WE LOVE YA

"It really says a lot when our guests asked us how we knew our photographers (because we'd struck up such a great bond in the run-up this made them assume we were already friends!). This also meant that we felt so comfortable around Gina & Jack, and so did our guests. The result? Photos from our big day that are so beautiful they were far beyond our expectations"

DOG LOVIN' ELDER EMOS

WHO ARE WE?

We're Gina and Jack, a pair of lovebirds from Bristol who've been joined at the hip since we fell for each other back in the summer of 2017.

We met at VANS (yep, the shoe shop— so emo).

Seeing live music is our favourite thing to do, especially Metal, Pop Punk, and Country, wild combination we know. We're also massive foodies with a serious pizza obsession.

When we aren't photographing or watching live music, we are usually outdoors walking our dog Roo. We love a waterfall or hike, and can never resist a trip to the beach.

OUR PHOTOGRAPHY

Film is what first got us into photography in the first place. Our editing style is film-inspired too—no heavy edits or over-the-top effects. We aim to keep our photos timeless, so when you look back on them years from now, you'll still love what you see.

When we photograph, we focus on capturing relaxed, natural moments, while also including a few posed shots. In the couple portraits section, we place a big emphasis on guiding our couples through poses that feel natural and comfortable. We understand that not everyone is used to being in front of the camera, so we provide plenty of direction to help ease any nerves. Our goal is to create moments that don't feel overly staged but still capture the best angles and expressions. We love mixing in a variety of poses, from intimate close-ups to playful and dynamic shots, ensuring each couple's unique connection shines through.

WHY ARE WE HERE?

We absolutely love taking photographs. It's a real privilege to be invited into someone's life and asked to capture their special memories. Being a part of that means the world to us. Seeing people happy with their photos is the best feeling ever—that's why we do what we do.

THE WHOLE SHEBANG

Spending money on wedding photography is an investment in preserving the memories of one of the most important days of your life. No biggie.

When booking your photographers, make sure they're your vibe. Could you see yourself grabbing a pint or coffee with them? They'll be with you all day, from getting ready in your jammies to the late-night dancing, so it's important you feel comfortable with them. Find photographers who not only take great photos but also fit seamlessly into your day.

WHAT BANG DO YOU GET FOR YOUR BUCK?

TWO PHOTOGRAPHERS

Like we said, we are inseparable. To name a few benefits of there being two of us - you get more angles and coverage from different parts of your day. We split up for prep photos, so we capture both of your mornings, so you can see what the other person was up too. Also, one of us can cover the front of the ceremony while the other takes candid moments and guest interactions from the back. We have different creative angles and completely different vibes of approaching a photo.

ONE FILM ROLL INCLUDED

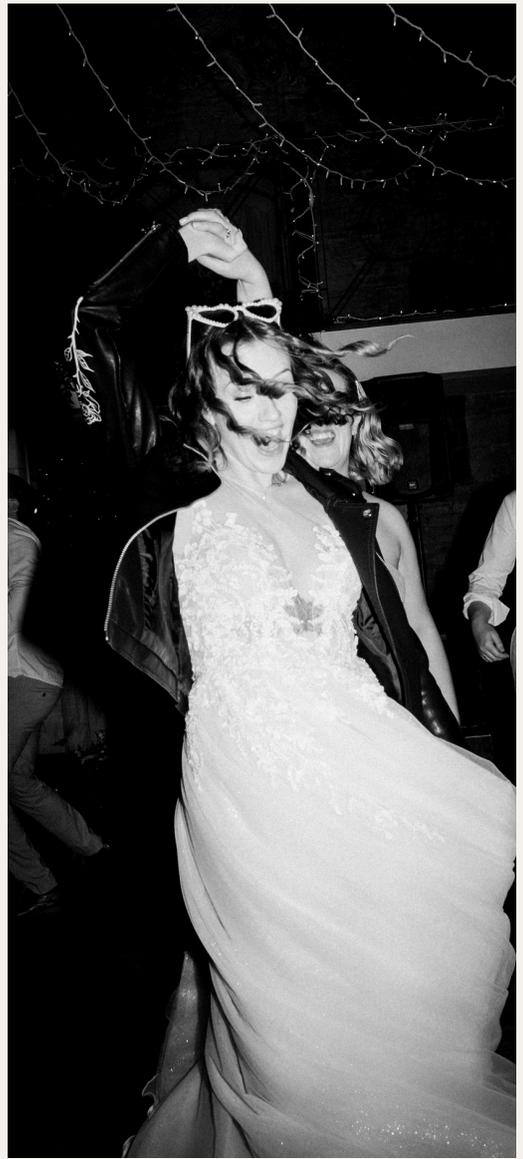

You choose a roll of medium format film or 35mm, in colour or black and white. If you have no idea what film is, hold on to your horses we will explain all shortly.

PRE WEDDING SESSIONS

10% off one of our delish pre wedding sessions when booking your wedding package.

Why have a pre wedding session?

- We get to hang out, you get great photos.
- A taster of how we work, and this will 100% make you feel more at ease on the wedding day.
- You can use the photos for save the dates, invitations, or a wedding website.
- Get your furry besties involved, if your pets can't attend your wedding, you can have them in your pre-wedding session so they don't miss out on a photo op, and more importantly we get to meet them.

"We felt so relaxed chatting to Jack and Gina, it was weird, but we felt like we'd known them for ages and it all just came very naturally"

WTF IS FILM?

ANALOG, FILM, OLD SCHOOL PHOTOS

“Couldn't imagine better wedding photographers. The whole process leading up to the day was fantastic. Perfect balance between professional and friendly. On the day itself it felt like having 2 extra lovely guests at the wedding. The photos were 10/10. Film photos were especially good. You can have total confidence in booking Ivy & Pine.”

What the bloody hell is film? It's taking pictures using a roll of film. The film captures the image when light hits it, and then you have to develop the film using chemicals to see the photo. It's an old-school way of taking pictures that gives a different look compared to digital cameras.

It has a classic look, that can't be replicated by a digital camera. Trust us we've tried.

We base our digital editing style on film photography. There's a reason the most popular film stocks haven't changed much over the years. The colours and textures in film photos are irreplaceable, each film produces a different colour and texture.

Film forces you to stop and take a second to think about what you are photographing, it's way more manual. We find the process of shooting film so fun.

It's nostalgic, classic, and timeless.

35MM FILM

It's called "35mm" because the width of the film strip is 35 millimetres. This film size is popular because it's small, portable, and can capture high-quality images. It's been widely used in both still photography and movies. Each roll of 35mm film has a certain number of frames, usually 24 or 36.

120/MEDIUM FORMAT

It's larger than 35mm film, which allows it to capture more detail and produce higher-quality images. The film is about 60 millimetres wide, and depending on the camera and the frame size, it can give you anywhere from 8 to 16 photos per roll.

If you want some extra added to your wedding package it's £75.00 per roll. We'd recommend about 4 rolls per wedding day.

INVEST IN PRINTING YOUR PHOTOS

Many of our past newly wedded babes want to print photos into albums after receiving online galleries, but have to wait months from being totally skint from the wedding.

If you want to order one, it will be on your personalised wedding quote we will send you once we've met your beautiful faces.

Choose your favs and order your album right away (yes this will be difficult, there will be many).

If you change your mind and you want to upgrade any options, pay the extra after the wedding.

Don't just take our word for it, heres a little something from a past client:

"We sat for hours looking through the book, we were mesmerised by how much thought went into the layout of all the photos, how each page was done so differently and it all just completely flowed, we had so much fun talking about every photo, all the memories of the day, laughing and smiling. We love our prints and album, they are 100% worth the money.

I always knew I would want an album as my parents have thousands of photo albums and growing up I would spend so much of my time flicking through all of them, there's something so special about being able to hold a book containing hundreds of memories

It brings us so much joy being able to look through all our printed photos, I don't even think I can fully put it into words how truly great they are."

"They both went above and beyond to not only capture our day but to help us make our day perfect. They are both so kind and funny and really genuine down to earth people. Our guests complemented on how great they were and the photos wow wow wow just incredible."

THE SHACK

'Easiest review we've ever written. From start to finish both Gina and Jack have been incredible. Having never planned a wedding before, we really didn't know what we were doing, but these guys made us feel at ease from the moment we met them. They were so helpful, Honest and genuine''
