

Maldives National Skills Development Authority

National Competency Standard for Commercial Cookery

Standard Code: TOU03S18V3

Qualification Name: National Certificate IV in Commercial Cookery Qualification Code: TOU03SQ2L418

PREFACE

Technical and Vocational Education and Training (TVET) Authority was established with the vision to develop a TVET system in the Maldives that is demand driven, accessible, beneficiary financed and quality assured, to meet the needs of society for stability and economic growth, the needs of Enterprise for a skilled and reliable workforce, the need of young people for decent jobs and the needs of workers for continuous mastery of new technology.

TVET system in the Maldives flourished with the Employment Skills Training Project (ESTP) funded by ADB with the objective of increasing the number of Maldivians, actively participating in the labour force, employed and self-employed. The Project supported expansion of demand driven employment-oriented skills training in priority occupations and to improve the capacity to develop and deliver Competency Based Skill Training (CBST). The project supported delivery of CBST programs to satisfy employer demand-driven needs. The National Competency Standards (NCS) provide the base for this training. Currently CBST is offered for five key sectors in the Maldives: Tourism, Fisheries and Agriculture, Transport, Construction and the Social sectors. These sectors are included as priority sectors that play a vital role in the continued economic growth of the country.

The NCS are developed in consultation with Employment Sector Councils representing employers. They are designed using a consensus format endorsed by the Maldives Qualifications Authority (MQA) to maintain uniformity of approach and the consistency of content amongst occupations. This single format also simplifies benchmarking the NCS against relevant regional and international standards. NCS specify the standards of performance of a competent worker and the various contexts in which the work may take place. NCS also describes the knowledge, skills and attitudes required in a particular occupation. They provide explicit advice to assessors and employers regarding the knowledge, skills and attitudes to be demonstrated by the candidates seeking formal recognition for the competency acquired following training or through work experience. By sharing this information, all participants in the training process have the same understanding of the training required and the standard to be reached for certification. Certification also becomes portable and can be recognized by other employers and in other countries with similar standards. NCS are the foundation for the implementation of the TVET system in Maldives. They ensure that all skills, regardless of where or how they were developed can be assessed and recognized. They also form the foundation for certifying skills in the Maldives National Qualification Framework (MNQF).

BRIEF DESCRIPTION OF THE CURRENT AND FUTURE CONDITIONS IN THE SECTOR:

This qualification provides the basic skills and knowledge required for entry level workers in the food processing industries. It focuses on a defined and limited range of food preparation and cookery skills to prepare industry standard food and menu items.

Participants who complete this course should be able to prepare sandwiches, appetizers, salads, stocks and sauces according to recipe. And should also be able to prepare dishes from vegetable, seafood, poultry and game and meat and present the food to industrial standard

DESCRIPTION OF THE WORK AND WORKING CONDITIONS:

The competencies were determined based on the analysis of the tasks expected to be performed by an entry level chef under the close supervision and guidance of a head chef. The task analysis was based on the existing documents prepared among the experts in the industry and on the advice of the experts in the field of Chef training in Maldives. Competency standards used for similar type of training in other countries were also examined.

		1.4. Industry information is correctly applied to day-to-day work activities.		
 Update induktion knowledge 	ıstry	2.1. Informal and/or formal research is used to update general knowledge of the industry		
		2.2. Updated knowledge is shared with customers and colleagues as appropriate and incorporated into day-to-day working activities		
 Develop an knowledge 	d update local	3.1 Local knowledge is developed to assist queries on local/national tourism industry		
		3.2 Local knowledge is updated using informal and/or formal research		
		3.3 Contact with local communities is maintained		
4. Promote pro- services to custome		4.1 Promotional initiatives are described that may be used to promote products and services		
		4.2 Selling skills are applied according to customer needs		

Information sources;

- media
- reference books
- libraries
- industry associationsindustry journals
- internet

- personal observation and experience
- online news media (local and global)

•

Information to assist effective work performance;

- different sectors of the industry and the services available in each sector
- relationship between tourism and hospitality
- relationship between the industry and other industries
- industry working conditions
- health and safety
- hygiene
- duty of care
- career opportunities within the industry
- work ethic required to work in the industry and industry expectations of staff
- quality assurance

Informal and formal research;

- Discussions with colleagues, management and customers
- Reading internal enterprise material about products and services
- Familiarity with customer comments including complaints
- Reading and researching product data and information
- Conducting internal testing to determine quality and differentials
- General media research
- Developing and analyzing responses to questionnaires
- Reading surveys and ratings

Promotional initiatives;

- Media campaigns
- Internal promotions, including static displays, demonstrations, tastings, videos, competitions, packages, events

Tools, equipment and materials required may include: Nil

ASSESSMENT GUIDE

Form of assessment

- Interview/questions
- Practical demonstration
- Portfolio of industry information related to trainee's work

Assessment context

Assessment may be done in a classroom or interview scenario.

Critical aspects

Assessment requires evidence that the candidate;

- Knew key sources of information on the industry
- Updated industry knowledge
- Accessed and used industry information
- Developed and updated local knowledge
- Promoted products and services.

Assessment conditions

- Theoretical assessment of this unit must be carried out in an examination room where proper examination rules are followed.
- Assessment of neat work practices must be constantly evaluated.

UNDERPINNING KNOWLEDGE AND SKILLS

Underpinning knowledge	Underpinning skills
 Overview of quality assurance in the industry Role of individual staff members Industry information sources 	 Time management Ready skills needed to access industry information Basic competency skills needed to access the internet

UNIT 02

UNIT TITLE	Observe personal and work place hygiene practices				
DESCRIPTOR	This unit covers the knowledge, skills and attitudes required to observe				
	workplace hygiene procedures and maintaining of personal presentation and grooming standard.				

	This unit deals wit hygiene of worker the job.	-		0	5
CODE	TOU03S1U02V3	LEVEL	3	CREDIT	3

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
	1.1. Grooming, hygiene and personal
	presentation practices maintained at
1. Observe grooming, hygiene and	high standards in line with industry
personal presentation standards	norms and procedures
	1.2. Adequate level of personal cleanliness
	observed throughout the work
	1.3. Effects of poor personal hygiene
	understood and avoided in all practices
2. Follow hygiene procedures	2.1. Hygiene procedures followed in line with
	procedures and legal requirements
	2.2. Hygiene standards maintained in line
	with procedures
3. Identify and avoid hygiene risks	3.1. Hygiene risks understood and avoided
	in line with general standards and
	guidelines

ASSESSMENT GUIDE

Form of assessment

- Assessment for the unit needs to be holistic and observed during assessment of other units of competency which forms the qualification.
- Any written or oral examinations may include questions related to hygiene, illness and personal grooming standard.

Assessment context

Assessment may be done in workplace or a simulated work environment.

Critical aspects

It is essential that competence is fully observed and there is ability to transfer competence to changing circumstances and to respond to unusual situations in the critical aspects of:

- Maintaining adequate level of all aspects of personal hygiene and cleanliness
- Following cleaning procedures for effective cleaning of work areas
- Immediately reporting any symptoms of illness

- Undertaking routine medical check-ups
- This unit may be assessed in conjunction with all and units which form part of the normal job role

Assessment conditions

- Theoretical assessment of this unit must be carried out in an examination room where proper examination rules are followed.
- Assessment of hygienic work practices must be constantly evaluated.

UNDERPINNING KNOWLEDGE AND SKILLS

UNDERPINNING KNOWLEDGE	UNDERPINNING SKILLS
 General knowledge of common terminologies used in hygiene including personal hygiene 	 Ability to follow procedures and instructions Competent to work according to relevant
 Knowledge on general symptoms of different types of diseases Detailed knowledge and importance of 	 hygiene regulations and procedures Competent to work to meet requirements for personnel hygiene and
illness and injury reporting procedures	 A communication skills Interpersonal skills

UNIT 03

UNIT TITLE	Practice effective workplace communication		
DECONTROD			
DESCRIPTOR	This unit addresses the need for effective communication in the spa		
	environment. It describes the ethics of communication and shows the		
	importance of selecting the best method of communication during various		
	situations. It also identifies the barriers to communication and explains how to		
	overcome them. The unit also describes how to use the telephone; the		

	procedures for ans and taking messa telephone equipm	ages. In additi	U	0	0 0 0
CODE	TOU03S1U03V3	LEVEL	3	CREDIT	3

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Communicate with customers and	1.1. Proper channels and methods of
colleagues	communication used
	1.2. Workplace interactions with customers
	and colleagues appropriately made
	1.3. Appropriate non-verbal communication used
	1.4. Appropriate lines of communication
	followed
2. Participate in workplace meetings and	2.1. Meetings and discussions attended on
discussions	time
	2.2. Procedures to expressing opinions and
	following instructions clearly followed
	2.3. Questions asked and responded to
	effectively
	2.4. Meeting and discussion outcomes
	interpreted and implemented correctly
3. Handle relevant work-related	3.1. Conditions of employment understood
documentation	correctly
	3.2. Relevant information accessed from
	appropriate sources
	3.3. Relevant data on workplace forms and
	other documents filled correctly
	3.4. Instructions and guidelines understood
	and followed properly
	3.5. Reporting requirements completed
	properly
4. Handle telephone	4.1. Procedures for taking messages and
	making outgoing calls followed correctly
	4.2. Incoming calls answered correctly
	4.3. Calls put on hold and transferred
	properly
	4.4. Outgoing calls made efficiently

Procedures included:

- Organizational hierarchy and reporting order
- Communications procedures
- Telephone handling procedures

Aspects evaluated:

- Non-verbal communication
- Interpersonal skills
- General attitude to customers, colleagues and work
- Conformity to policies and procedures

Tools, equipment and material used in this unit may include

- Telephone
- Note pads
- Pens
- Forms and formats related to inter-personal communication

ASSESSMENT GUIDE

Assessment form

Assessment for the unit needs to be continuous and holistic and must include real or simulated workplace activities.

Assessment context

Assessment of this unit must be completed on the job or in a simulated work environment which reflects a range of opportunities for communication.

Critical aspects (for assessment)

It is essential that competence is fully observed and there is ability to transfer competence to changing circumstances and to respond to unusual situations in the critical aspects of communicating effectively with others involved in or affected by the work. This unit may be assessed in conjunction with all and units which form part of the normal job role.

Assessment conditions

It is preferable that assessment reflects a process rather than an event and occurs over a period of time to cover varying circumstances.

Special notes for assessment

Evidence of performance may be provided by customers, team leaders/members or other persons, subject to agreed authentication arrangements

Resources required for assessment

The following should be made available:

• A workplace or simulated workplace

• Materials and equipment

UNDERPINNING KNOWLEDGE	UNDERPINNING SKILLS
General knowledge of English and	• Undertake effective customer relation
Divehi grammar	communications
• General knowledge of common	• Competent in communicating basic with
telephone equipment	customers
General knowledge on effective	• Fluency in English and Dhivehi
communication	language usage

	ENTS OF ETENCIES	PERF	ERFORMANCE CRITERIA			
1.	Respond to an	1.1.	Recognize an emergency situation			
	emergency situation	1.2.	Identify, assess and manage immediate hazards to health and safety of self and others			
		1.3.	Assess the casualty and recognize the need for first aid response			
		1.4.	Assess the situation and seek assistance from emergency response services			
2.	Apply appropriate first aid procedures	2.1.	Perform cardiopulmonary resuscitation (CPR) in accordance with the established first aid principles.			
		2.2.	Provide first aid in accordance with established first aid principles			
		2.3.	Display respectful behavior towards casualty			
		2.4.	Obtain consent from casualty where possible			
		2.5.	Use available resources and equipment to make the casualty as comfortable as possible			
		2.6.	Operate first aid equipment according to manufacturer's instructions			
		2.7.	Monitor the casualty's condition and respond in accordance with first aid principles			
_	Communicate details of the incident	3.1.	Accurately convey incident details to emergency response services			
		3.2.	Report details of incident to workplace supervisor as appropriate			
		3.3.	Maintain confidentiality of records and information			
4.	Evaluate the incident and own performance	4.1.	Recognize the possible psychological impacts on self and other rescuers involved in critical incidents			
		4.2.	Participate in debriefing to address individual needs			

Established first aid principles include:

- checking and maintaining the casualty's airway, breathing and circulation
- checking the site for danger to self, casualty and others and minimising the danger.

Physical and personal hazards may include:

- workplace hazards such as fire, floods, violent persons
- environmental hazards such as electrical faults, chemical spills, fires, slippery surfaces, floods, wild animals, fumes,
- proximity of other people
- hazards associated with the casualty management processes.

Risks may include:

- worksite equipment, machinery and substances
- bodily fluids
- risk of further injury to the casualty
- risks associated with the proximity of other workers and bystanders.

First aid management will need to account for:

- location and nature of the work environment
- environmental conditions and situations, such as electricity, biological risks, weather and terrain, motor vehicle accidents,
- the level of knowledge, skills, training and experience of the person administering first aid
- familiarity with particular injuries
- legal issues that affect the provision of first aid in different industry sectors
- the characteristics of the site where the injury occurs
- the nature of the injury and its cause
- infection control procedures
- availability of first aid equipment, medications and kits or other suitable alternative aids
- proximity and availability of trained paramedical and medical/health professional assistance
- the patient's cardio-vascular condition as indicated by vital signs such as body temperature, pulse rate and breathing rates
- unresolved dangers such as fire, chemical contamination or fume toxicity of the area where the injury occurs.

Vital signs include:

- breathing
- circulation

• consciousness.

Injuries may include:

- abdominal trauma
- allergic reactions
- bleeding
- chemical contamination
- choking
- cold injuries
- cardio-vascular failure
- dislocations and fractures
- drowning
- poisoning and toxic substances
- medical conditions including epilepsy, diabetes, asthma
- eye injuries
- head injuries
- minor skin injuries
- neck and spinal injuries
- needle stick injuries
- puncture wounds and cuts
- crush injuries
- shock
- smoke inhalation
- sprains and strains
- substance abuse
- unconsciousness
- infections
- inhalation of toxic fumes and airborne dusts
- bone and joint injuries
- eye injuries
- burns and scalds, thermal, chemical, friction and electrical

Injuries may involve:

- unconsciousness
- confusion
- tremors
- rigidity

- numbness
- inability to move body parts
- pain
- delirium
- external bleeding
- internal bleeding
- heat exhaustion
- hypothermia
- pre-existing illness.

Appropriate others from whom assistance may be sought may include:

- emergency services personnel
- health professionals
- colleagues
- customers
- passersby.

Assistance may include, as appropriate to emergency situations:

- maintaining site safety and minimizing the risk of further injury or injury to others
- making the casualty comfortable and ensuring maximum safety
- assessment of injury situations
- providing first aid including managing bleeding through the application of tourniquets, pressure and dressings
- giving CPR and mouth-to-mouth resuscitation
- giving reassurance and comfort
- raising the alarm with emergency services or health professionals
- removing debris

Tools, equipment and material used in this unit may include:

- first aid kit
- pressure and other bandages
- thermometers
- eyewash
- pocket face masks
- rubber gloves
- dressings
- flags and flares

- fire extinguishers
- communication equipment such as mobile phones

ASSESSMENT GUIDE

Forms of assessment

Assessment methods must be chosen to ensure that obtained knowledge can be practically demonstrated. Methods must include assessment of knowledge as well as assessment of practical skills.

The following examples are appropriate for this unit:

- practical demonstration of the use of commonly-used equipment and first aid supplies
- explanation about management of a variety of common simulated injury situations
- questions to test knowledge of injury situations, types of injury and management of injury situations
- review of portfolios of evidence and third party reports of performance of first aid by the candidate

Assessment context

This unit may be assessed in a simulated environment

Critical aspects (for assessment)

Assessment must ensure:

- use of real first aid equipment
- ability to assess situations requiring first aid and to decide on a plan of action including seeking help
- ability to apply established first aid principles including:
 - checking and maintaining the casualty's airway, breathing and circulation
 - checking the site for danger to self, casualty and others and minimizing the danger

Assessment conditions

Assessment must ensure:

• use of real first aid equipment

• use of dummies

Unit 05

UNIT TITLE	Use hygienic practices for food safety				
DESCRIPTOR	This unit describes	s the performanc	e outcomes, skil	ls and knowledge	e required to
	use personal hygie food-borne illness		revent contamin	ation of food that	might cause
CODE	TOU03S1U05V3	LEVEL	3	CREDIT	3

ELEMENTS OF	PERFORMANCE CRITERIA	
COMPETENCIES		

1.1.	Follow work place hygiene procedures
1.2.	Report unsafe practices that breach hygiene procedures
1.3.	Identify food hazards that may affect the health and safety of customers, colleagues and self
1.4.	Remove or minimize the hygiene hazard and report as appropriate for follow-up
2.1.	Report personal health issues likely to cause a hygiene risk
2.2.	Report incidents of food contamination resulting from personal health issues
2.3.	Cease participation in food handling activities where own health issue may cause food contamination
3.1.	Maintain clean clothes, wear required personal protective clothing, and only use approved bandages and dressings.
3.2.	Prevent food contamination from clothing and other items worn.
3.3.	Prevent unnecessary direct contact with ready to eat food.
3.4.	Ensure hygienic personal contact with food and food contact surfaces
3.5.	Use hygienic cleaning practices that prevent food-borne illnesses
4.1.	Wash hands at appropriate times and follow hand washing procedures
	 1.2. 1.3. 1.4. 2.1. 2.2. 2.3. 3.1. 3.2. 3.3. 3.4. 3.5.

1. Clean and sanitise kitchen equipment	1.1.	Select and prepare cleaning agents and chemicals according to schedule and product instructions
	1.2.	Clean and sanitize kitchen equipment to ensure safety of food that is prepared and served to customers
	1.3.	Store cleaned equipment in designated place
2. Clean service-ware and utensils	2.1.	Sort service-ware and utensils and load dishwasher with appropriate items
	2.2.	Hand wash any items not appropriate for dishwasher
	2.3.	Report broken or chipped service ware to supervisor
3. Clean and sanitise kitchen premises	3.1.	Clean and sanitize kitchen surfaces, food preparation and storage areas.
	3.2.	Clean and report areas of pest infestations
	3.3.	Sort and promptly dispose of kitchen waste to avoid cross-contamination with food
4. Work safely and reduce negative environmental impacts.	4.1.	Use cleaning agents, chemicals and cleaning equipment safely and according to manufacturer instructions.
	4.2.	Use personal protective equipment and safe manual handling techniques when cleaning equipment and premises
	4.3.	Reduce negative environmental impacts through efficient use of energy, water and other resources
	4.4.	Sort general kitchen waste from recyclables and dispose of them in designated recycling bins

Food preparation and storage areas

- Benches and working surfaces
- Cool rooms
- Cupboards
- Pantry
- Freezers
- Fridges
- Microwaves
- Ovens
- Storerooms

• stoves

Unit 07

UNIT TITLE	Use basic cooking methods				
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required to use a range of basic cookery methods to prepare dishes				
CODE	TOU03S1U07V3	LEVEL	3	CREDIT	6

ELEMENTS OF	PERFORMANCE CRITERIA
COMPETENCIES	

1.	Select ingredients	1.1.	Calculate ingredient amounts according to requirements
		1.2.	Identify and select ingredients from stores according to recipe, quality, freshness and stock rotation requirements
		1.3.	Check perishable supplies for spoilage or contamination prior to preparation
2.	Select, prepare and use equipment	2.1.	Select type and size of equipment suitable to requirements
		2.2.	Safely assemble and ensure cleanliness of equipment before use
		2.3.	Use equipment safely according to instructions
3.	Portion and prepare ingredients	3.1.	Weigh and measure ingredients and create portions according to recipe
		3.2.	Minimize waste to maximize profitability
4.	Cook dishes	4.1.	Select and use cookery methods for dishes following standard recipes.
		4.2.	Complete cooking process in a logical, planned and safe manner
		4.3.	Identify problems with the cooking process and take corrective action
		4.4.	Work cooperatively with colleagues to ensure timely preparation of dishes
5.	Present and store	5.1.	Present dishes on appropriate service-ware
	dishes	5.2.	Add garnishes and accompaniments according to standard recipes
		5.3.	Clean work area, and dispose of or store surplus and re- usable by-products according to established procedures, environmental considerations, and cost-reduction initiatives

Cookery methods

- Baking
- Boiling
- Braising
- Blanching

- Grilling
- Poaching
- Roasting
- Steaming

Equipment

- Blenders
- Mixers
- Hot plate
- Microwave
- Sheets and trays
- Slicing machine
- Peelers
- Graters
- Tongs
- Whisks

UNIT TITLE	Produce cakes, pastries and breads							
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required to							
	produce cakes, pastries and breads in a commercial kitchen following standard recipes. It requires the ability to select, prepare and portion ingredients; and to use relevant equipment a range of cookery methods to make and decorate cakes, pastries and breads, and food storage methods							
CODE	TOU03S2U15V3	LEVEL	4	CREDIT	9			

ELEMENTS OF COMPETENCIES	PERI	PERFORMANCE CRITERIA		
1. Select ingredients	1.1.	Calculate ingredient amounts according to requirements		
	1.2.	Identify and select ingredients from stores according to recipe, quality, freshness and stock rotation requirements		
2. Select, prepare and use equipment	e 2.1.	Select type and size of equipment suitable to requirements		
	2.2.	Safely assemble and ensure cleanliness of equipment before use		
	2.3.	Use equipment safely and hygienically according to manufacturer instructions		
3. Portion and prepare ingredients	3.1.	Weigh and measure wet and dry ingredients according to the recipe and quantity of cakes, pastries and breads required		
	3.2.	Prepare yeast-based dough to correct consistency and shape, according to standard recipes		
	3.3.	Minimise waste to maximise profitability of cakes, pastries and breads produced		
4. Cook cakes, pastries, breads	4.1.	Use cookery methods for cakes, pastries and breads and sweet and savoury fillings to achieve desired product characteristics		
	4.2.	Select baking conditions, required oven temperature and bake cakes, pastries and breads		
	4.3.	Cool in appropriate conditions to retain optimum freshness and product characteristics		
5. Decorate, present and store cakes pastries an breads		Enhance appearance and taste of cakes, pastries and breads using suitable fillings, icings and decorations, according to standard recipes.		
	5.2.	Apply icing to ensure a smooth and seamless finish		
	5.3.	Visually evaluate cakes, pastries and breads and adjust presentation before displaying		
	5.4.	Use suitable service-ware to attractively present cakes, pastries and breads according to standards		

Display cakes, pastries and breads in appropriate
conditions to retain optimum freshness and product
characteristics
Store cakes, pastries and breads and reusable by- products in appropriate environmental conditions
Clean work area, and dispose of or store surplus and re- usable by-products according to procedures, environmental considerations, and cost-reduction initiatives

Cakes

- Sponge cake
- Mousse cake
- Fruit cake
- Meringues
- Muffins
- Swiss roll

Pastries

- Choux pastry
- Croissant
- Danish pastry
- Puff pastry
- Short crust
- Strudel

Breads

- Baguette
- Fruit bun
- Bread rolls

Cookery methods

- adding fats and liquids to dry ingredients
- chilling ingredients and work surfaces
- cutting, shaping and moulding
- kneading and handling
- preparing and using fillings
- preparing and using pre-bake finishes and decorations
- resting
- rolling
- selecting and preparing appropriate cake tins and moulds
- stirring and aerating to achieve required consistency and texture
- using required amount of batter according to desired characteristics of finished products
- weighing or measuring and sifting dry ingredients
- whisking, folding, piping and spreading

4. Produce desserts and sauces	4.1.	Following standard recipes, produce desserts using cookery methods to achieve desired product characteristics
	4.2.	Follow special dietary recipes to produce desserts for those with special dietary requirements
	4.3.	Produce hot and cold sauces to desired consistency and flavor
	4.4.	Use thickening agents suitable for sweet sauces
5. Portion, present and store desserts	5.1.	Portion desserts to maximise yield and profitability of food production.
	5.2.	Use accompaniments that balance and enhance taste and texture of desserts.
	5.3.	Select garnishes and decorations with flavours and textures that complement desserts
	5.4.	Plate desserts, accompaniments and garnishes attractively, with artistic flair appropriate for the occasion and the item
	5.5.	Plate and decorate desserts for practicality of service and customer consumption
	5.6.	Display desserts with appropriate sauces and garnishes
	5.7.	Store desserts in appropriate environmental conditions

5.8.	Clean work area, and dispose of or store surplus and re-
	usable by-products according to procedures,
	environmental considerations, and cost-reduction
	initiatives

Common desserts

- crème brulee
- crème caramel
- crêpes
- custards and creams
- fritters
- ice-cream
- meringues
- mousse
- parfait
- pies
- puddings
- sorbet
- soufflé
- tarts

cookery methods

- adding fats and liquids to dry ingredients
- baking
- chilling
- freezing
- poaching
- reducing
- steaming
- stewing
- stirring and aerating to achieve required consistency and texture
- using required amount of batter according to desired characteristics of finished products
- weighing or measuring and sifting dry ingredients
- whisking, folding, piping and spreading

common garnishes and decorations

- coloured and flavoured sugar
- fruits
- jellies
- chocolate
- icing sugar
- nuts

ASSESSMENT CONDITIONS

Assessment should demonstrate the knowledge and skills identified in the elements and performance criteria of this unit

UNIT TITLE	Produce and serve food for buffets			
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required	to		
	produce and present foods for buffets. It requires the ability to cook buffet foods and to present, serve and replenish them throughout the service period			
CODE	TOU03S2U17V3 LEVEL 4 CREDIT 9			

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA	
1. Select ingredients	1.1. Calculate the required quantities of buffet food and ingredients according to expected customer traffic	

	1.0	I double and called in multiple from stones and it is to
	1.2.	Identify and select ingredients from stores according to
		recipe, quality, freshness and stock rotation
		requirements
	1.3.	Check perishable supplies for spoilage or contamination
	1.0.	prior to preparation
2. Produce and present	2.1.	Use appropriate cookery methods and standard recipes
foods for buffets		to prepare foods for buffets
	0.0	Produce courses and gamighes quitable for huffet food
	2.2.	Produce sauces and garnishes suitable for buffet food
		items
	2.3.	Produce or obtain appropriate buffet showpieces and
		decorations
	2.4.	Use buffet display plans to coordinate the layout of
		buffet
	2.5.	Display hot and cold buffet food in appropriate service-
		ware at a safe temperature to avoid food hazards and
		spoilage
3. Serve, replenish and	3.1.	Follow food safety procedures for displaying and serving
store buffet foods		hot and cold buffet foods to avoid food contamination
	2.2	Use portion control to minimise waste and maximise
	3.2.	-
		profit.
	3.3.	Replenish buffet items throughout the service period to
		meet customer traffic requirements
	3.4.	Store buffet items in appropriate environmental
		conditions before and after the buffet service period

Hot and cold buffet foods

- Breakfast foods
- Meat or poultry
- Seafood
- Salads
- Pasta or noodles
- Breads
- Fruits and vegetables
- Cheese
- Dessert and pastry items
- Themed foods

ASSESSMENT CONDITIONS

Assessment should demonstrate the knowledge and skills identified in the elements and performance criteria of this unit

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Prepare food for service	1.1. Identify foods for menu items
	1.2. Arrange sauces and garnishes for specific dishes

2. Portion and plate food	 2.1. 2.2. 2.3. 2.4. 	Ensure that sufficient supplies of clean, undamaged crockery are available at temperatures appropriate to food being served Portion food according to standard recipes Plate food and present neatly and attractively, without drips or spills, for the specified dish, taking into consideration eye appeal, colour and contrast, temperature of food, service equipment, and classical and innovative arrangement styles Serve food to be displayed in public areas in appropriate serviceware at the correct temperature, in an attractive manner, without drips or spills and giving attention to colour.
3. Work in a team	3.1. 3.2. 3.3.	Demonstrate good teamwork with all kitchen and food service staff to ensure timely, quality service of food Organise and follow a kitchen routine for food service to maximise food quality and minimise delays Maintain a high standard of personal and work-related hygiene practices

A variety of foods must be plated, presented and served, including

- Entrees
- Main courses
- Desserts
- Soups
- Sandwiches
- Breakfast items
- Canapes

Service equipment

- Food and beverage trays
- Buffet or suitable table
- Dishes and platters
- Display items

ASSESSMENT CONDITIONS

Critical aspects of assessment

- Application of hygiene and safety principles and procedures
- Ability to plate, present and serve a general range of foods efficiently and within realistic workplace time constraints

• Ability to work as part of a team in a positive and courteous manner

Assessment context

- demonstration of skills within a fully equipped operational commercial kitchen
- access to a range of equipment for presenting food

assessment method

- direct observation of the candidate working as a member of a team and plating and presenting food
- direct observation of the candidate working as a member of a team and plating and presenting food

UNIT TITLE	Receive and store	stock			
DESCRIPTOR	This unit describe check and take de quality of stock ite	livery of stock an		· · · · · ·	
CODE	TOU03S2U19V3	LEVEL	4	CREDIT	9

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Take delivery of stock.	1.1. Check incoming stock against orders and delivery documentation
	1.2. Identify, record and report discrepancies

	1.3.	Inspect items for damage, quality and use-by dates and
		record findings according to organisational procedures
	1.4.	Record details of incoming stock according to
		organisational procedures
2. Store stock	2.1.	Promptly transport stock to, and store in, appropriate storage area
	2.2.	Use safe manual handling techniques to avoid injury
		when moving and storing stock
	2.3.	Label stock according to organisational procedures
	2.4.	Report on excess stock according to organisational
		procedures
3. Rotate and maintain stock.	3.1.	Rotate stock for maximum use and minimum wastage
Stock.	3.2.	Regularly check the quality of stock and report findings
	3.3.	Safely dispose of all excess or spoilt stock and waste,
		especially hazardous substances, to minimise negative environmental impacts
	3.4.	Maintain cleanliness of stock handling and storage areas, and identify and report problems
	3.5.	Use stock control systems and equipment according to organisational speed and accuracy requirements

Principles of stock control

- Rotation and replenishment
- product life cycle and maximising the use of all stock
- checking for slow moving items
- segregation of non-food items from food items that have potential to cross-contaminate

stock control systems

- bin card system
- imprest system
- integrated point-of-sale system
- ledger system

ASSESSMENT CONDITIONS

Skills must be demonstrated in an operational business where stock is received and stored. This can be:

- an industry workplace
- a simulated industry environment.

UNDERPINNING KNOWLEDGE	UNDERPINNING SKILLS

UNIT	Coach others in jo	b skills			
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required to provide on-the-job coaching to colleagues. It requires the ability to explain and demonstrate specific skills, knowledge and procedures and monitor the progress of colleagues until they are able to operate independently of the coach.				
CODE	TOU03S2U21V3	Level	4	Credit	9

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Prepare for on-the-job coaching.	1.1. Identified need for coaching based on a range of factors.1.2. Identified specific coaching needs through discussion with colleague and organise coaching sessions.

2. Coach colleagues on-the-job	 2.1. Explained overall purpose of coaching to colleague. 2.2. Explained and demonstrated specific skills. 2.3. Communicated required knowledge and checked colleague understanding. 2.4. Advised organizational procedures for completing workplace tasks. 2.5. Provided colleague with opportunity to practice skill and 		
	ask questions. 2.6. Provided feedback in constructive and supportive manner.		
2. Follow-up coaching.	 2.1. Monitored progress of new workplace skills and provide supportive assistance. 2.2. Reported progress to the appropriate person. 2.3. Identified performance problems or difficulties with coaching and rectified or referred to appropriate person for follow-up. 		

Range Statement

Tools, equipment and material used in this unit may include

Factors may include:

- direction from colleagues
- own observation and workplace experience
- request for coaching from colleague to be coached.

Coaching sessions could be conducted in a range of contexts, including:

- before or after work
- in a simulated location away from the actual workplace
- on-the-job during work hours.
- Skills to be coached are generally those not requiring formal or extended training sessions customer service skills
- selling or promoting products and services
- technical or practical skills, such as operating equipment, making something or completing documentation.

Required knowledge refers to the essential knowledge required to carry out tasks or undertake skills effectively, such as:

- ingredients or components of items
- knowledge of products or services
- legislative, work health and safety and hygiene requirements
- principles underpinning skills, such as communication and selling
- reasons for undertaking various tasks.

Performance problems or difficulties may be due to:

- breakdown in communication
- inappropriate circumstances for coaching
- insufficient opportunity to practice
- language or cultural barriers
- shyness or lack of confidence.

ASSESSMENT GUIDE

Forms of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct observation of the individual coaching a colleague in a required work skill
- role plays to assess the individual s ability to use:
- active listening and open questioning techniques to confirm understanding of job tasks
- key training techniques
- use of problem-solving exercises so the individual can suggest ways of resolving performance problems or difficulties
- written or oral questioning to assess knowledge of key training principles
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Assessment context

Assessment of this unit must be completed on the job or in a simulated work environment which reflects a range of safe working practices.

Critical aspects (for assessment)

It is essential that the candidate applied safety and hygiene guidelines effectively.

- provide supportive on-the-job coaching and provide constructive feedback
- clearly communicate and demonstrate the workplace tasks required of the colleague
- integrate knowledge of the key principles of training

• complete coaching activities within commercial time constraints to ensure the colleague is effective.

Underpinning Knowledge	Underpinning Skills
 objectives and scope of the coaching the key principles of training: explanation demonstration review listening to trainee explanation observing and evaluating trainee demonstration providing feedback. 	 communication skills to develop rapport, show sensitivity to the colleague initiative and enterprise skills to observe the colleague and aid without their request literacy skills numeracy skills to calculate adequate time required for coaching and the colleague to complete required tasks planning and organising skills to complete own work tasks within designated timelines and simultaneously coach others in their job skills problem-solving skills to identify and resolve deficiencies in the skills and knowledge of colleagues self-management skills to take responsibility for colleague coaching teamwork skills to pass on organisational knowledge to colleague.

UNIT	Monitor work operations				
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required to oversee and monitor the quality of day-to-day work. It requires the ability to communicate effectively with team members, plan and organise operational functions, and solve problems				
CODE	TOU03S2U22V3	Level	4	Credit	6

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Monitor and improve workplace operations.	 1.1. Monitored efficiency and service levels through close contact with day-to-day operations. 1.2. Ensured workplace operations support overall organisational goals and quality assurance initiatives.

1.3. Identified quality problems and issues and make appropriate adjustments to procedures and systems, with relevant approvals. 1.4. Proactively consulted with colleagues about ways to improve efficiency and service levels, including potential for new technologies and other innovations. 1.5. Provided feedback to colleagues and management to inform future planning. 1.6. Identified and took opportunities to evaluate current and emerging industry trends and practices for relevance to own work situation. 1.7. Assessed and responded to opportunities to improve sustainability of day-to-day operations.2. Plan and organise workflow.2.1. Assessed current workloads, and scheduled work to maximise efficiency and customer service quality within budget constraints. 2.2. Delegated work according to principles of delegation. 2.3. Assessed workflow and progress against agreed objectives and timelines. 2.4. Assisted colleagues in prioritizing workload through supportive feedback and coaching. 2.5. Provided timely input to appropriate management regarding staffing needs.3. Monitor and support team members.3.1. Monitored team and individual performance against agreed goals and objectives. 3.2. Proactively shared information, knowledge and experiences with team members. 3.3. Challenged and tested ideas within the team in a positive and collaborative way. 3.4. Provided feedback, coaching and support to team members. 3.5. Completed and submitted organization records as required.		1
1.4. Proactively consulted with colleagues about ways to improve efficiency and service levels, including potential for new technologies and other innovations. 1.5. Provided feedback to colleagues and management to inform future planning. 1.6. 		and collaborative way.
3.5. Completed and submitted organization records as required.		3.4. Provided feedback, coaching and support to team members.
		3.5. Completed and submitted organization records as required.

3. Solve problems and make decisions.	 3.1. Identified and analyzed workplace problems from an operational and customer service perspective. 3.2. Initiated short-term actions to resolve immediate problems where appropriate. 3.3. Analyzed problems for long-term impact, and assess and action potential solutions in consultation with relevant colleagues. 3.4. Where a team member raises a problem, encouraged individual participation in solving it.
	3.5. Took follow-up action to monitor effectiveness of solutions.

Tools, equipment and material used in this unit may include

Procedures and systems may relate to:

- administration
- health and safety
- service standards
- technology
- work practices.

Sustainability may be:

- economic:
- business profitability

environmental:

- conservation of resources
- handling of waste

social:

- cultural diversity
- ethical practices.

Principles of delegation may relate to:

- clear communication of what is required
- gaining commitment
- no undue interference
- regular reporting
- selecting the right person.

Workplace records may include:

- regular performance reports
- staff records.

Workplace problems may include:

- delays and time difficulties
- difficult customer service situations
- equipment breakdown or technical failure
- failure to deliver promised service to customers
- inadequate financial resources
- inadequate staffing
- poor rostering
- poor staff performance
- procedural inadequacies or failures
- unrealistic or impractical product development or marketing resulting in operational difficulties.

ASSESSMENT GUIDE

Forms of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- evaluation of a team-based project or work activity conducted by the individual, including reporting on that activity
- use of case studies and problem-solving exercises to assess ability to develop approaches to different workplace situations and problems
- written or oral questioning to assess knowledge of management principles, management roles and responsibilities and legal issues affecting operational management
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Assessment context

Assessment of this unit must be completed on the job or in a simulated work environment which reflects a range of safe working practices.

Critical aspects (for assessment)

It is essential that the candidate applied safety and hygiene guidelines effectively.

Evidence of the ability to:

• plan and organise workflow for a team operation

- monitor and respond to a range of team based operational and service issues over a period of time
- demonstrate knowledge of work structures plus frontline management roles and responsibilities in the relevant industry sector
- demonstrate knowledge of quality assurance, workflow planning and delegation techniques in a frontline management context.

Underpinning Knowledge	Underpinning Skills
 work organisation and work planning methods appropriate to the industry sector leadership and management roles in the relevant industry sector operational functions in the relevant industry sector concepts of quality assurance and how it may be managed and implemented in the workplace sustainability considerations for frontline operational management, including: relationship between operational efficiency and financial sustainability ways of minimising waste in the relevant work context social responsibilities of the operation time management principles and their application to leaders and managers for planning own work and the work of others principles of effective delegation problem-solving and decision-making processes and techniques and their application to typical workplace issues industrial or legislative issues that affect short-term work organisation appropriate to the industry sector, including: 	 communication and leadership skills to delegate work within a team critical thinking skills to evaluate internal and external business information literacy skills numeracy skills to develop schedules and timelines for team activities planning and organising skills to coordinate multiple and potentially competing operational priorities problem-solving skills to anticipate and respond to a wide range of unpredictable operational problems and situations at a frontline management level.

• relationship of relevant industrial awards to hours and conditions of work	
• ensuring systems and procedures meet work health and safety requirements.	

UNIT	Provide work skill	instruction			
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required to conduct individual and group instruction and demonstrate work skills, using existing learning resources in a safe and comfortable learning environment. The unit covers the skills and knowledge required to determine the success of both the training provided and one's own personal training performance. It emphasizes the training as being driven by the work process and context.				
CODE	TOU03S2U23V3	Level	4	Credit	6

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Organise instruction and demonstration	1.1. Gathered information about learner characteristics and
	learning needs

	1.2. Confirmed a safe learning environment
	1.3. Gathered and checked instruction and demonstration
	objectives and seek assistance if required
	1.4. Accessed and reviewed relevant learning
	resources and learning materials for suitability and relevance,
	and seek assistance to interpret the contextual application
	1.5. Organise access to necessary equipment or physical
	resources required for instruction and demonstration
	1.6. Notified learners of details regarding the implementation of
	the learning program and/or delivery plan
2. Conduct instruction and	
demonstration	2.1. Used interpersonal skills with learners to establish a safe
	and comfortable learning environment
	2.2. Followed the learning program and/or delivery plan to cover
	all learning objectives
	2.3. Used delivery techniques to structure, pace and enhance
	learning
	2.4. Applied coaching techniques to assist learning
	2.5. Used communication skills to provide information, instruct
	learners and demonstrate relevant work skills
	2.6. Provided opportunities for practice during instruction and
	through work activities
	2.7. Provided and discussed feedback on learner performance to
	support learning
3. Check training performance	3.1. Used measures to ensure learners are acquiring and can use
	new technical and generic skills and knowledge
	3.2. Monitored learner progress and outcomes in consultation
	with learner
	3.3. Reviewed relationship between the trainer/coach and the
	learner and adjust to suit learner needs

4. Review personal training performance and finalise documentation	4.1. Reflected upon personal performance in providing instruction and demonstration, and document strategies for improvement
	4.2. Maintained, stored and secured learner records according to organisational and legal requirements

Tools, equipment and material used in this unit may include:

Learner characteristics may include:

- language, literacy and numeracy levels
- learning styles
- past learning and work experiences
- specific needs
- workplace culture.

Safe learning environment may include:

- exit requirements
- personal protective equipment
- safe access
- safe use of equipment.

Instruction and demonstration objectives may include:

- competencies to be achieved
- generic and technical skills, which may be:
- provided by the organisation
- developed by a colleague
- individual or group objectives
- learning outcomes.

Learning resources may include:

- any material used to support learning, such as:
- learner and user guides
- trainer and facilitator guides

- example training programs
- specific case studies
- professional development materials
- assessment materials
- a variety of formats
- those produced locally
- those acquired from other sources.

Learning materials may include:

- handouts for learners
- materials sourced from the workplace, e.g. workplace documentation, operating procedures, and specifications.

Details may include:

- location and time
- outcomes of instruction or demonstration
- reason for instruction or demonstration
- who will be attending instruction session.

Delivery techniques may include:

- coaching
- demonstration
- explanation
- group or pair work
- providing opportunities to practice skills and solve problems
- questions and answers.

Coaching may include:

- learning arrangements requiring immediate interaction and feedback
- on-the-job instruction and 'buddy' systems
- relationships targeting enhanced performance
- short-term learning arrangements
- working on a one-to-one basis.

Measures may include:

• informal review or discussion

- learner survey
- on-the-job observation
- review of peer coaching arrangements.

ASSESSMENT GUIDE

Forms of assessment

- on-the-job observation
- review of peer coaching arrangements

Assessment context

Assessment of this unit must be completed on the job or in a simulated work environment which reflects a range of safe working practices.

Critical aspects (for assessment)

It is essential that the candidate applied safety and hygiene guidelines effectively.

Evidence of the ability to:

- carry out a minimum of three training sessions, involving demonstrating and instructing particular work skills for different groups; with each session addressing:
- different learning objectives
- a range of techniques and effective communication skills appropriate to the audience.

Underpinning Knowledge	Underpinning Skills
 learner characteristics and needs content and requirements of the relevant learning program and/or delivery plan sources and availability of relevant learning resources and learning materials content of learning resources and learning materials training techniques that enhance learning and when to use them introductory knowledge of learning principles and learning styles relevant policies and procedures, including hazard identification, risk assessment, reporting requirements, safe use of equipment and emergency procedures 	 time-management, skills to ensure all learning objectives are covered reflection skills in order to identify areas for improvement literacy skills to complete and maintain documentation technology skills to operate audio-visual and technical equipment interpersonal skills to engage, motivate and connect with learners observation skills to monitor learner acquisition of new skills, knowledge and competency requirements

•	risk controls for the specific learning environment	

UNIT TITLE					
	Participate in enviro	nmentally sust	ainable work	practices	
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required to effectively measure current resource use and to carry out improvements including reducing the negative environmental impact of work practices.				
CODE	TOU03S2U24V3	Level	4	Credit	6

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Identify current resource use	1.1 Identified workplace environmental and resource efficiency issues1.2 Identified resources used in own work role

	 1.3 Documented and measured current usage of resources using appropriate technique 1.4 Recorded and filed documentation measuring current usage, using technology (such as software systems) where applicable 1.5 Identified and reported workplace environmental hazards to appropriate personnel
2. Comply with environmental regulations	2.1 Followed workplace procedures to ensure compliance2.2 Reported breaches or potential breaches to appropriate personnel
3. Seek opportunities improve resource efficiency	 to 3.1 Followed organisational plans to improve environmental practices and resource efficiency 3.2 Worked as part of a team, where relevant, to identify possible areas for improvements to work practices in own work area 3.3 Made suggestions for improvements to workplace practices in own work area

Environmental and resource efficiency issues may include:

- maximising opportunities to improve business environmental performance
- minimising environmental risks
- promoting more efficient production and consumption of natural resources, for example minimising waste by participating in or using a waste management system
- using resources efficiently such as material usage, energy usage (seeking alternative sources of energy or energy conservation) or efficient water usage

Appropriate techniques may include:

- examining and documenting resources in work area
- examining invoices from suppliers
- examining relevant information and data
- measuring resource usage under different conditions
- reports from other parties involved in the process of identifying and implementing

improvements

Compliance may include:

- meeting relevant laws, by-laws and regulations or best practice to support compliance in environmental performance and sustainability at each level as required:
- international
- local government
- industry

• organisation

Organisational plans may include:

- documented policies and procedures
- work plans to minimise waste or to increase efficiency of resources such as a green office program, supply chain program for purchasing sustainable products or an environmental management framework

Suggestions may include ideas that help to:

- improve energy efficiency
- increase use of renewable, recyclable, reusable and recoverable resources
- maximise opportunities such as use of solar power or other alternative forms of energy, where appropriate
- prevent and minimise risks

ASSESSMENT GUIDE

A range of assessment methods should be used to assess practical skills and knowledge. The

following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate
- observation of demonstrated techniques over time and in a range of situations
- analysis of responses to case studies and scenarios
- review of documentation measuring current resource usage
- review of identified and reported workplace environmental hazards.

Assessment context

Assessment of this unit must be completed on the job or in a simulated work environment.

Critical aspects

Evidence of the following is essential:

- accessing, interpreting and complying with a range of environment/sustainability legislation and procedural requirements relevant to daily responsibilities
- accurately following organisational information to participate in and support an improved resource efficiency process and reporting as required

- developing and/or using tools such as inspection checklists, to collect and measure relevant information on organisation resource consumption, within work role
- identifying organisational improvements by applying efficient resource use to daily activities
- knowledge of environmental and resource hazards/risks.

UNDERPINNING KNOWLEDGE AND SKILLS

Underpinning Knowledge	Underpinning Skills
 environmental and resource hazards/risks environmental or sustainability legislation, regulations and codes of practice applicable to own work role OHS issues and requirements organisational structure, and reporting channels and procedures relevant environmental and resource efficiency systems and procedures sustainability in the workplace terms and conditions of employment including policies and procedures, such as daily tasks, employee and employer rights, equal opportunity. 	 analytical skills to comply with all relevant legislation associated with job specifications and procedures communication and problem-solving skills to question, seek clarification and make suggestions relating to work requirements and efficiency communication and teamwork skills to recognise procedures; to follow instructions; to respond to change, such as current workplace environmental/sustainability frameworks; and to support team work and participation in a sustainable organisation literacy, numeracy and technology skills to interpret workplace information in relation to work role, and to document and measure resource use technology skills to select and use technology appropriate for a task.

UNIT TITLE	Manage diversity	in the workplac	ce		
DESCRIPTOR	This unit describes the performance outcomes, skills and knowledge required to manage diversity in the workplace. It covers implementing the organization's policy on diversity, fostering diversity within the work team, and promoting the benefits of a diverse workplace.				
CODE	TOU03S2U25V3	Level	4	Credit	6

PERFORMANCE CRITERIA

1. Implement diversity	1.1	Located and reviewed diversity policy
policy	1.2	Determined its application to the specific work context
	1.3	Instituted actions to ensure that the diversity policy is
		understood and implemented by relevant parties
	1.4	Provided feedback and suggestions for improvement to
		ensure currency and efficacy of diversity policy
2. Foster respect for	2.1	Addressed own prejudices and demonstrate respect for
diversity in the work		difference in personal interactions
team	2.2	Aimed for diversity in selecting and recruiting staff
	2.3	Identified and addressed training needs to address issues
		of difference in the team
	2.4	Managed tensions and encourage collaboration and
		respect between staff who struggle to work effectively
		with difference
	2.5	Assisted staff to see that working effectively with
		difference is a strength that can improve the products,
		services and customer relations
	2.6	Managed allegations of harassment and
		addressed complaints according to established
		organisational procedures
3. Promote the benefits of	3.1	Promoted the workforce diversity in internal and external
diversity		forums to enhance the image and reputation
	3.2	Captured ideas and information from the diversity in the
		workforce to enhance products and services and
		contribute to competitive advantage
	3.3	Supported organisational efforts to value diversity

Diversity may relate to:

any form of difference, such as:

- ➢ ability, aptitude and disability
- ≽ age
- ➤ culture
- ➢ ethnicity
- ➢ gender
- ➢ language
- marital status or family arrangements
- ➤ nationality
- ➤ personality
- ➤ race
- ➤ religion
- ➢ sexuality

Actions may include:

- displaying policy on noticeboards and other public areas
- distributing copies of policy to staff
- > explaining policy to staff at meetings or other forums
- reinforcing key messages from policy in supervisory discussions, performance appraisals or other interactions.

Training needs may involve:

- cultural competency training
- culturally-specific training
- diversity training
- equal opportunity training
- ➢ ethics training
- grievance management training
- human rights training
- recruitment and selection training
- ➢ workplace bullying, discrimination or harassment training.

Complaints may include:

> informal complaints that are managed within the workplace.

Internal and external forums may include:

- business meetings
- conferences and seminars
- newsletters and bulletins
- professional networks
- ➢ staff meetings
- ➢ staff updates.

ASSESSMENT GUIDE

The following assessment methods are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate
- > observation of demonstrated techniques in performance management
- observation of presentations around protocols for handling complaints and bullying or harassment
- review of strategies developed to ensure that diversity is understood and respected in the work team
- oral or written questioning to assess knowledge of human rights and relevant legislative requirements.

Assessment context

Assessment of this unit must be completed on the job or in a simulated work environment.

Critical aspects

Evidence of the following is essential:

- promotion of strategies to ensure that diversity is understood and respected in the work team
- demonstration of compliance with protocols for handling complaints of bullying or harassment.

Under	Underpinning knowledge				Underpinning skills		
•	formal	and	informal	complaints	•	analytical skills to determine how to	
	procedur	res				make intelligent applications of policy	
						in the work context	
					•	communication skills to explain and	
						promote the benefits of diversity and

					•	self-management, learning and	
						development skills to reflect on and	
						review own prejudices	

UNIT TITLE	Practice career profe	essionalism			
DESCRIPTOR	This unit covers the knowledge, skills and attitudes in promoting career growth and advancement.				
CODE	TOU03S2U26V3	Level	4	Credit	6

ELEMENTS OF COMPETENCIES	PERFORMANCE CRITERIA
1. Integrate personal objectives with organizational goals	1.1 Personal growth and work plans are pursued towards improving the qualifications set for the profession
	1.2 Intra- and interpersonal relationships are maintained in the course of managing oneself based on performance

		1.3	evaluation Commitment to the organization and its goal is demonstrated in the performance of duties
2.	Set and meet work priorities	2.1	Competing demands are prioritized to achieve personal, team and organizational goals and objectives.
		2.2	Resources are utilized efficiently and effectively to manage work priorities and commitments
		2.3	Practices along economic use and maintenance of equipment and facilities are followed as per established procedures
3.	Maintain professional growth and development	3.1	Trainings and career opportunities are identified and availed based on job requirements
		3.2	Recognitions are received and demonstrated as proof of career advancement
		3.3	Licenses and/or certifications relevant to job and career are obtained and renewed

Evaluation:

- Performance Appraisal
- Psychological Profile
- Aptitude Tests

Resources:

- Human
- Financial
- Technology
 - Hardware
 - Software

Trainings and career opportunities:

- Participation in training programs
 - o Technical
 - Supervisory
 - Managerial
 - Continuing Education
- Serving as Resource Persons in conferences and workshops

Recognitions:

- Recommendations
- Citations
- Certificate of Appreciations
- Commendations
- Awards
- Tangible and Intangible Rewards

Licenses and/or certifications:

- National Certificates
- Certificate of Competency
- Support Level Licenses
- Professional Licenses

ASSESSMENT GUIDE

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- Portfolio Assessment
- Interview
- Simulation/Role-plays
- Observation
- Third Party Reports
- Exams and Tests

Assessment context

Assessment of this unit must be completed on the job or in a simulated work environment.

Critical aspects

Evidence of the ability to:

- Attained job targets within key result areas (KRAs)
- Maintained intra and interpersonal relationship in the course of managing oneself based on performance evaluation
- Completed trainings and career opportunities which are based on the requirements of the industries
- Acquired and maintained licenses and/or certifications according to the requirement of the qualification

Underpinning knowledge	Underpinning skills
 Work values and ethics (Code of Conduct, Code of Ethics, etc.) Company policies Company-operations, procedures and standards Fundamental rights at work including gender sensitivity Personal hygiene practices 	 Appropriate practice of personal hygiene Intra and Interpersonal skills Communication skills
