

Firmware Update

AMBEO Soundbar Plus

Firmware Version 1.0.130

AMBEO Soundbar Plus SB02M

Sennheiser recommends to always install the latest firmware version to ensure the best performance of your product.

This update delivers compatibility with Google Cast for Audio 2.0

Google Cast for Audio (GC4A) 2.0 is the next generation Cast audio platform from Google designed to broaden compatibility due to a lighter demand on memory resources.

This update also delivers our latest bug fixes and improvements in areas such as HDMI, and Bluetooth.
