Global production footprint

AGENDA

1. Current market situation and outlook for 2024
2. Mid-term targets
3. Progress in strategy implementation and Schleuniger integration
4. Questions and answers
5. Live demonstration of innovative solutions at the booth
6. Lunch

Top line development since combination with Schleuniger

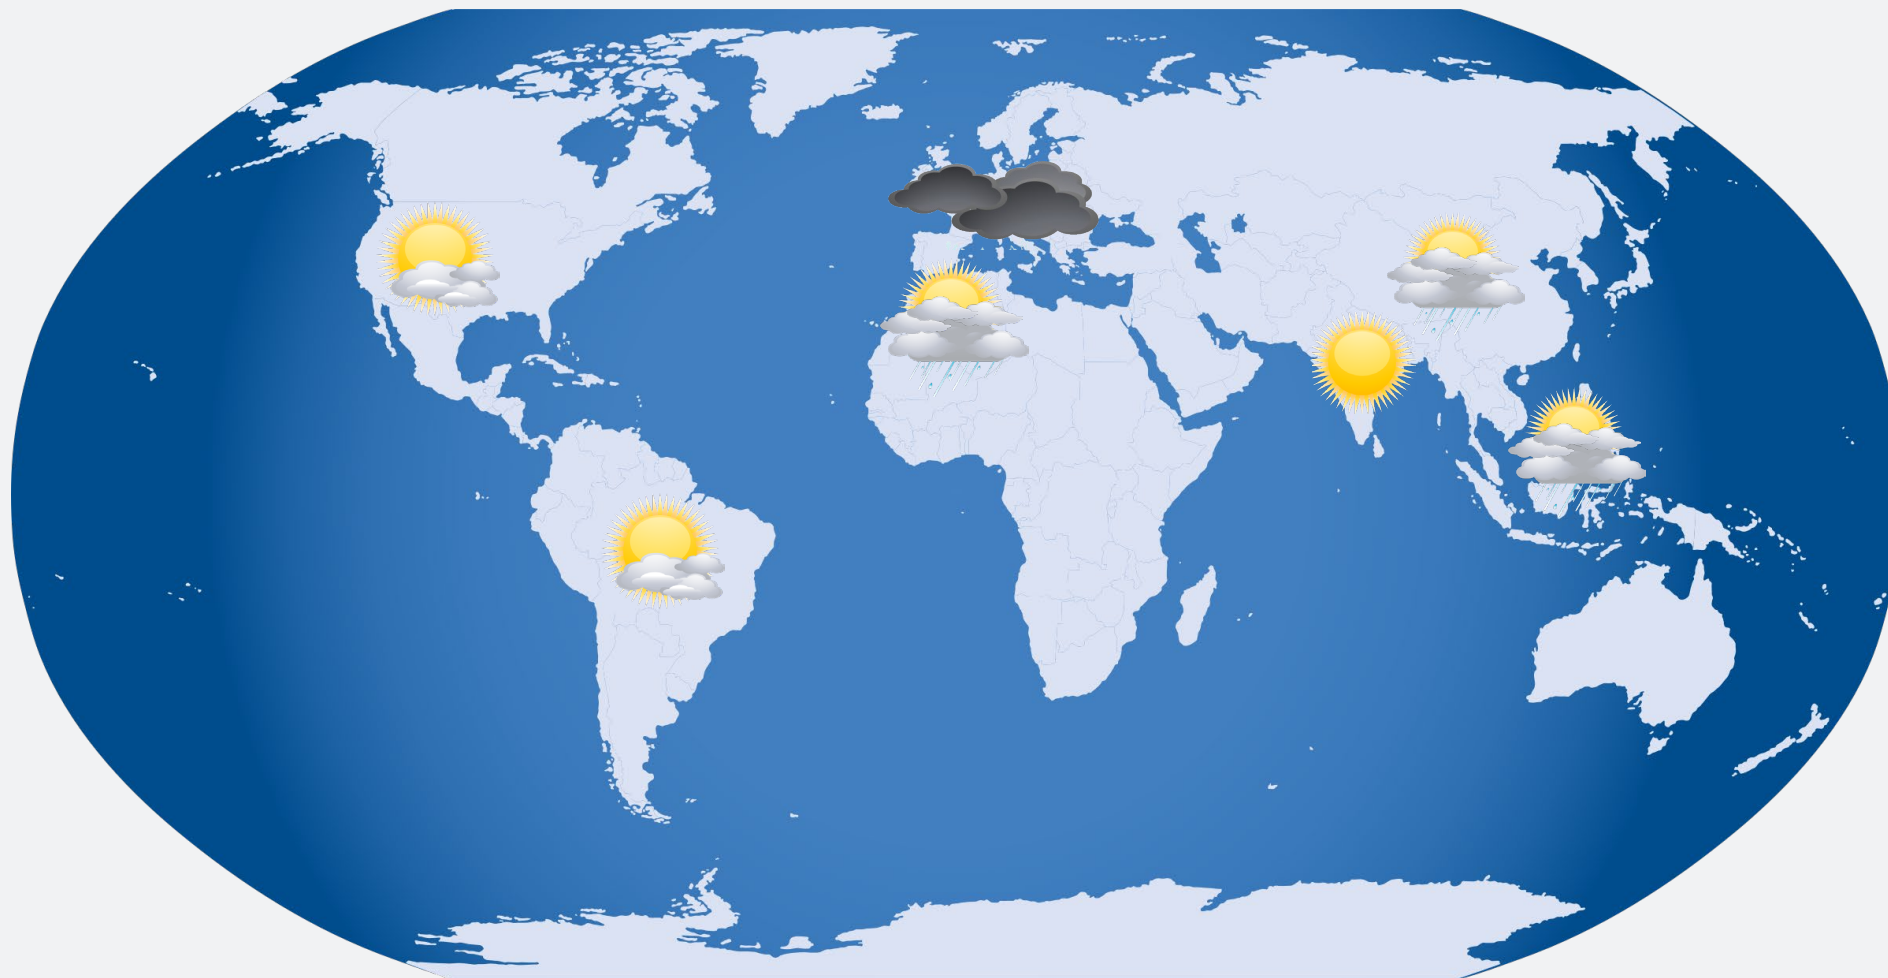

Monthly order intake in 2024

Low point was reached in the first half of the year

Current market situation

Slight improvement in the second half of the year

Revenues by region
first half of 2024

- Europe
- Asia/Pacific
- North/South America
- Africa

Solid cash generation

Positive free cash flow despite challenging market environment

in CHF million

¹ Excluding a sale of a building in the first half of 2023.

Solid financial position

Stable net debt and equity ratio of over 50%

Net debt (in CHF million)

Equity ratio (in %)

Outlook 2024

Guidance confirmed

Order intake >

- Slight improvement in the market situation
- Higher order intake in the second half of the year than in the first half
- Book-to-bill ratio likely to be slightly above 1 in the second half of the year

Revenues >

- 20% lower than 2023

EBIT >

- Modestly positive...
- ...despite one-off expenses of around CHF 10 million and a negative currency effect

Cost reduction >

- Various initiatives ongoing
- Savings of approximately CHF 20 million in 2024
- Sustainable reduction of the break-even point

**What happens to the
mid-term targets?**

Mid-term targets postponed by two years

Ambitious targets for growth and profitability

Targets 2030

1.0–1.2

revenues
in CHF billion

120–160

EBIT
in CHF million

**Are the mid-term targets
realistic?**

Expected revenue development

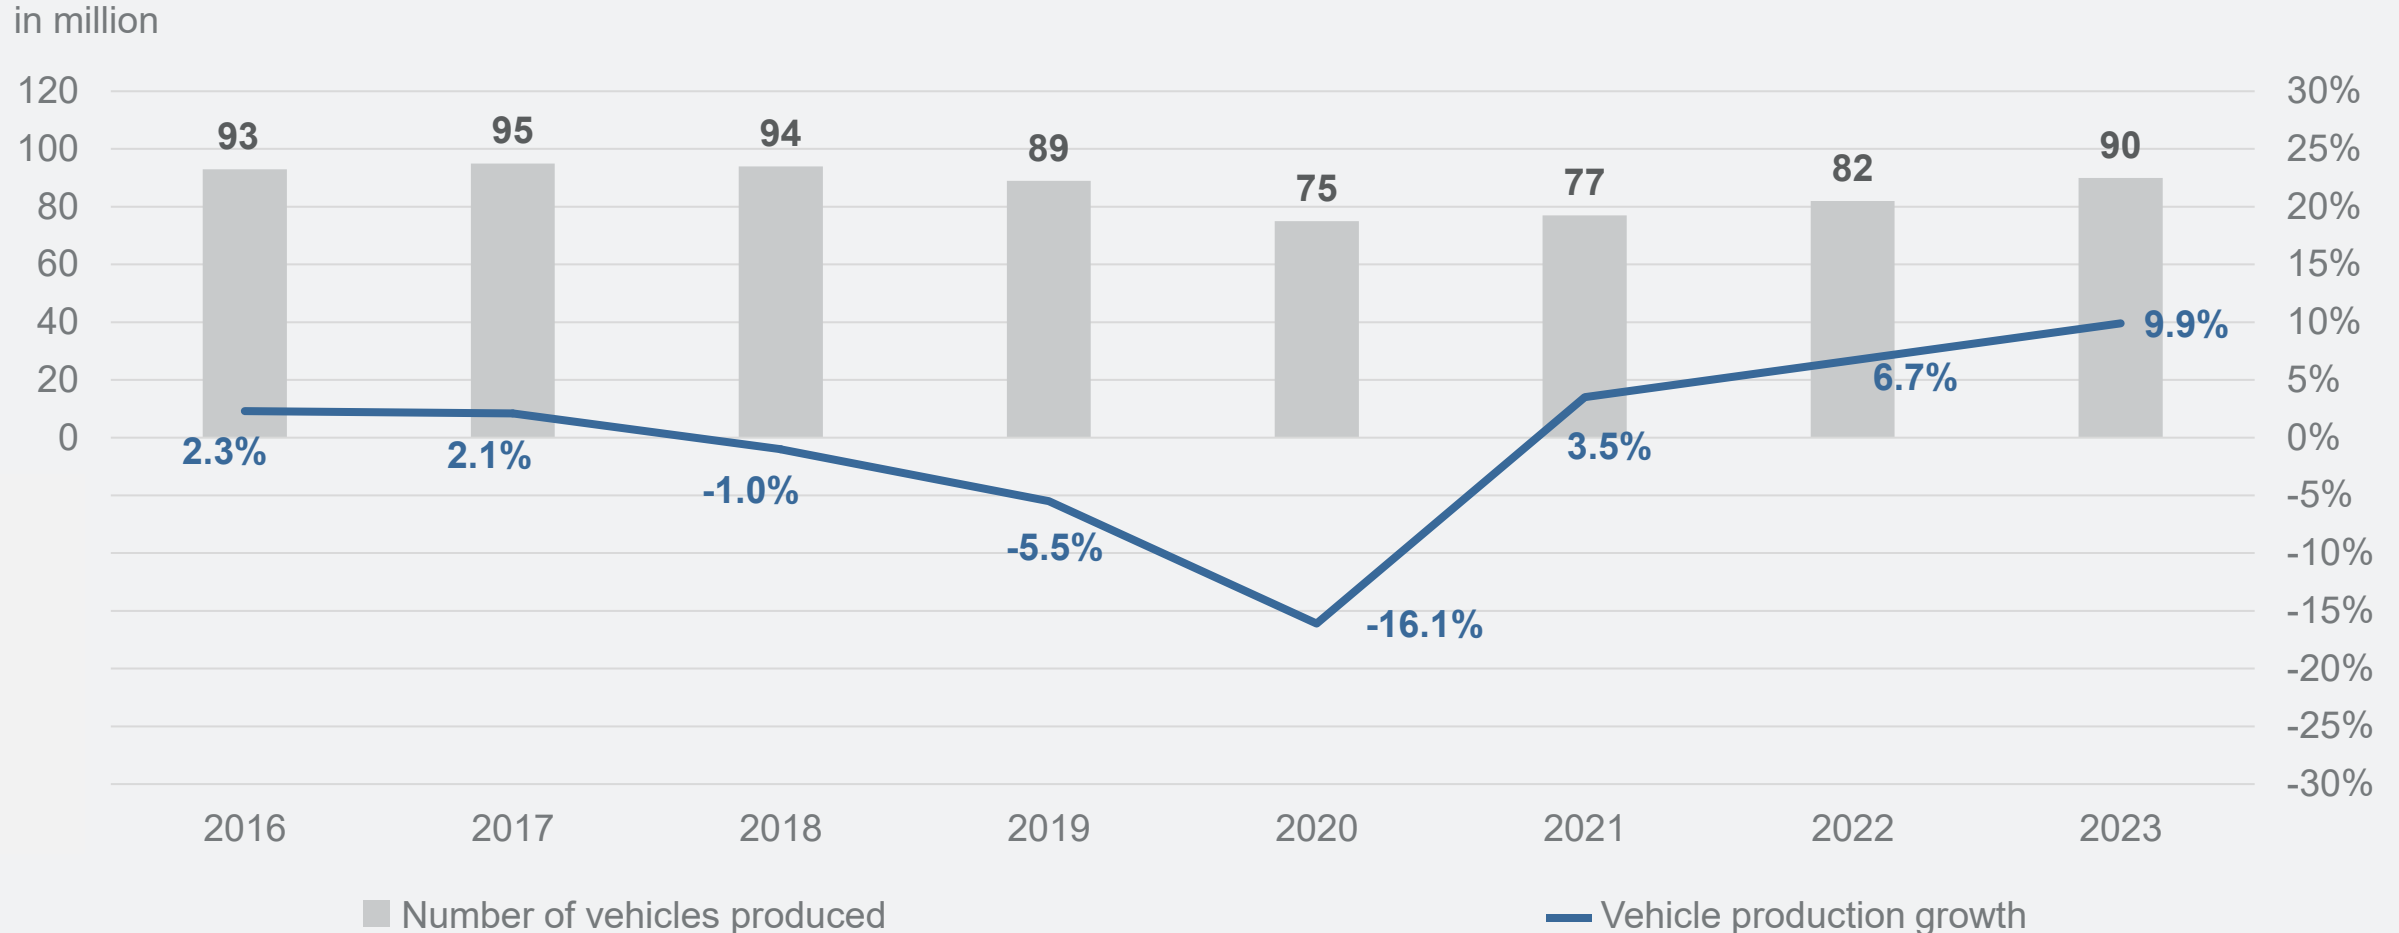

Growth will not be linear

in CHF million

Organic growth outperforms vehicle growth

Automation is the main growth driver

Organic growth outperforms vehicle growth

Automation is the main growth driver

Organic growth outperforms vehicle growth

Automation is the main growth driver

Profitable even in challenging times

Flexibility in terms of costs

Growth driver automation

Enormous automation potential for decades

Eldorado scenario

With an annual increase in the degree of automation of 5%, it will take 15 years to double it.

**Why is automation not
increasing faster?**

Automated work vs. manual work

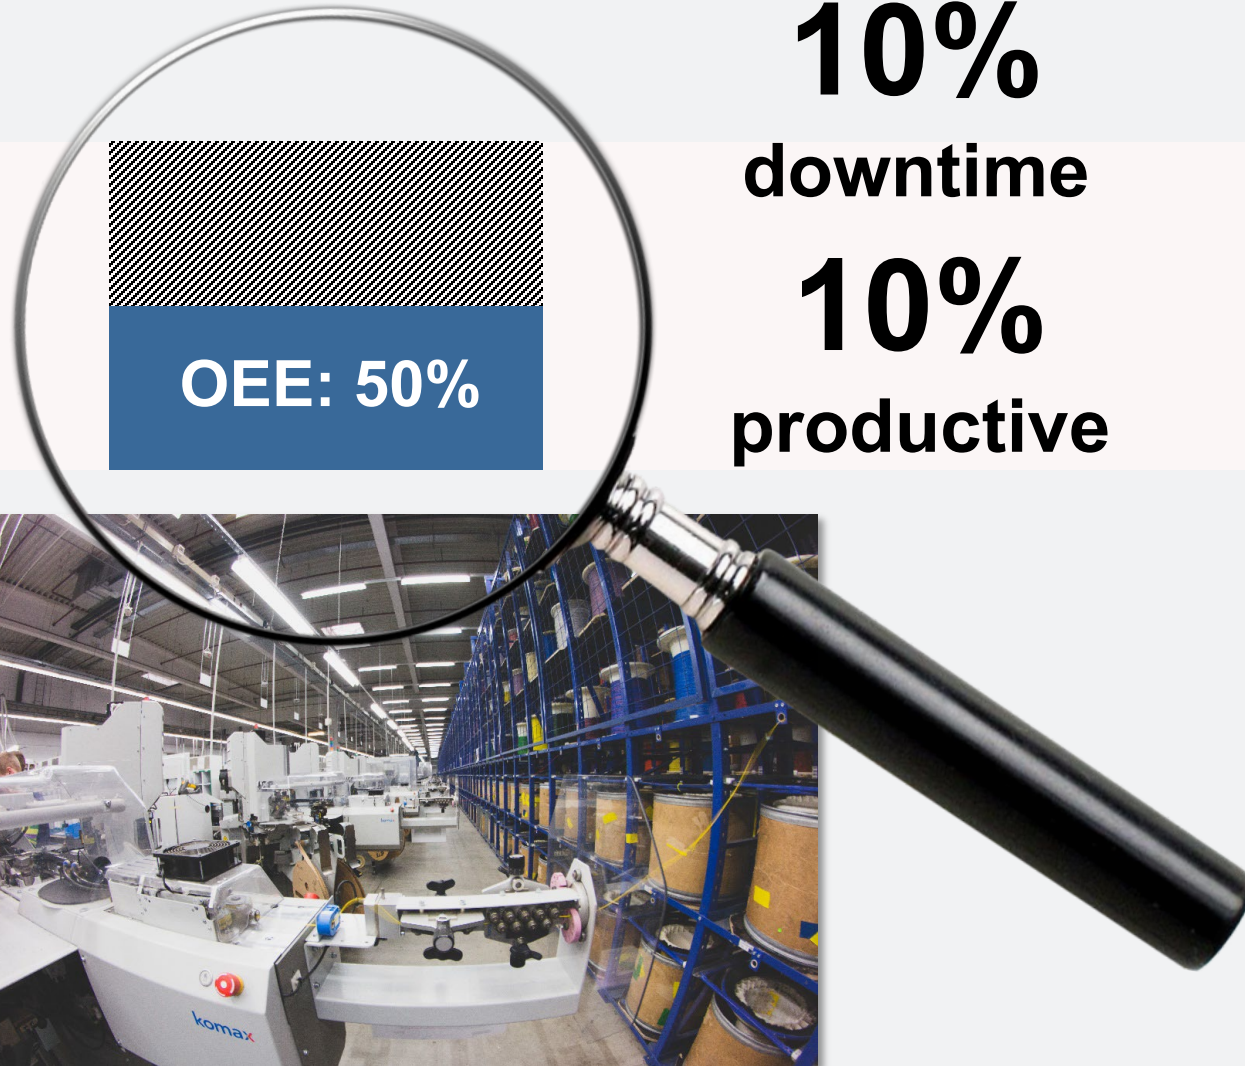

20%
automated

80%
manual

Automated work vs. manual work

80%
manual

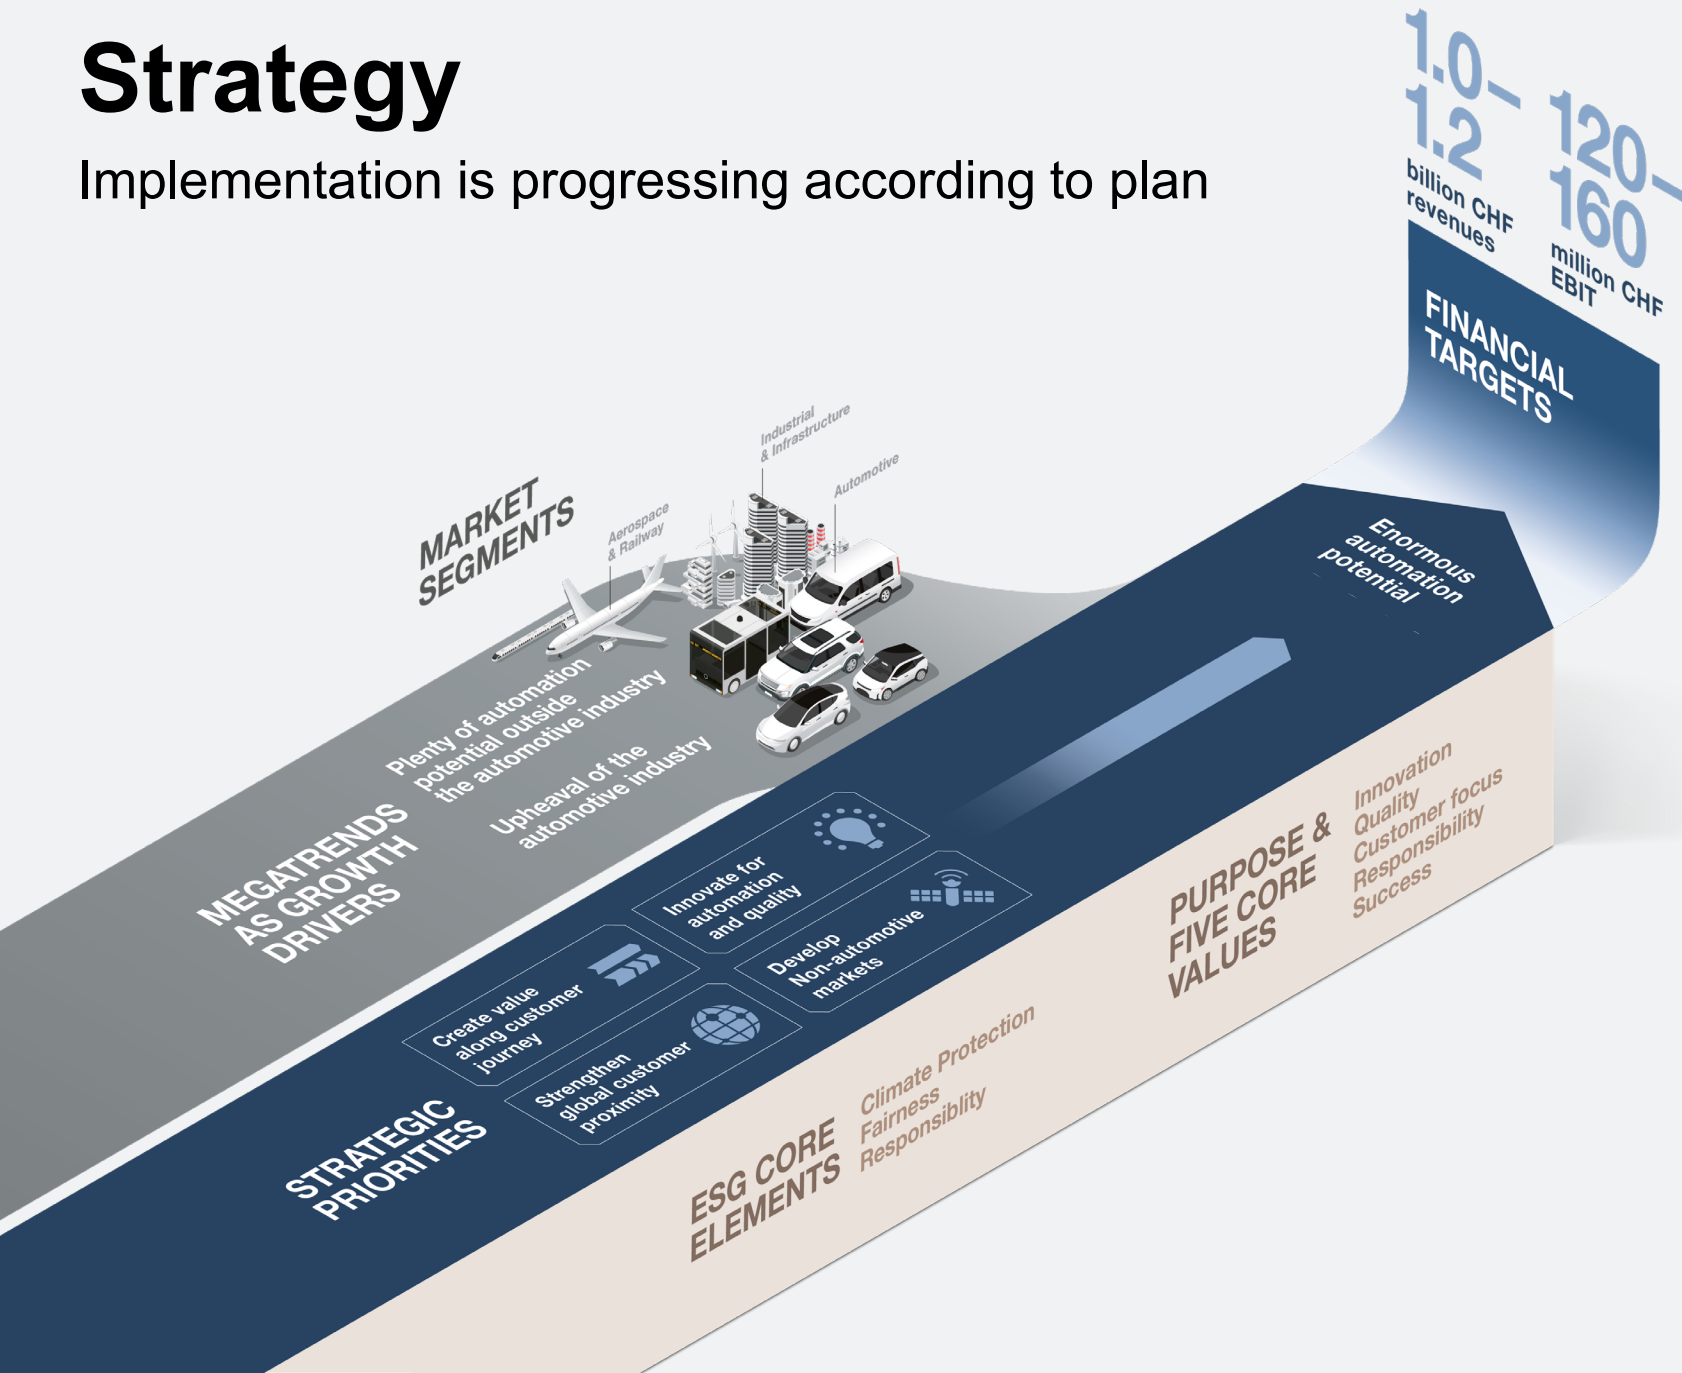

OEE: Overall Equipment Effectiveness

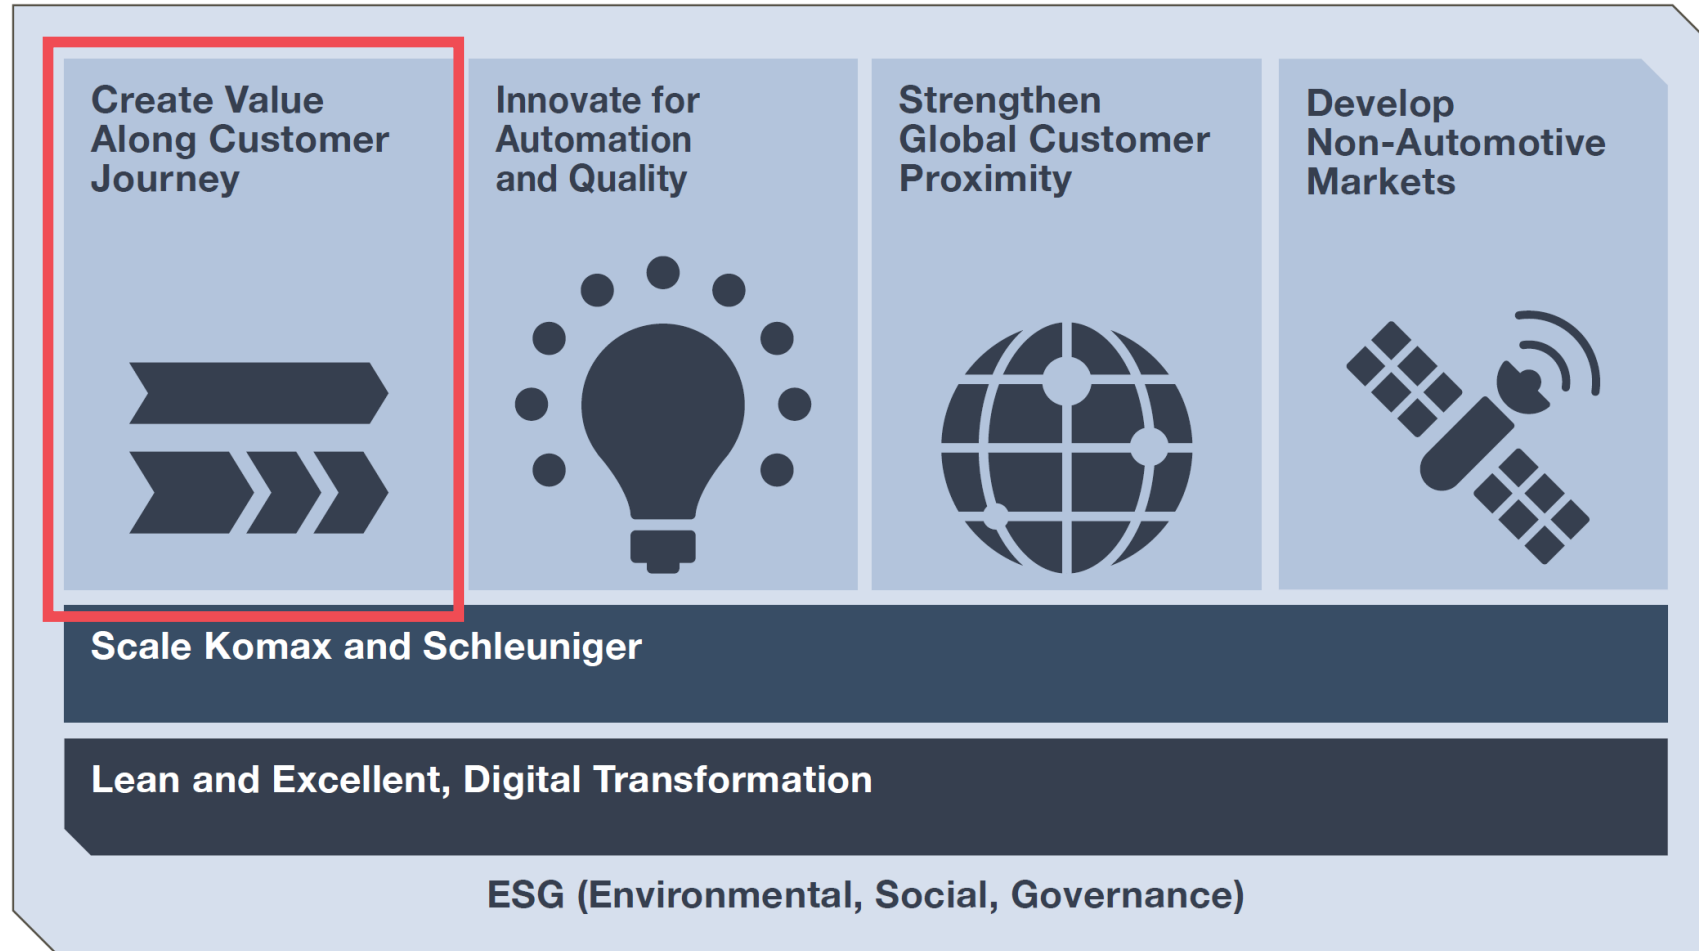

**How is the strategy
implementation progressing?**

Strategy

Implementation is progressing according to plan

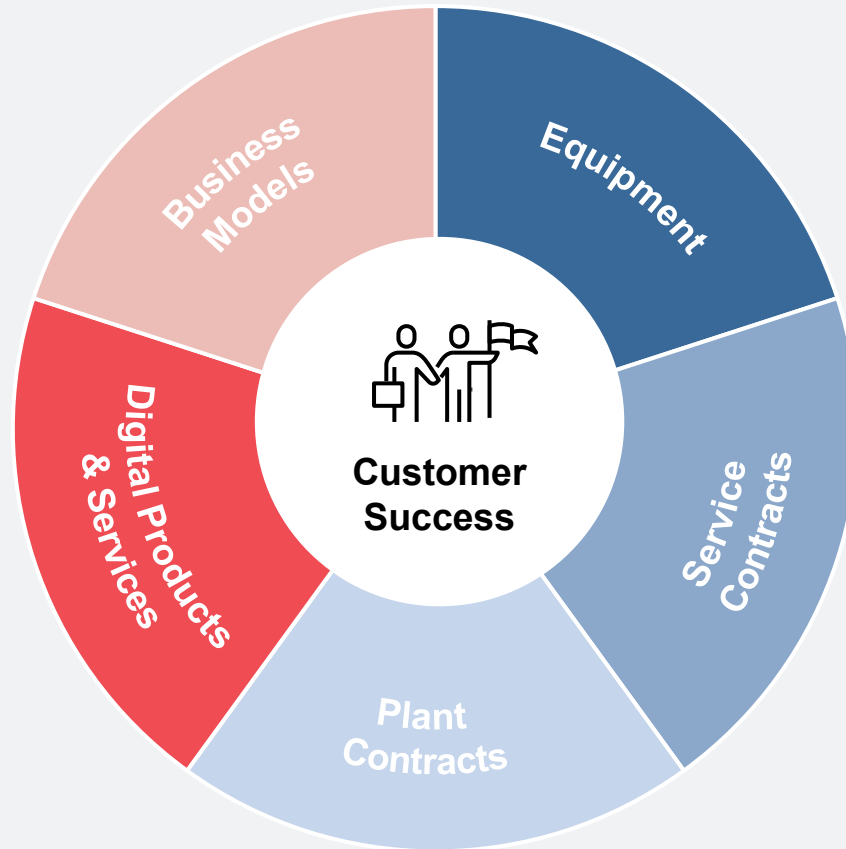

Further strategic priorities

Create value along customer journey

Target: significant increase in service business – from 20% to 25% by 2030

Stronger focus on service is increasingly paying off

- Substantial increase in service contracts
- Service budget will be exceeded in 2024

More on this at the booth

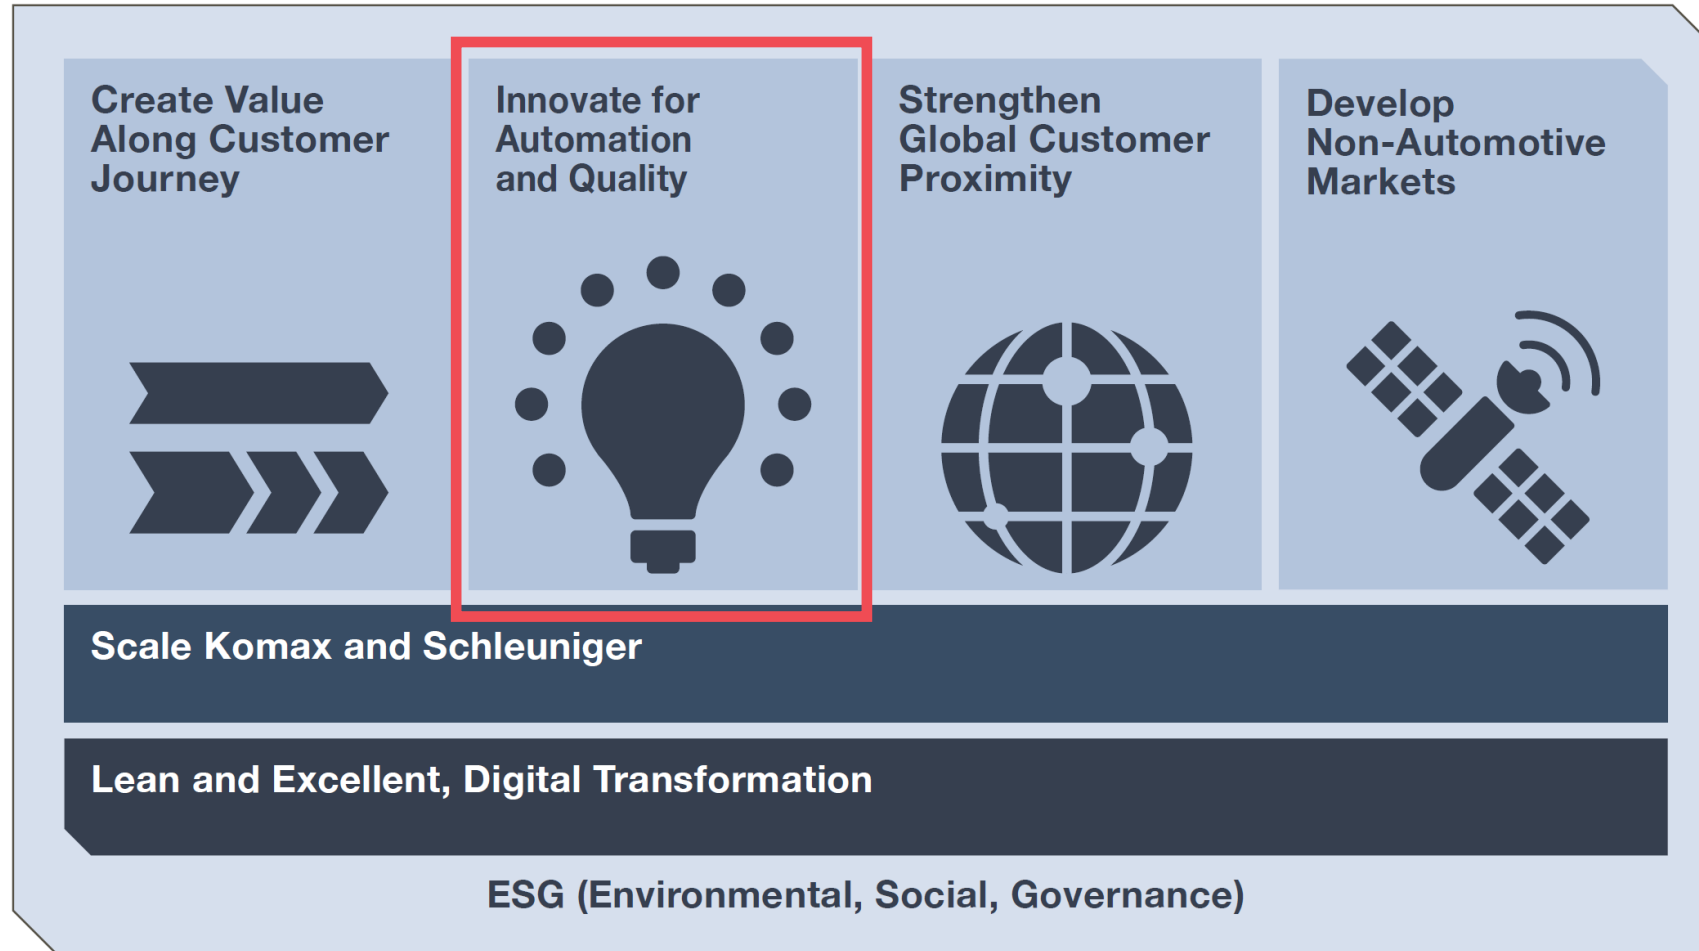

70,000 Komax machines

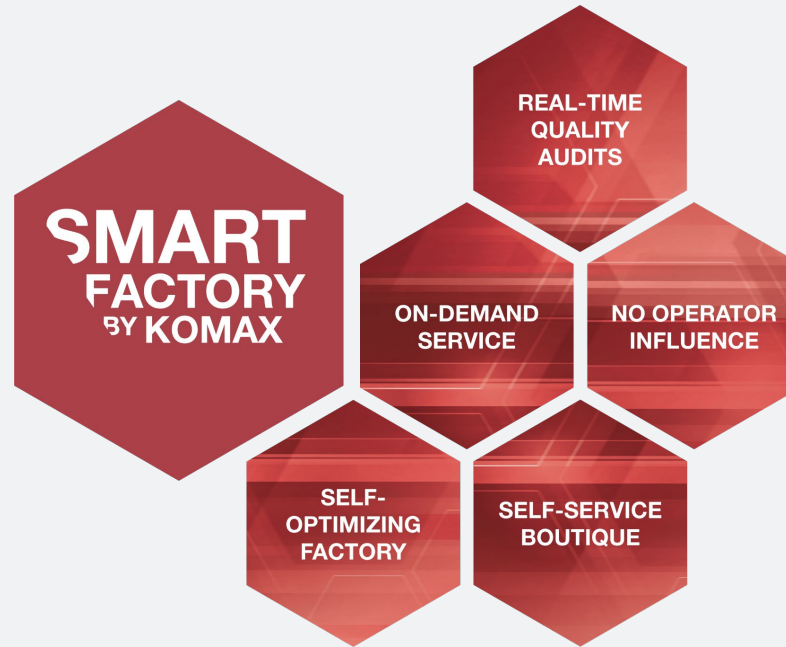

325,000 Schleuniger machines

Further strategic priorities

Innovate for automation and quality

Investment of 8–9% of revenues in R&D

Higher Automation

Quality Solutions

Platform strategy

Further development of the installed base

Innovative strength is the key to success

Our innovation pipeline is overflowing. In the coming years, we will delight our customers with numerous exciting new product launches.

Further strategic priorities

Strengthen global customer proximity

Increase footprint in Asia, particularly in China

Development of global vehicle production

Strong growth in China from 2024 to 2029

Source: S&P Global Mobility, January 2024

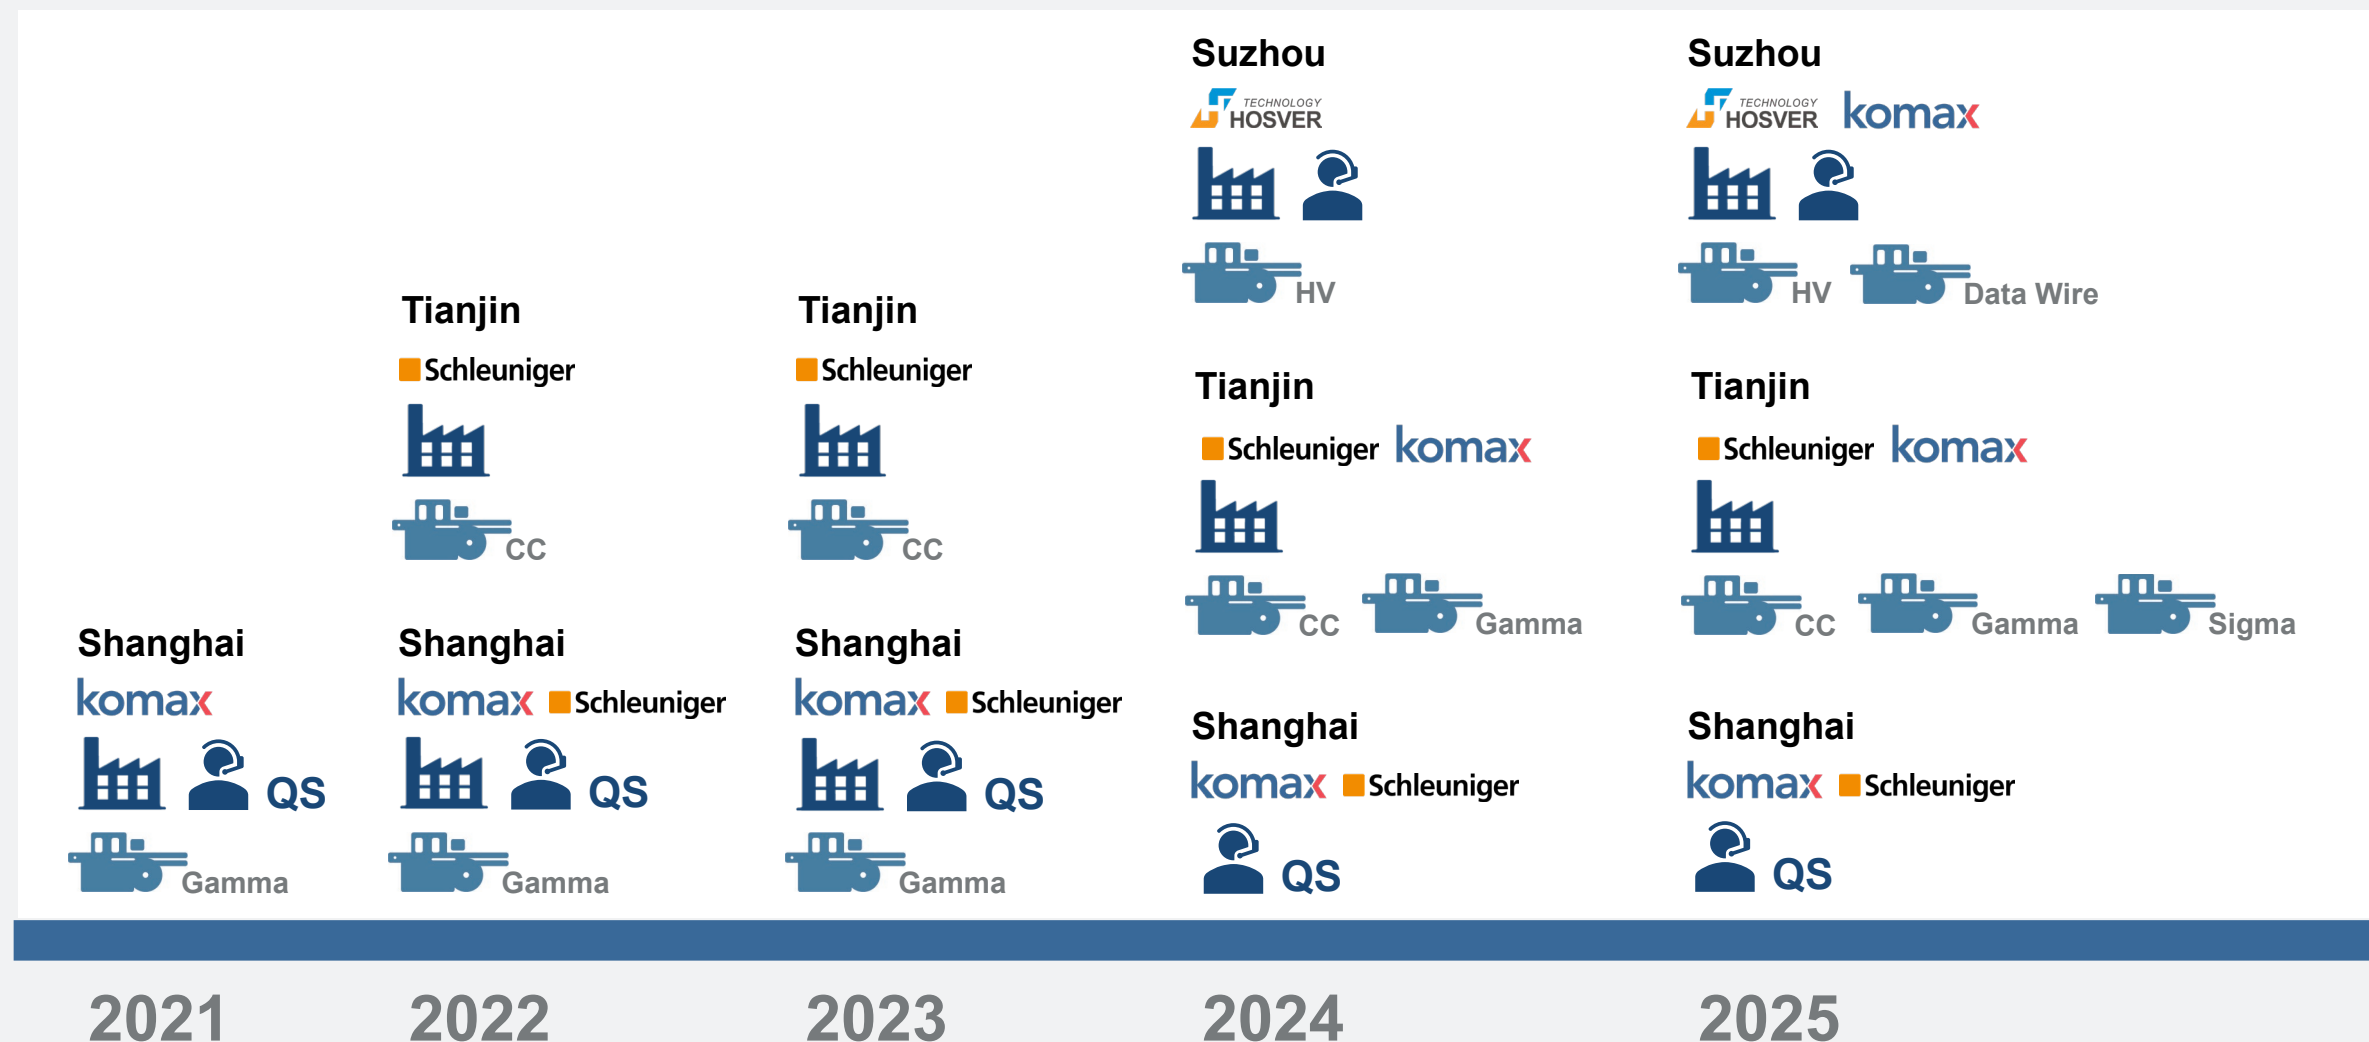

Significant increase in electric vehicles in China

electric vehicles produced
in China in million

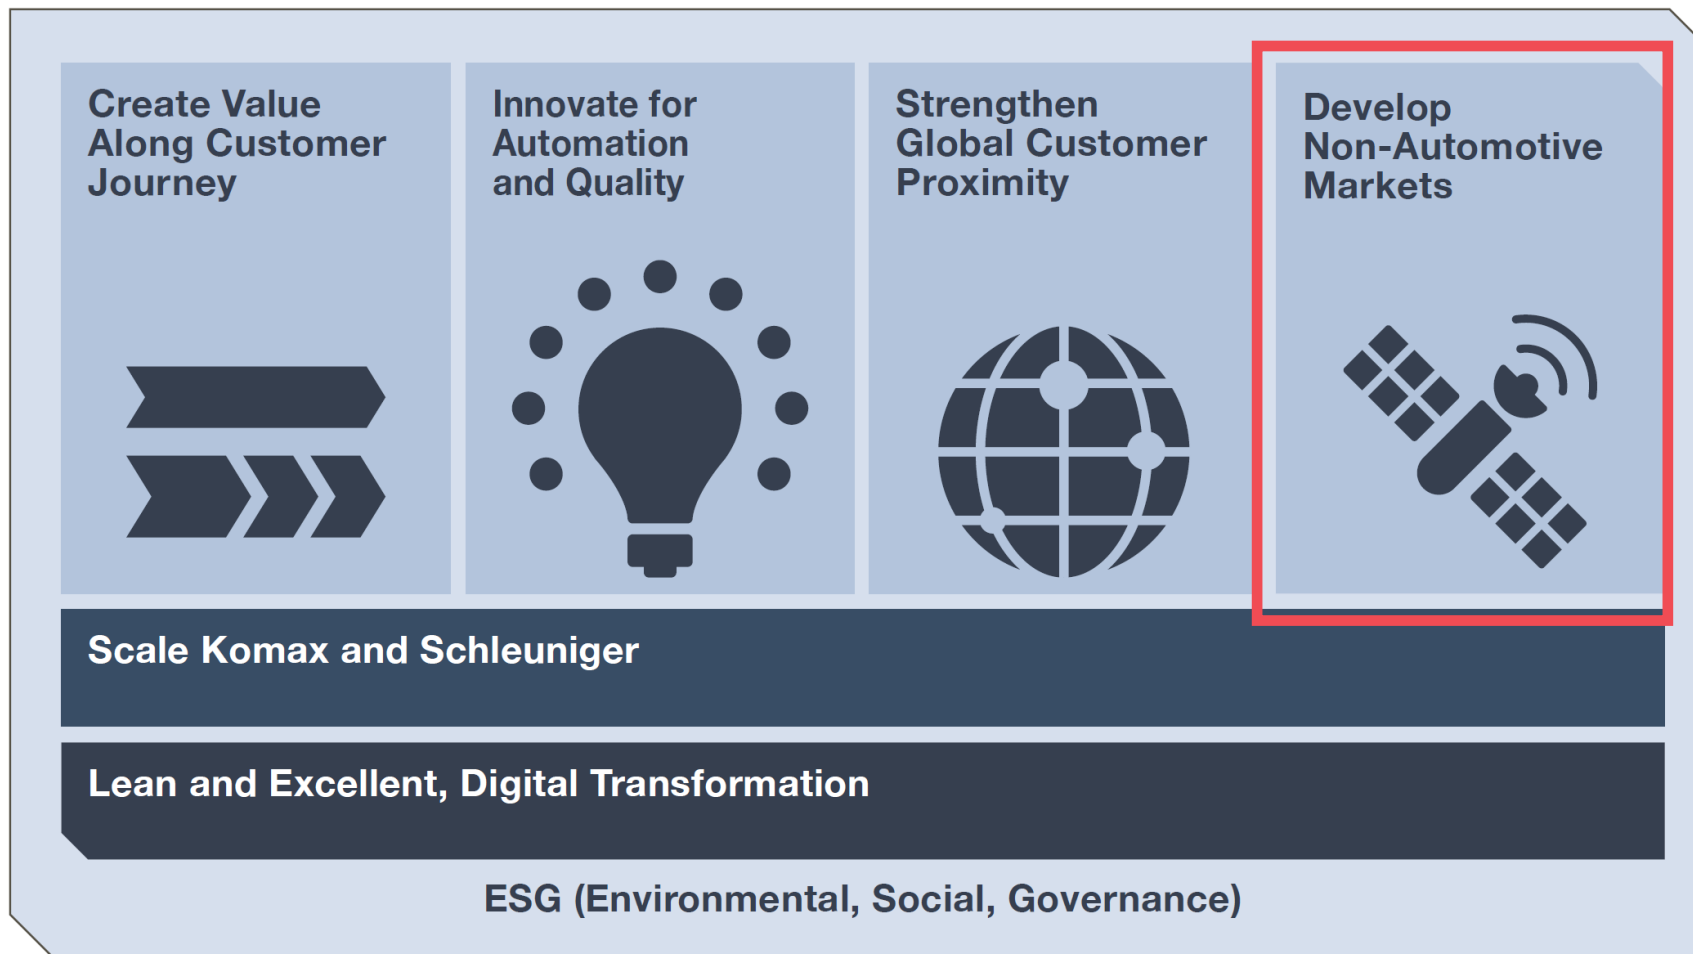

Source: S&P Global Mobility, January 2024

China strategy: implementation is progressing rapidly

Further strategic priorities

Develop non-automotive markets

Target: increase in revenue share from 25% to 30% by 2030

Aerospace & Railway

Industrial & Infrastructure

Strongly positioned outside the automotive industry

FINAL ASSEMBLY OF AIRCRAFT & QUALITY ASSURANCE OF ELECTRICAL SYSTEMS

ELECTRICAL SYSTEM WIRING & QUALITY ASSURANCE

WIRE HARNESS ENGINEERING & DATA PROCESSING

MARKING & CUTTING

WIRE END PROCESSING

WIRE END PROCESSING

The Komax Group facilitates the manufacturing process along the entire value chain of aircraft manufacturers.

Strongly positioned outside the automotive industry

FINAL ASSEMBLY OF AIRCRAFT & QUALITY ASSURANCE OF ELECTRICAL SYSTEMS

ELECTRICAL SYSTEM WIRING & QUALITY ASSURANCE

WIRE HARNESS ENGINEERING & DATA PROCESSING

MARKING & CUTTING

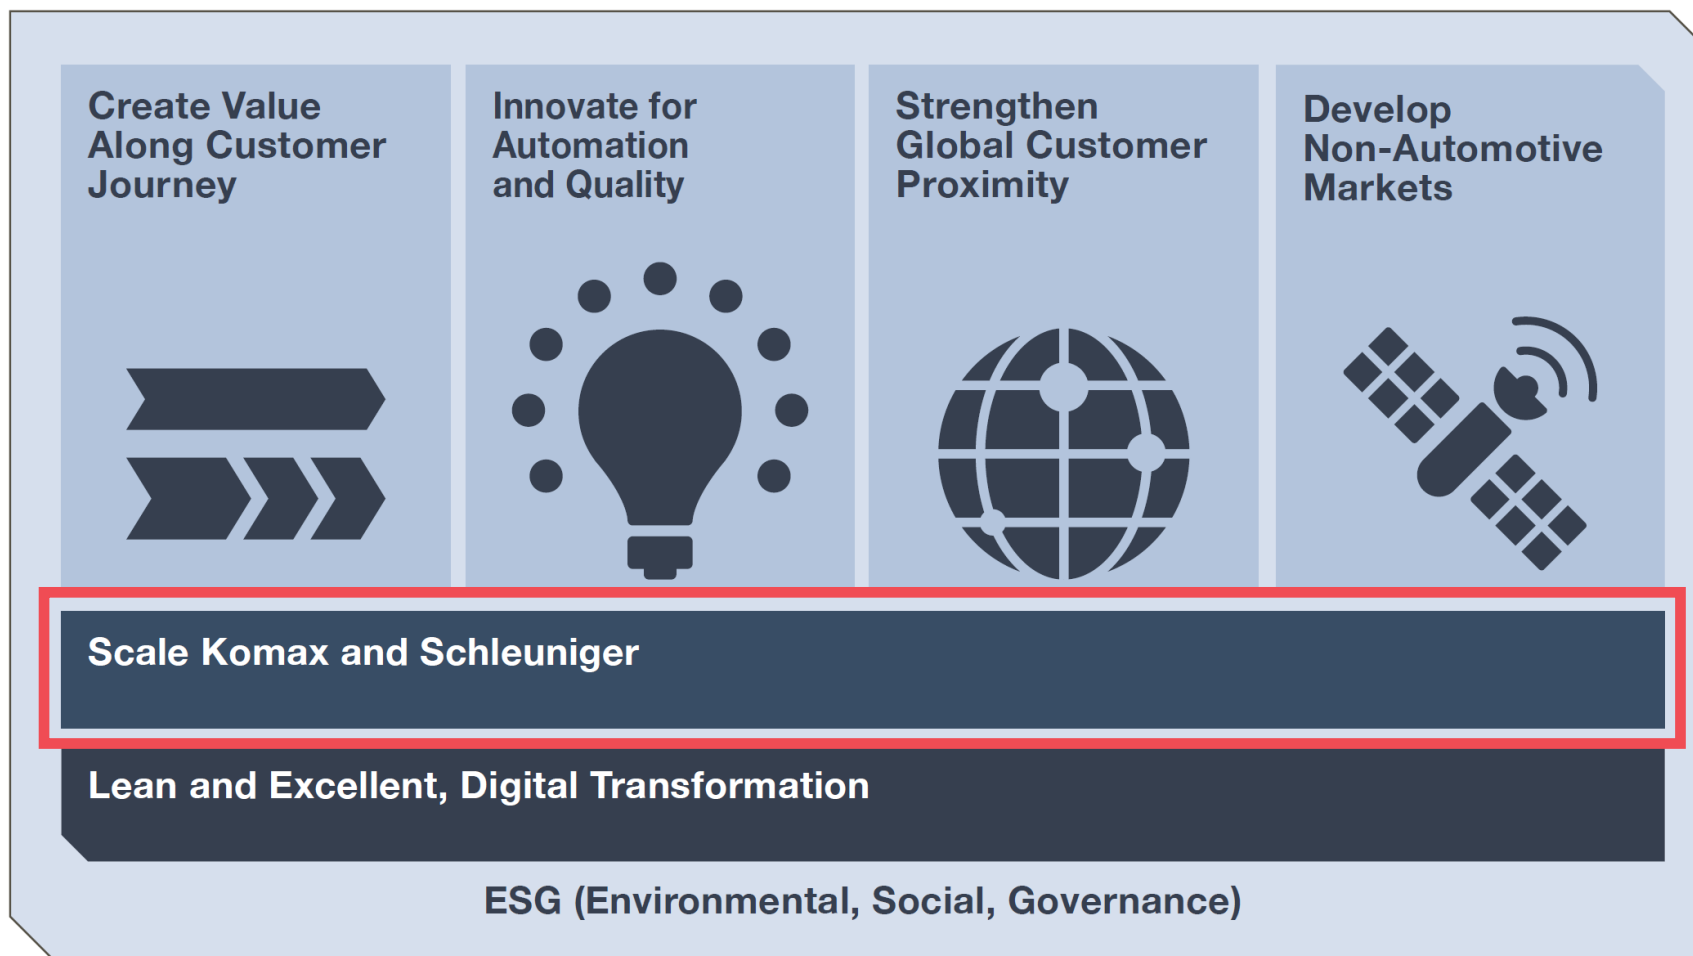

WIRE END PROCESSING

WIRE END PROCESSING

The Komax Group facilitates the manufacturing process along the entire value chain of aircraft manufacturers.

Further strategic priorities

Optimization of sales and service network

Merging from 80 to 51 distribution channels

Streamlining the network
within two years to meet the
“one voice to the customer”
principle

Elimination of redundancies in the Benelux and Czech markets

Bundling of parallel distribution channels to increase customer proximity with just one point of contact and ability to react faster to their needs.

SENO

Czech Republic – takeover of Schleuniger distribution partner

- Acquisition of Seno as of beginning of July 2024
- Integration of Seno and its five employees into Komax Czech Republic Trading

smans

Benelux – transfer of Schleuniger product portfolio to Komax distribution partner

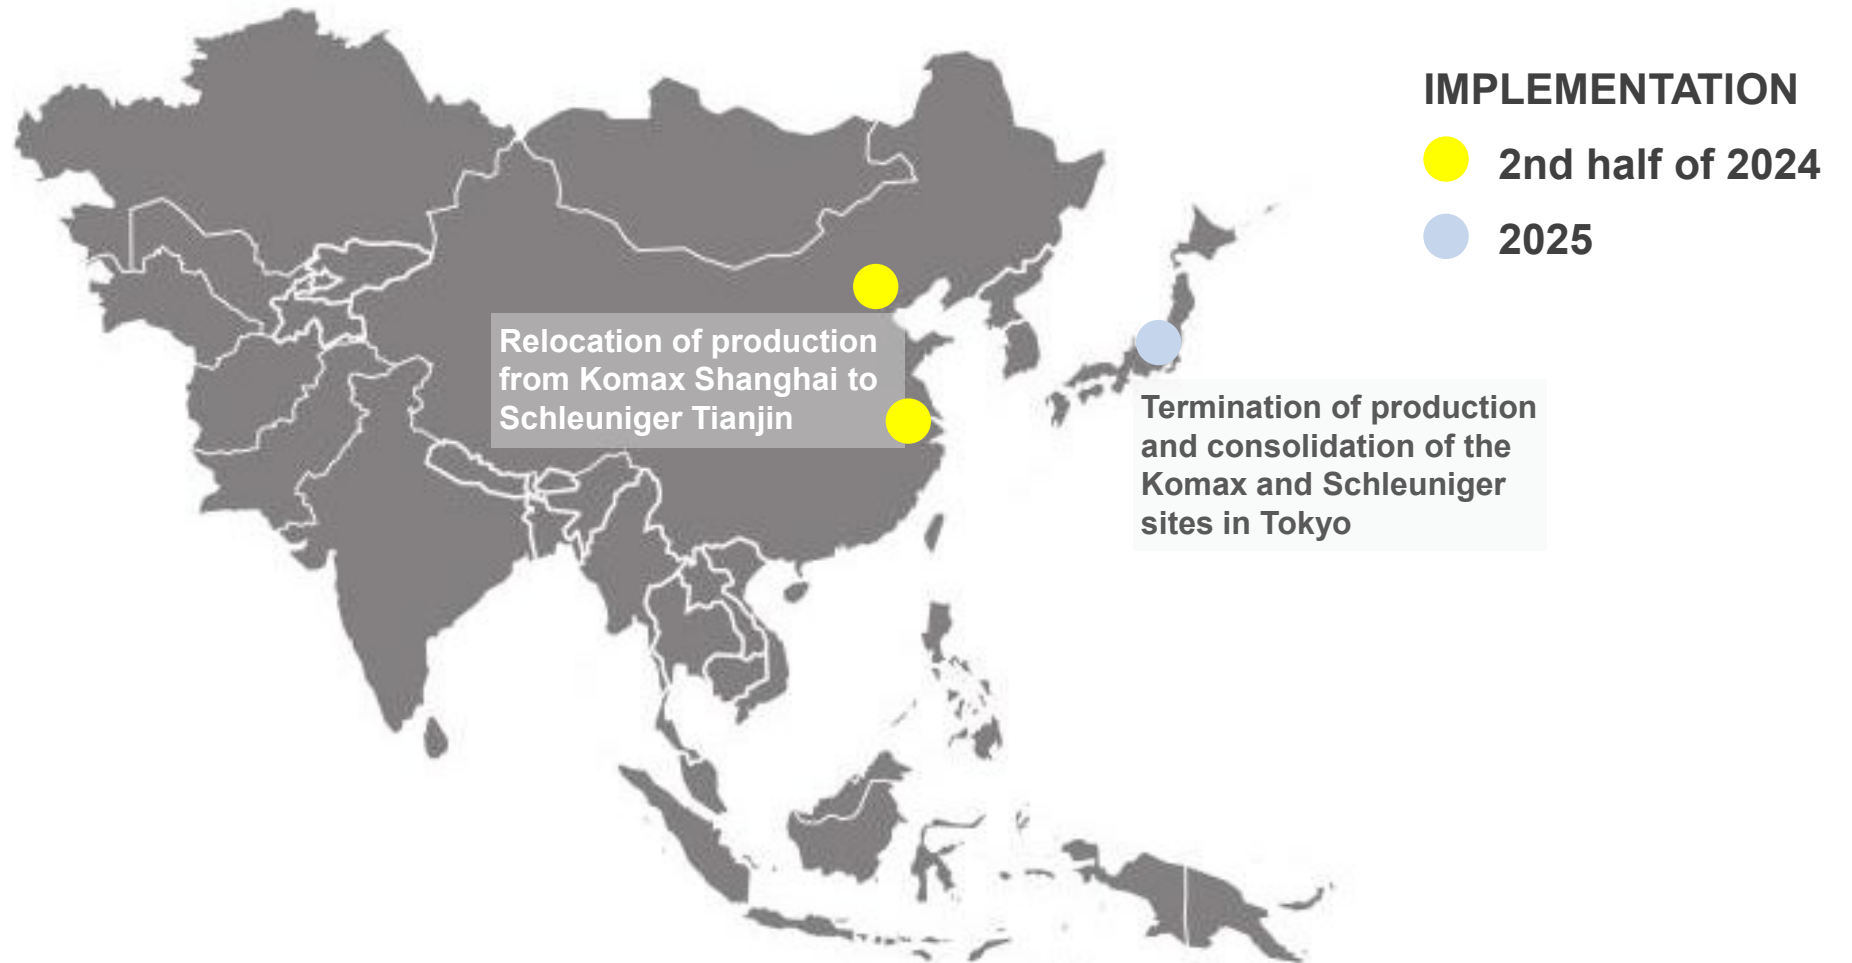

- Minority stake (3%) in Smans as of end of June 2024, which is the long-term distribution partner of Komax in Benelux
- In return: transfer of Schleuniger Benelux distribution unit (3 employees) and Schleuniger product portfolio

Optimization of organizational structure and product portfolio

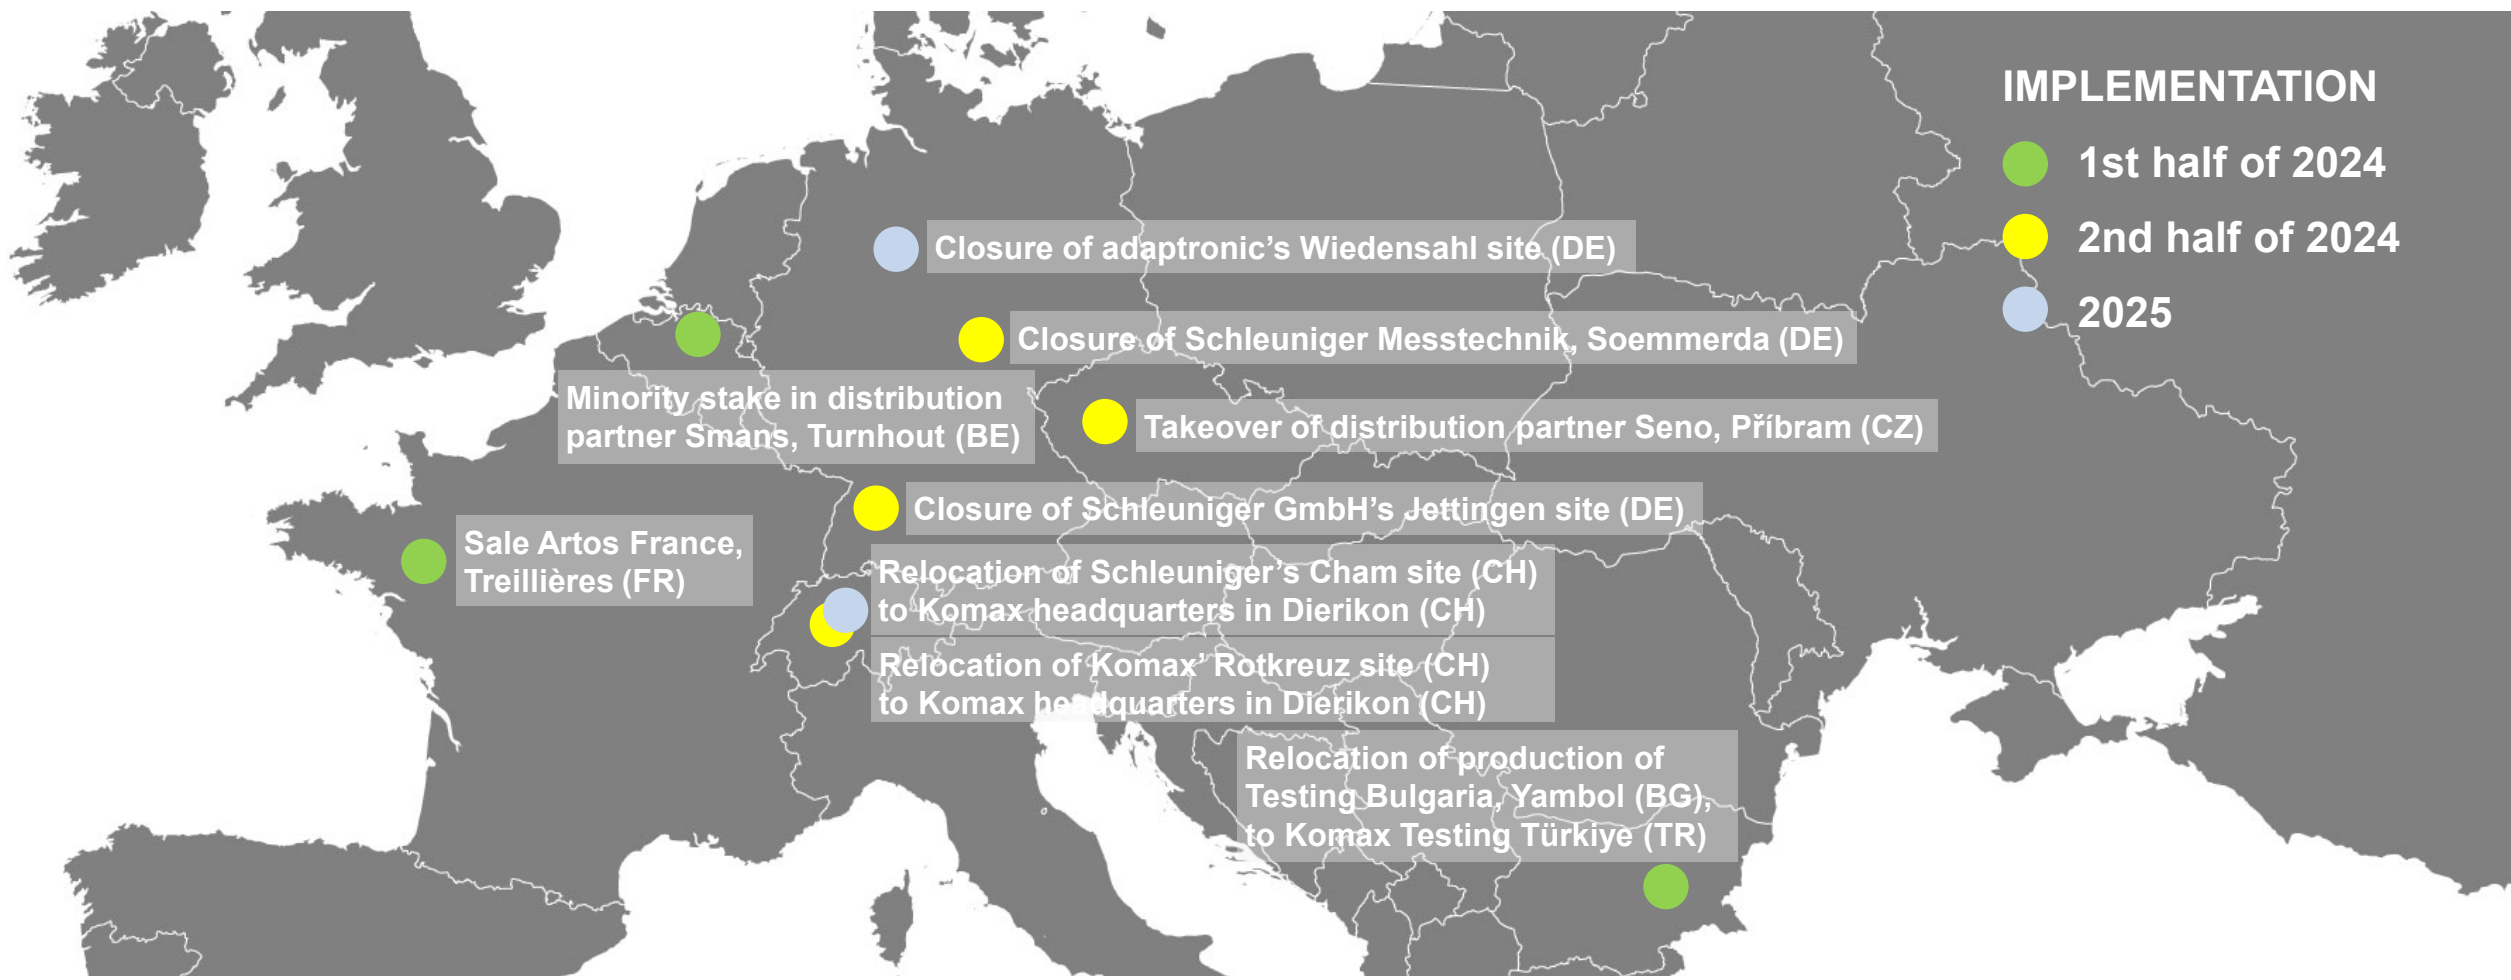

Structural optimizations in Asia

In the mid-term, the measures will reduce complexity and increase profitability

Structural optimizations in Europe

In the mid-term, the measures will reduce complexity and increase profitability

Focus in Switzerland on two production sites

Schleuniger in Cham and Komax in Rotkreuz move to the renovated buildings in Dierikon

Termination of rental agreements in Rotkreuz (end of 2024) and Cham (end of 2025) leads to considerable cost savings, facilitates collaboration, and reduces the ecological footprint in Switzerland.

Cham and Rotkreuz sites

Headquarters in Dierikon

Optimization of site structure and product portfolio

Closure of sites in Germany and Bulgaria affects approx. 130 employees

Quality Solutions

- **Closure of Komax Testing Bulgaria in H1 2024**
- Production expansion at Komax Testing Türkiye
- Strengthening the position in the Turkish growth market

Test Automation

- **Closure of Jettingen site in H2 2024**
- Product portfolio in the area of Test Automation abandoned

Quality Tools

- **Closure of Schleuniger Messtechnik in H2 2024**
- Focus on two production sites – one in Europe and one in Asia
- Step-by-step streamlining of product portfolio

Optimization of site structure and product portfolio

Closure of sites in Germany and Bulgaria affects approx. 130 employees

Quality Solutions

- **Closure of Wiedensahl site in H1 2025**
- Product portfolio of hand adapters and special adapters abandoned

Eliminating product portfolio overlaps

Implementation of a best-of strategy

More on this
at the booth

Reduction of complexity and cost

- Adjustments in the Cut & Strip und Wire Stripper product portfolio categories

Cut & Strip

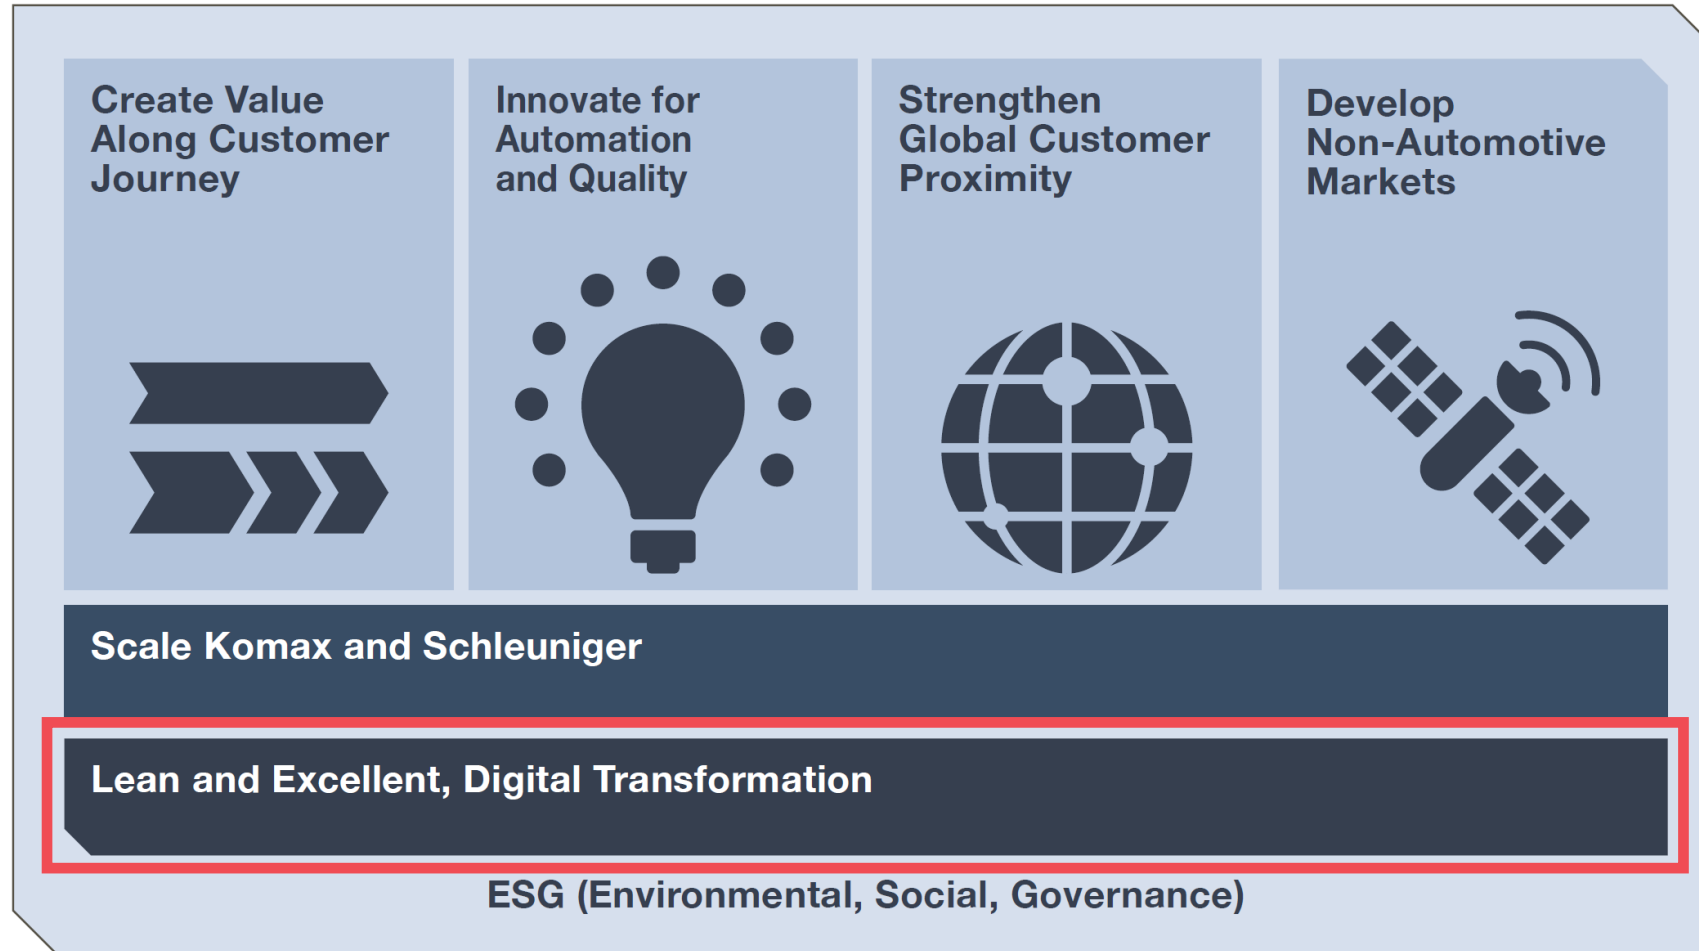

- Production stop of Kappa model series at Komax in Dierikon at the end of 2024
- Focus on products, produced by Schleuniger in Thun

Wire Stripper

- Production stop of Mira model series in Japan by mid-2025
- Focus on products, produced by Schleuniger in Thun
- Lower maintenance and complexity costs thanks to streamlined product portfolio

Further strategic priorities

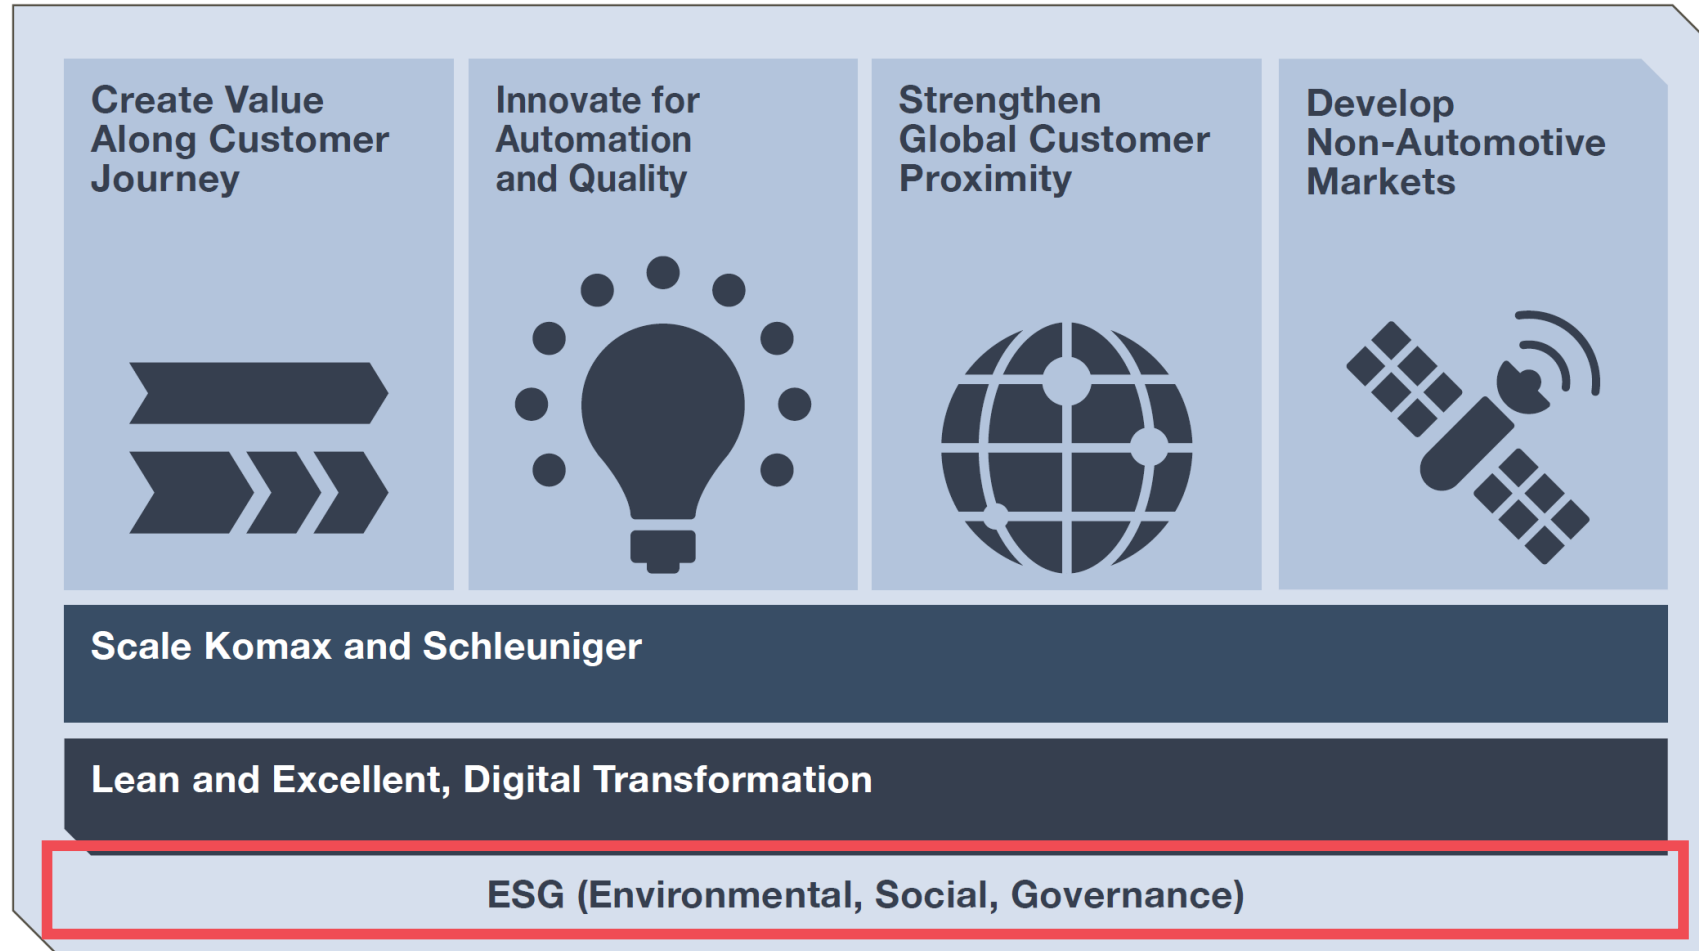

From idea-to-market and contact-to-cash

Major progress in the global implementation of core applications

Further strategic priorities

What do we want to achieve with ESG?

Turning a duty into an opportunity

01 >

Taking responsibility and making an impact

02 >

Complying with regulatory requirements

03 >

Increasing attractiveness as an employer

04 >

Creating competitive advantage

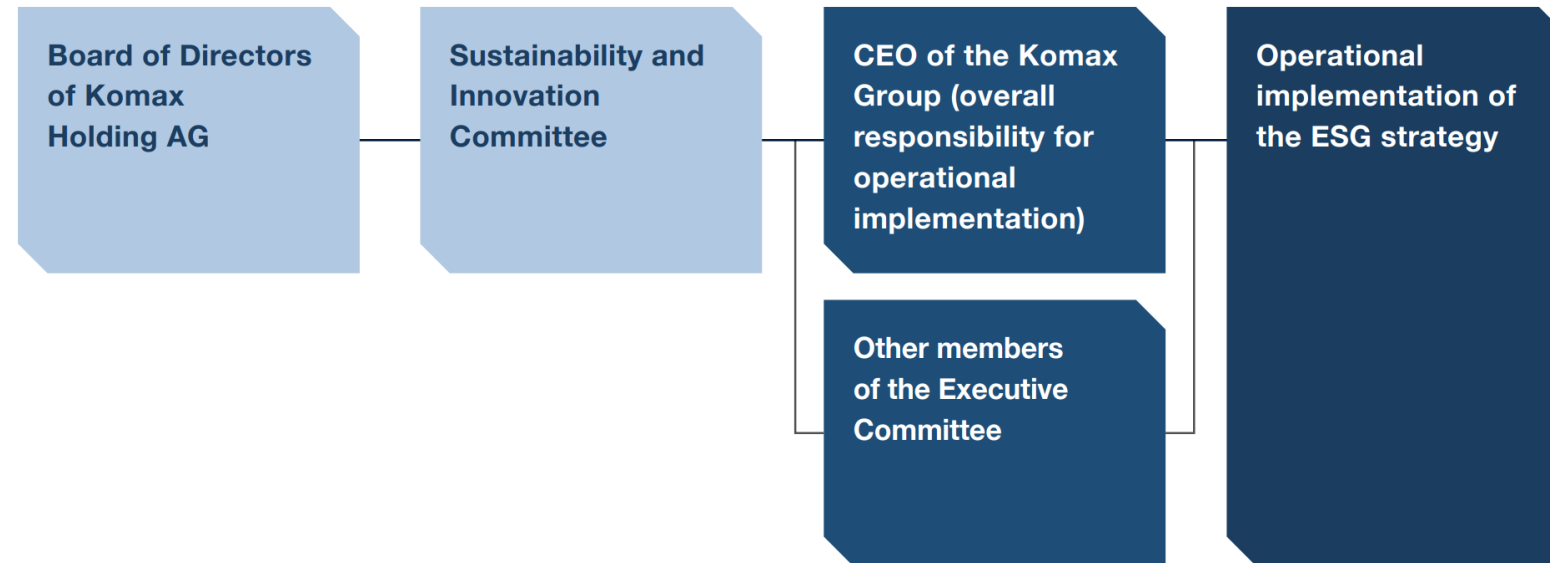

On track to meet the 13 ESG targets

ESG Committee works on implementation

BOARD OF DIRECTORS

EXECUTIVE COMMITTEE

ESG COMMITTEE

Targets in the areas of

- Greenhouse gas emissions and energy efficiency
- Product life cycle management
- Recycling
- Workplace safety
- Employee motivation
- Customer satisfaction
- On-time delivery
- Business ethics and compliance
- Supply chain risk management

Change to the Executive Committee

Marc Schürmann to leave the Komax Group

Member of the
Executive Committee since 2019

Marc Schürmann joined the Komax Group in 1995 and will leave the company at the end of January 2025 to become CEO at another Swiss industrial company.

He has held various management positions in Switzerland and abroad, most recently as Head of the BU Wire Processing.

**What has changed since we
presented the new strategy in
September 2023?**

We used the year to make significant progress

When the market situation improves, we are ready to benefit from it

Market environment is even more challenging

Initial steps in executing the strategy have been completed, and it has been confirmed that the priorities are correctly set

Optimization of the sales network, product portfolio, and organizational structure is well advanced

Strengthening the position in China is progressing rapidly

Cost base continues to decline

Homework has been done to achieve profitable annual growth of 6% to 9% and reach the targets

Note on forward-looking statements

This presentation contains forward-looking statements in relation to the Komax Group, which are based on current assumptions and expectations. Unforeseeable events and developments could cause actual results to differ materially from those anticipated. Examples include: changes in the economic and legal environment, the outcome of legal disputes, exchange-rate fluctuations, unexpected market behavior on the part of competitors, negative publicity, and the departure of management-level employees. The forward-looking statements are pure assumptions, made on the basis of information that is currently available.
