THE COMMUNITY LAP

Community updates/projects.

What's the word around the club?

FUCK YEAH!

Aaron McDonald graciously donates 100 ATEM membership cards to kick off a new initiative called Vanquish Carbon. This new venture has set out on a mission to help battle climate change by allowing anyone anywhere to offset the carbon footprint of their vehicles. This charitable organization donates to various carbon reducing projects globally, if you would like to learn more and become a Vanquish member visit <https://vanquish.carbon.click/>.

ATEM hosted 2 action packed collaborative games nights this month.

- Rocket League with Seekers and community led guild Procject_B. Grand Prize winning team was Up and ATEM with players SirKevmo and Tybow taking home a Fluf World Den each.
- ATEM Sponsored a Texas Hold'em Tournament in celebration of the Fluf World Birthday. Grand Prize winner was PCO taking home a Party hat Fluf

Currency Chaser with team Road Runna Racing hosted an education hour covering Blender tips and tricks full recording can be found on the Road Runna's YouTube Channel (<https://www.youtube.com/watch?v=yL60vViLIdw>).

ATEM GUILD SPOTLIGHT

Featuring Road Runna Racing

Road Runna Racing has gone above and beyond with social engagement and volunteer community events earning themselves to be featured in this month's ATEM guild Spotlight. The Drifters have noticed your hard work and dedication and will not let that go unnoticed!

R.R.R. was formed in May 2022 with the goal to pioneer and reinvent car culture. Setting out to build a race team to help shape what ATEM Car Club Teams can be. The only requirement to join R.R.R. is 1 human brain. This has resulted in an arsenal of talent.

Everything about R.R.R. is natural. Learn together, build together, and grow together. A team that has already helped bridge the gap between web3 & IRL. Today R.R.R. sits at 100+ members, all passionate about the same thing.

If you'd like to join R.R.R. reach out to any of the captains. You can also find them on Twitter @RoadRunnaRacing

CLUB PROJECTS

NISSAN 240SX

During August with the help of Road Runna Racing, ATEM Car Club acquired its 1st club owned car. Under the leadership of Unlimited Customs and the R.R.R. team captain Atari, this car will receive a full overhaul and will be cherished by Club members past, present, and future.

This 240Sx will serve the community several ways and we hope you all are as excited as we are for this journey.

- Community Participation in the creative process.
- Educational content for the community.
- The Nissan 240Sx is CLUB OWNED which adds value to ATEM.
- Marketing Material both IRL and Digital
- Shaping the process for future community led builds.

To answer one of the most asked questions, Yes! The idea of being able to drive club cars is not off the table, In the future we hope to host Meetups/Autocross events around the globe where these club cars reside.

CAN THE DEVS DO SOMETHING?

Where my devs at?

- Devs are hard at work preparing and testing the ATEM Garage in preparation for the beginning phases of game launch.
- Artists are creating and delivering high quality vehicle models built to be fully rigged and game ready. These vehicles are not simple renders or animations they will serve as fully customizable game assets.

Not only are the Devs building the web based garage for the clubs enjoyment, they are working on the initial 3d car printing mechanism in preparation for our upcoming Vehicle claim. Soon you will be able to Connect your memberships, Customize and print your very own vehicles
