Event Title: Teknack 2020 and ACM Core Team 2019-20 Felicitation

Date: 31st October 2020

Time: 11am

Platform: Google Meet

Link: https://links.dbitacm.co.in/acm-felicitation

Participants: 52

Organizing Department/Committee/Authority: ACM Student Chapter

Faculty Coordinator: Ms. Sana Shaikh

Objective: To felicitate all the participants of Teknack 2020 as well the ACM Core Team of the previous academic year i.e. 2019-20 for all the contribution they showed towards the betterment of ACM and in organizing all the events and workshops that took place in the year.

Report:

On 31st October 2020, ACM organized a gathering to celebrate the success of Teknack 2020 and to reward the students who were part of ACM Core Team 2019-20 for their contribution and hard work they did towards the betterment of ACM. Teknack is the flagship event of ACM conducted every year. It is a platform where students are taught game development and the games made by participants are posted on Google Play Store.

The event was held with the participation of our Principal Dr. Prasanna Nambiar and HOD of Computer Department, Ms. Sana Shaikh along with teachers, Teknack developers, jury and organizing team, ACM Core Team of 2019-20 and 2020-21.

The event started with the welcome note by the current chairperson Mr. Dheeraj James and was then taken over by the hosts of the day, Ms. Cynthia Mascarenhas and Ms. Manasi Anantpurkar. The chairperson of ACM Core 2019-20, Mr. Sean D'Cruz shared with everyone the journey of Teknack 2020 and other events of ACM in the previous year. He also put light on the growth of ACM over last year.

It was followed by the address of our beloved principal, Dr. Prasanna Nambiar, who shared wonderful words with the audience and appreciated the students for the wonderful event they conducted and also expressed her expectations for the next year's event. One of the major suggestions she mentioned was to include school students in the event next year. The event continued with a short talk by Head of Department, Computer Engineering, Ms. Sana Shaikh, who appreciated the efforts made by students and encouraged them to have more such events. She also shared some inspiring quotes with the students.

The event further moved to the main segment of the day, the award ceremony. The award announcements were led by one of the hosts of the day, Ms. Manasi Anantpurkar. Firstly, the four title awards of Teknack 2020 were announced and was followed by felicitation of all the developers. Also, a special mention award was presented to Mr. Afi Adhikari for his tremendous support and contribution in technical needs of Teknack. The entire core team of the year 2019-20 was appreciated and was followed by the felicitation of the students who conducted workshops in the past academic year.

Further, a vote of thanks was presented by Mr. Grejo Joby, vice chairperson, who thanked all the guests of the event, faculty and student who took part in the event and Dr. Amiya Kumar Tripathy was mentioned for his continuous support and encouragement towards ACM and was invited to speak a few words. Dr. Amiya congratulated the winners and motivated the team to have more such events and assured his support for the future events of ACM. Later Mr. Grejo thanked one the jury of Teknack, Mr. Dion George and asked him to share his view on the games developed by the students and his experience in judging the games. He also shared about the growth of ACM from his period to current time and mentioned about the events that he liked.

The event concluded with a group picture with the participants and was signed off.

Really cooool game!! Keep it up everyone behind this!! Really cool graphics 🙌✨ . Just a suggestion, you can also make a portal where you can see your friends score and compete with each other! That would be really cool.

I m amazed by your work, well done. It's addictive once you know to play. It was confusing when I saw entrepreneur in the description.Then I understood what you mean, as every fuel counts n you have to make n use the fuel in a practical manner.

The theme of a Space Ranger makes this games very interesting. Apart from this, the game is easy to learn, has no interruption of ads and the controls are pretty smooth to use. Therefore without any doubt this game is highly recommended for killing time.

Really good game! Well thought out!! But it's actually tough. The joystick to control the spaceman at the starting levels is too sensitive. But I wouldn't blame it on the game developers. It might be a problem with my phone display which also gets reflected in the levels where I have to collect coins also. But overall, it's a well thought out and we'll designed game. Looking forward to playing more games like these!!!!!!!!!
