## Professional Experience

---

### Full-stack Developer **AutoLEAD** **Jan 2023 - Present**

Product development team

Dubai

- Developed and deployed 3 **multi-tenant systems** for the Automotive industry using MERN stack.
- Built an in-house Content Management System (CMS) cutting expenses by over **USD 15,000** to date.

**Tech Stack:** Next.js, TypeScript (TS), React.js, Node.js, MongoDB, Redux, Tailwind CSS, AWS

### Frontend Developer (Intern) **Paramount Students** **Sept 2022 – Dec 2022**

Product development team

Istanbul, Turkey

- Gained hands-on experience collaborating within a development team, contributing to frontend projects.
- Translated Figma designs into responsive and user-friendly UIs using Tailwind CSS and React.js.

**Tech Stack:** JavaScript, React.js, Tailwind CSS

### Frontend Developer **Freelance** **2020 - Present**

- Managed and delivered multiple small to medium-sized projects, ensuring client satisfaction and timely completion.
- Successfully delivered 20+ projects across various industries, including Automotive and Construction.

**Tech Stack:** JavaScript, React.js, Next.js, Tailwind CSS, Redux, WordPress

### Web Developer **Peeeko** **Mar 2021 – Apr 2023**

Web development team

Karachi, Pakistan

- Developed and managed multiple WordPress-based projects, contributing to the startup's web presence.

**Tech Stack:** WordPress, Elementor, WooCommerce, Dokan

### Frontend Developer **Web Development Club** **2022 - 2023**

Member

UAF, Pakistan

- Collaborated on multiple projects aimed at improving the college's digital infrastructure and welfare initiatives.

**Tech Stack:** HTML, CSS, JavaScript, React.js

## Languages and Technologies

---

**Core Skills:** HTML, CSS, JavaScript/TypeScript, React.js, Next.js, Node.js, WebSockets, MongoDB, GraphQL

**Technologies:** Git, Redux, Tailwind CSS, Mui, Bootstrap, Babel/Webpack, AWS (S3, EBS), Docker, Jest, Headless CMS, Vercel, Heroku, Google Firebase, WordPress

**Other:** Data Structures & Algorithms (DSA)

## Projects

---

**AutoLEAD Multi-Tenant Systems:** Developed three industry-leading multi-tenant platforms for premier automotive dealers in the Gulf region, enabling effective vehicle showcasing and marketing:

- **AutoDEALER:** Allows dealers to create websites for the specific manufacturers they represent.
- **AutoMALL:** Markets available vehicles within a specific market.
- **AutoFINANCE:** Integrates financing options into the system.

**Technologies:** Next.js, React.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS, Redux, AWS S3

**AutoLEAD CMS:** Developed an in-house CMS powering three multi-tenant systems at AutoLEAD, saving the company over USD 15,000 to date. The CMS efficiently manages content across the platforms, enhancing operational efficiency.  
**Technologies:** Next.js, React.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS, Redux, AWS S3.

**Service Standards GOV.UK:** Led the development of an open-source translation website for GOV.UK's Service Standard, translating content into Arabic and Urdu to ensure accessibility and inclusivity for a wider audience. [Code](#), [Web](#).  
**Technologies:** Next.js, Tailwind CSS, MDX.

**API Archive Project:** Developed a comprehensive listing of 1,400+ public and premium APIs, enabling seamless integration into various applications. [Web](#).  
**Technologies:** Next.js, JavaScript, React Query, Node.js, Express.js, MongoDB

**0 to 1 Series (JavaScript Core Concepts):** Authored extensive guides on fundamental JavaScript concepts, published on my [personal blog](#), to assist beginners in building a strong programming foundation.

## Education and Certifications

---

Associate Degree Program, Computer Science, Virtual University, Pakistan.

2024 - Ongoing

## Interests

---

I am a super-focused Introvert, an amateur Chess player, tech author and a student of Physics.
