Bespoke Liquidity for Forex & CFD markets

About Match-Prime

Who we are

Match-Prime is a Liquidity Provider that works exclusively with professional clients and institutions on a Prime of Prime model offering bespoke liquidity for Forex & CFDs. Our offer combines deep, multi-asset liquidity for over 1000 instruments with ultra-fast connectivity. We deliver tailor-made solutions to help our clients meet their business goals.

Technology

Our liquidity solution relies on the advanced technology developed by Match-Trade Technologies, the leading provider of Broker solutions. Our liquidity is already integrated with the most popular trading platforms and various distribution systems, making it easily accessible for most Brokers on the market.

Values

We offer transparent conditions and an individual approach to each of our clients. We always make sure that our client's best interests are central to our decision-making.

Custom package

Through the strategic partnership with Match-Trade Technologies our clients gain access to the custom package of Liquidity combined with White Label trading platform designed to help increase business efficiency.

Our Management Team

We are a blend of talented and knowledgeable professionals in the financial industry, we focus on maintaining a high standard of service and are committed to fair and transparent business ethics.

The Advantages We Offer to Our Clients

Trusted partner

We are authorised and regulated by the Cyprus Securities and Exchange Commission (CySEC), under License Number 390/20.

In-house Technology

Our Institutional liquidity platform relies on a ultra fast matching-engine developed by the team of industry-valued experts

Free Trial Period

We offer a 3 month free trial period. Our clients can connect and test our liquidity solution to compare the conditions with other LPs

Competitive pricing

Simple offer, a minimum monthly fee starting from \$1000, spreads as low as 0.1 and bespoke conditions for each client.

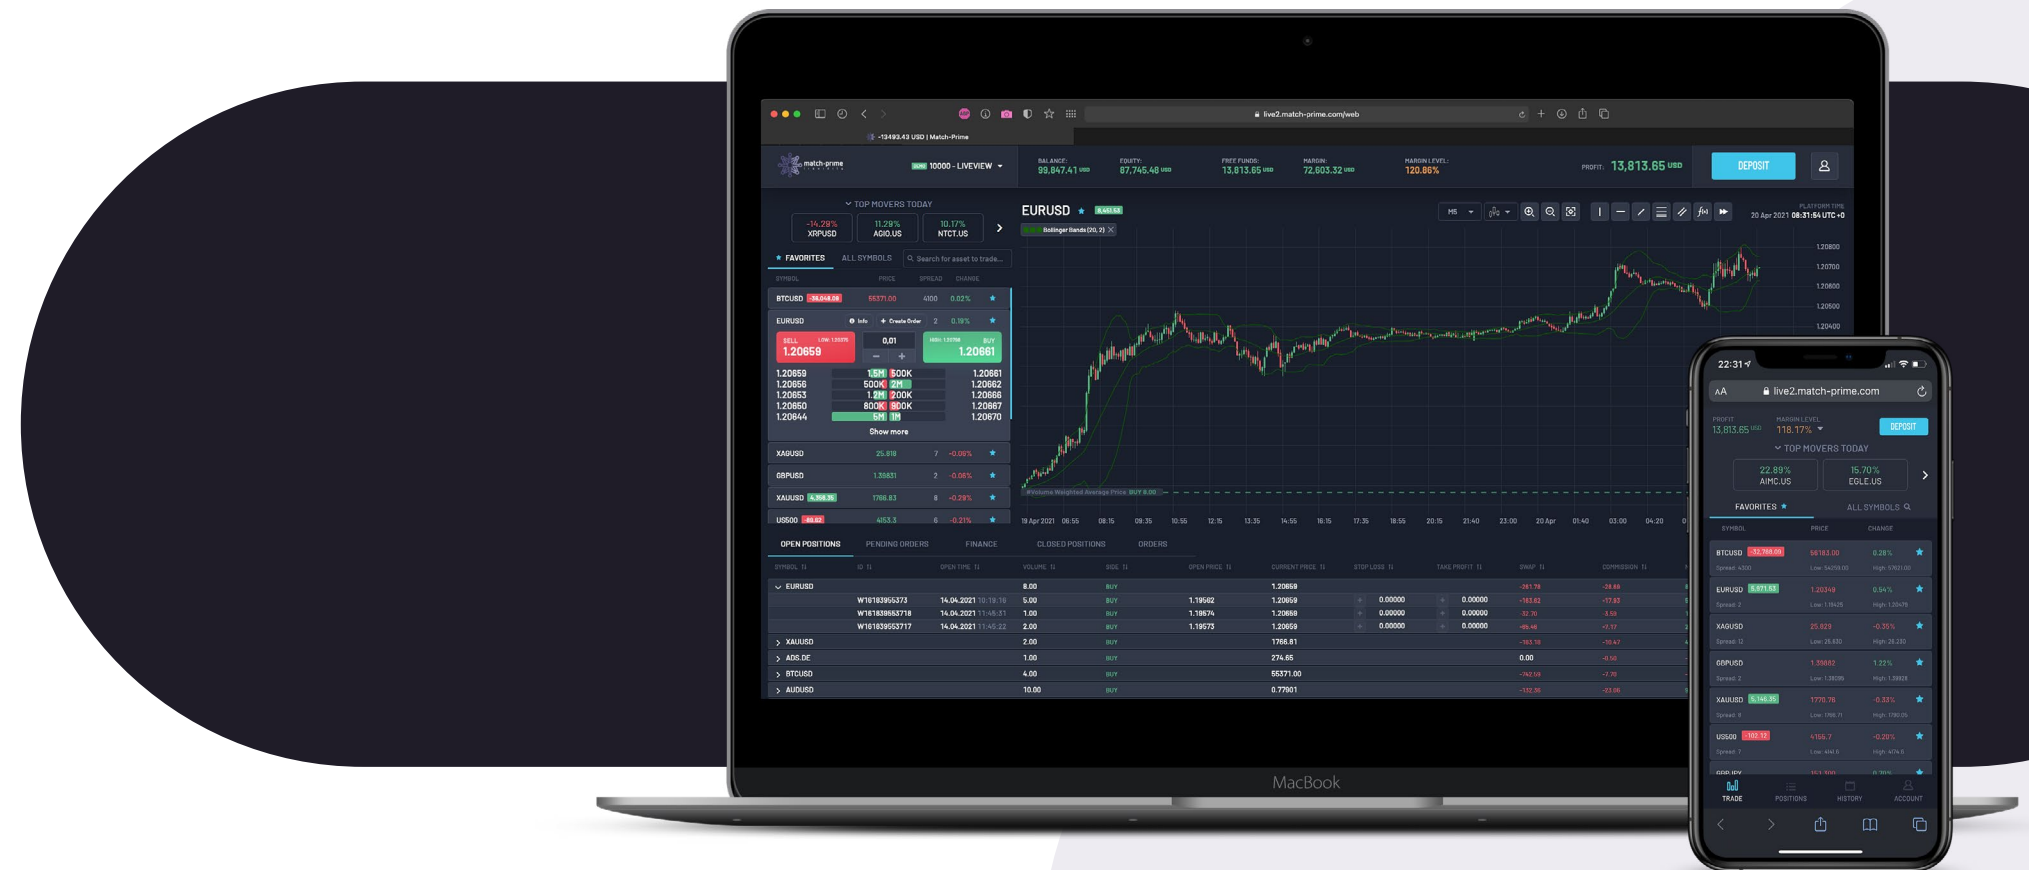

Low spreads and best execution

Our matching engine ensures no re-quotes, no stop/limit restrictions, and up to 90% of orders executed at the requested price or better.

Low latency connectivity

We host all of our servers close to our liquidity sources to minimise slippage and provide one of the fastest execution.

Our Institutional Liquidity Platform

Match-Trader Pro is the new generation system offering a transparent, distributed and independent ECN market.

Our institutional liquidity platform has all necessary functionalities to actively manage a liquidity account such as Market Depth presentation, daily reports, FIX connectivity, click and trade buttons, market watch and full view of account summary.

Match-Trader Pro has been built using web technology, which makes it very light and easily accessible from all internet-connected devices.

Match-Trader Pro

New Generation Platform

Key information about the trading account gathered in a visible place

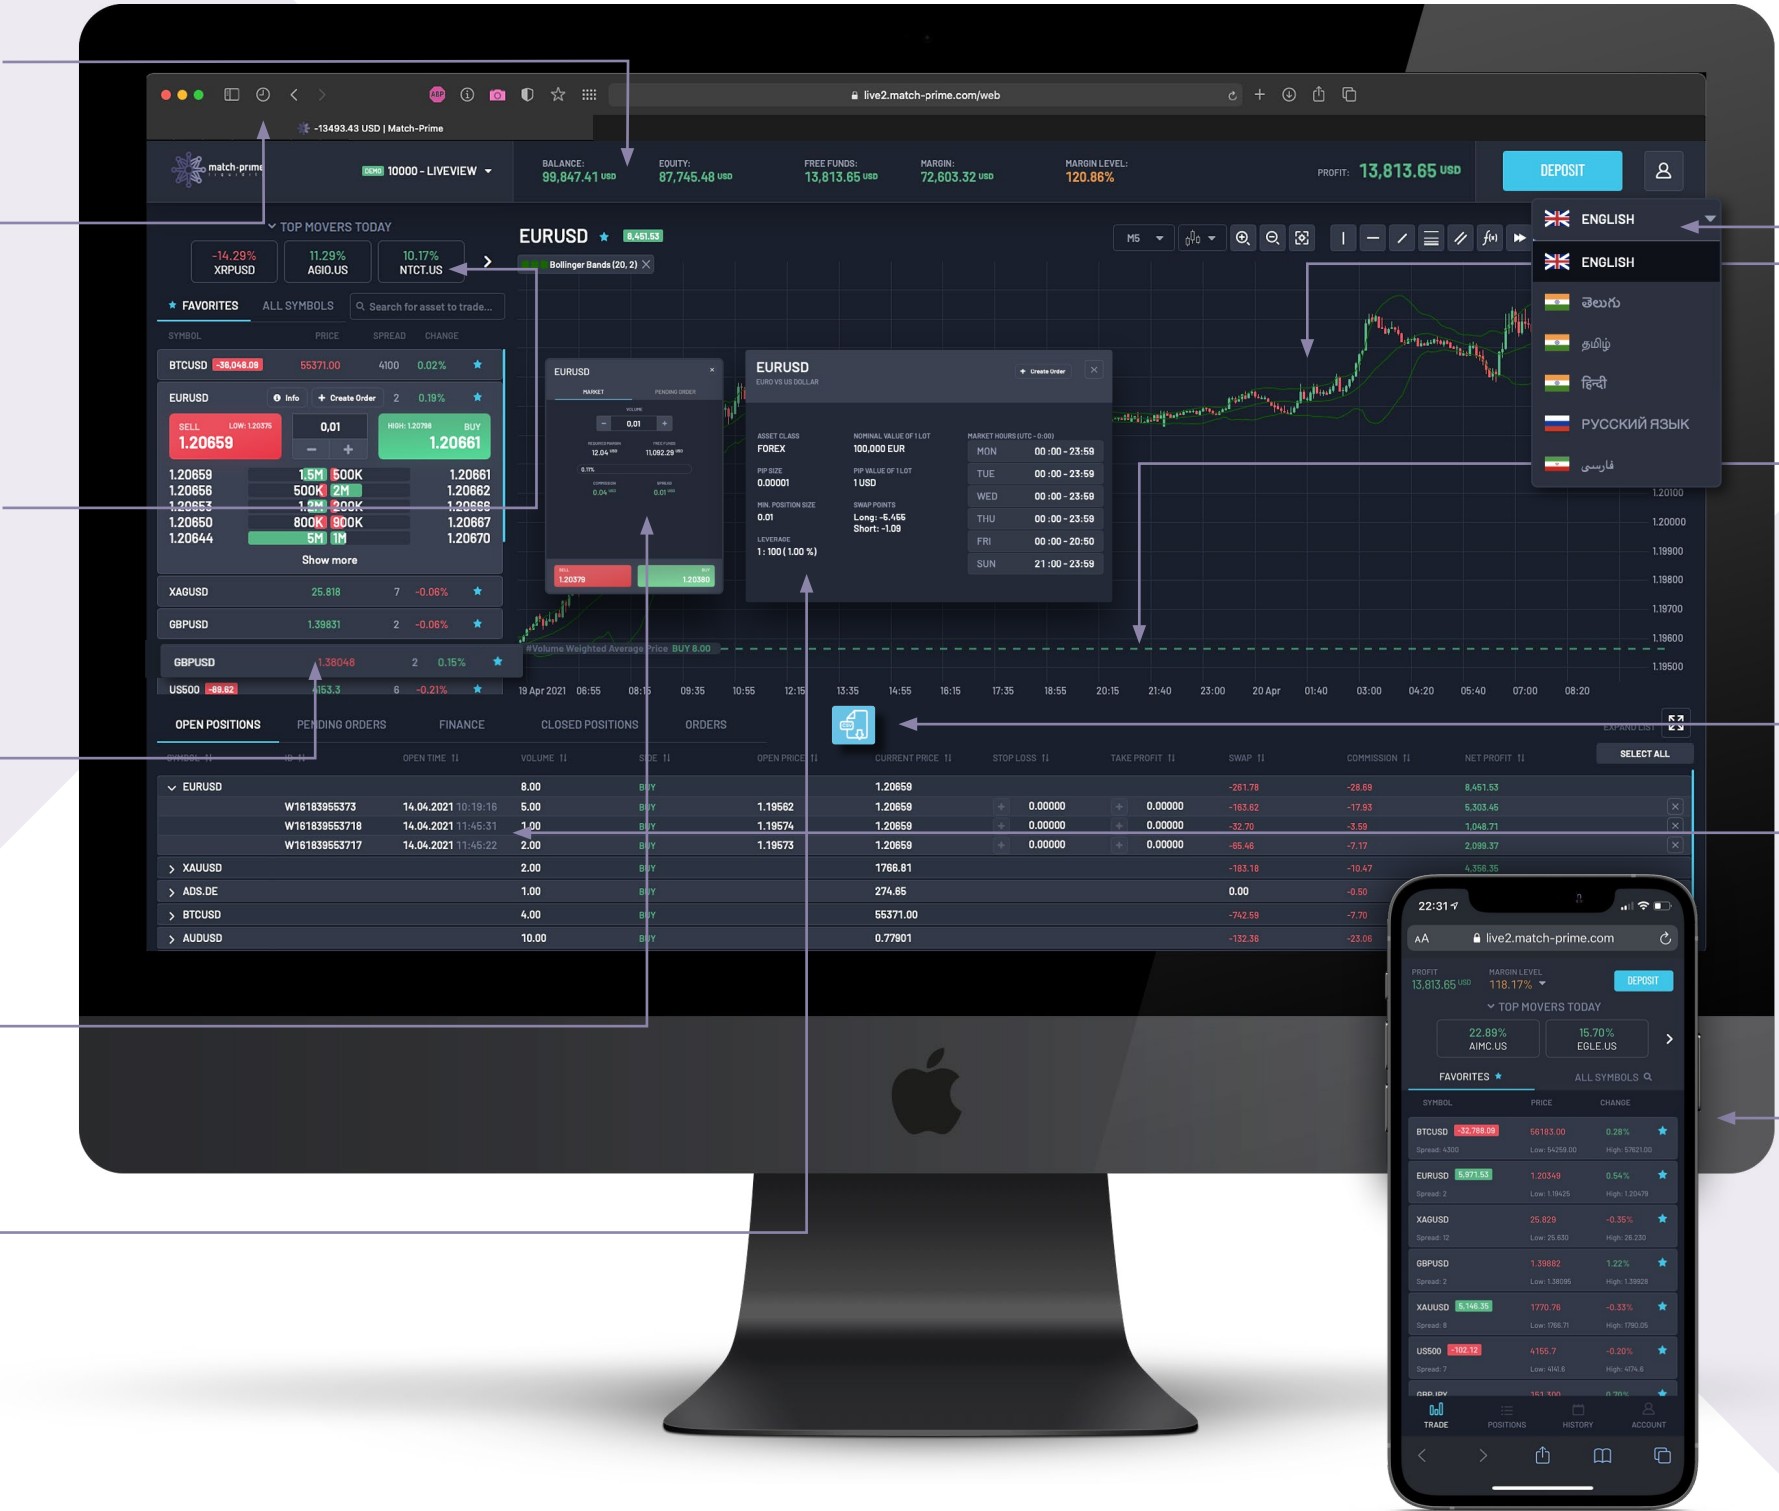

The current profit displayed on the browser tab to control open positions

Top Movers Today showing the instruments with the highest volatility of the day

Instruments in the Market Watch arranged in a customized order by "drag & drop"

All costs visible in advance in the Create order view before opening the position

Instrument information available in the platform, e.g. swaps and trading hours

Multiple language versions to ease the use of the platform by all team members

Wide range of indicators added to the chart facilitating a detailed analysis of trends

Volume Weighted Average Price displayed right on the chart

Convenient filtering of orders with the possibility of quick data export to a CSV file

Positions grouped by instrument to view the overall result on a given instrument

Easy access to the platform through web, mobile and desktop app

Our Liquidity Offer

Our solution is based on the ultra-fast matching engine which guarantees no requotes, no rejections and no last look execution.

We provide liquidity access to 1000+ trading instruments and 7 asset classes on a single account:

- 5+ Energies

10+ Metal

20+ Commodities

3 months free trial period

Low Spreads from 0.1

Fast onboarding procedure

Complete business solutions for Forex Brokers

All our clients can take advantage of the custom package of Match-Prime Liquidity combined with a White Label trading platform offered by Match-Trade Technologies, our strategic partner. We have created this solutions bundle for clients who want to start their Forex Broker fast, with less risk and lower cost.

White Label platforms available in our custom package with our Liquidity

- Match-Trader
- MT4
- MT5

Elective features available in our custom White Label and Liquidity package.

MT4/MT5 Bridge

Ultimate bridging and aggregation technology expanded with Match-Trade's in-house risk management system.

Market Data

Low latency price streams. The data feed uses proprietary algorithms, assuring prices' speed and accuracy in various conditions.

Client Office with CRM & Analytics

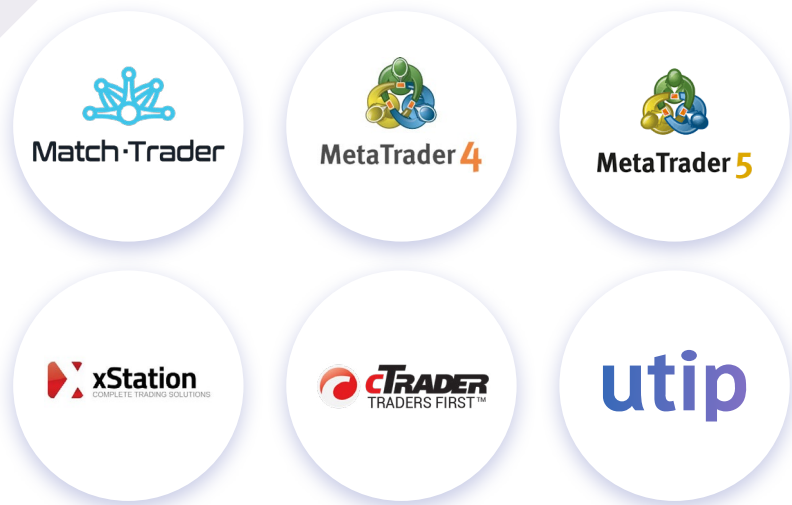

The Client Office & Forex CRM can help optimize the entire sales and onboarding process. Branded app for traders and IBs is included.

Flexible Connectivity & Seamless Integration

Our advanced technology assures easy and quick access to our Liquidity via various distribution systems (Bridge/FIX API):

Liquidity available for Brokers using different platforms from various technology providers:

Tools We Offer

We offer a full suite of tools to provide the best performance of your forex business:

- Risk and routing engine**
Connect various sources of liquidity via FIX protocol and change hedging parameters when needed. Switch on and off particular liquidity providers, add markups and more.
- Open order book**
Our ECN matching engine provides top execution speed and lowest possible latency. Each order is matched with the best liquidity available on the forex market.
- Back-office with API**
Use our back-office to manage the whole system, access reports and account information. Or integrate your own back-office with FX-EDGE systems through our API.
- FIX API and MT4 Bridge**
For algorithmic trading or connecting your own trading systems to FX-EDE liquidity pool use seamless access via our FIX API or benefit from our in-house MT4 bridge
