for the Generate KiwiSaver Scheme: Stepping Stones 65-75 years old investment option

30 September 2023

This investment update was first made publicly available on 30 October 2023.

What is the purpose of this update?

This document tells you how the Stepping Stones 65-75 years old investment option has performed and what fees were charged. The document will help you to compare the investment option with other investment options and funds. Generate Investment Management Ltd prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this investment option

The Stepping Stones 65-75 years old investment option aims to provide a modest return over the short to medium term. It invests in an actively managed portfolio made up of slightly more income assets than growth assets. Volatility is likely to be medium to high. Returns will vary and may be low or negative at times.

Stepping Stones 65-75	
Total value of the investment option	\$9,474,815
Number of investors in the investment option	232
The date the investment option started	16 May 2022

What are the risks of investing?

Risk indicator for the Stepping Stones 65-75 years old investment option:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at generatewealth.co.nz/survey. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of an investment option's future performance. The risk indicator is based on the returns data for the last five years¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this investment option.

Investment Update for the Generate KiwiSaver Scheme: Stepping Stones 65-75 years old investment option 30 September 2023

How has the investment option performed?

	Past year
Annual return (after deductions for charges and tax)	4.01%
Annual return (after deductions for charges but before tax)	4.86%
Market index annual return (reflects no deduction for charges and tax)	4.50%

The market index return reflects a composite of benchmark index returns, weighted for the investment option's target asset allocation, being the fund's relevant benchmark since inception. All of the share market benchmark indices used include dividends but do not include imputation credits. Additional information about the market index is available in the SIPO on the register at business.govt.nz/disclose.

What fees are investors charged?

Investors in the Stepping Stones 65-75 years old investment option are charged fund charges. Based on the latest PDS, these are expected to be:

	% of net asset value
Total fund charges	1.12%
Which are made up of:	
Total management and administration charges including:	
Manager's basic fee	1.09%
Other management and administration charges ²	0.03%
Total performance based fees	0.00%
Other charges	\$ amount per investor
Membership Fee ³	\$36.00 per year

A portion of the 'other management and administration charges' relate to management, performance and administration charges from investments in underlying funds. Some of these calculations are based on estimates.

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Hannah had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Hannah received a return after fund charges were deducted of \$401 (that is 4.01% of her initial \$10,000). Hannah also paid \$36 in other charges. This gives Hannah a total return after tax of \$365 for the year.

Further information

You can also obtain this information, the PDS for the Generate KiwiSaver Scheme, and some additional information from the offer register at business.govt.nz/disclose.

Notes

1. As the investment option has not been in existence for 5 years a combination of market index returns and the funds' actual returns have been used to complete the risk indicator. Actual returns have been used from 16 May 2022 to the end of the period to which this investment option update relates. For all relevant periods prior to 16 May 2022 market index returns have been used in order to construct a total of 5 years of returns on which to base the risk indicator. As a result of estimated returns partially being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
2. This investment option invests in underlying funds managed by third party managers. The fees on these funds are taken from offer documents or estimated using data from their most recent financial statements. Where applicable, performance fees on underlying funds are estimated taking into account highwater marks.
3. Membership fees are the monthly fixed dollar charges for membership in the Generate KiwiSaver Scheme. You will pay only \$3 each month even if you are invested in multiple funds within the Generate KiwiSaver Scheme.
4. International equities are made up of directly held equity investments.
5. 'Cash and cash equivalents' includes the value of foreign exchange hedging derivatives related to the fund's off-shore investments.
6. Listed property includes investments in aged care companies.
7. The investment option has an ability to invest in unlisted property and infrastructure investments as per limits set in the SIPO.
8. Australasian equities includes an investment in unlisted New Zealand equities.
