THE COMMUNITY LAP

Community updates/projects.
What's the word around the club?

October was a huge month for the club with the *ON TRACK* announcement that we will be sponsoring NASCAR driver Julia Landauer in her race at Homestead Miami. Julia qualified to start in 37 position and crossed the checkered line finishing 28th race day! This was a huge accomplishment moving up 9 spots during the race and finishing without a scratch on the car. We also launched an exclusive *ON TRACK* collectible celebrating Julia and this *ON TRACK* sponsorship be sure to head to the garage and claim your card pack.

October was a big month for community and team participation, The Team Dream Garage competition came to a conclusion with all participating teams winning a thingie and the top 3 Garages from Red Light Racers, Road Runna's, and Prawn to Ride taking home some thingies with exotic backpacks. In addition to celebrate Julia's upcoming race and her appearance live with us on twitch TV, we hosted a design your own NASCAR skin competition with Urban Gecko taking home the grand prize BoredBox Genesis gamers box, and runner ups Dj mcenergy and Marklar landing themselves some AIFA All Stars.

Unlimited Customs has the 1JZ engine all stripped down and ready for the machine shop where it will receive a full inspection including vacuum and crack testing, a full cleaning, and receive a .5 mm Bore so it can house some oversized pistons.

CAN THE DEVS DO SOMETHING?

Where my devs at?

Devs been working hard this month to deliver our first ever *OnTrack* Collectable this will be a growing collection to celebrate ATEM sponsorships past, present, and future. These digital collectables give all ATEM membership card holders the ability to show their support and collect collectables from their favorite professional racers. These collector cards not only let you rep your favorite drivers but will also carry over and add utility to ATEM Car Clubs upcoming games and experiences.

Front end Devs and artists have been optimizing and adding the finishing touches to the first iteration of the ATEM garage experience, this will not be a place that you just visit or a 2D image on a screen to stare at but instead a fully interactive experience for club members to enjoy!
