### The power of a password manager

#### The password problem

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>80%</td>
<td>$4.45 Million</td>
<td>The percentage of hacking-related breaches caused by weak, stolen, or reused passwords</td>
</tr>
<tr>
<td>83%</td>
<td>$100,000</td>
<td>The percentage of employees who access work accounts after leaving a company</td>
</tr>
<tr>
<td>86%</td>
<td>$100,000</td>
<td>The percentage of organizations that experienced bulk phishing attacks in 2021</td>
</tr>
</tbody>
</table>

#### The security solution:

**A best-in-class password manager**
