BAR CODE SCANNER
MANUAL SCANNER FOR INDUSTRIAL USE

Function

The hand scanner from Komax is robust, industry proven and wireless. With his extended capture range and the capability to read all common 1D- and 2D-Codes he does perfectly cover the need in the cable manufacturing.

The wireless bar code scanner is the key for higher productivity and flexibility on the job. At the same time he does ensure the working process with the integrated material- and tool verification. The functionality can be adapted to the specific needs and is included in the machine software.

The easy handling is based on the integrated laser pointer and the free configurable capture feedback (LED, BEEP, VIBRA).

Configurable scope

– Bar code scanner including wireless reader, cradle, power supply and communication cables
– Machine specific mounting sets
– Software license containing material- and equipment verification
– Documentation

Technical data

Scanner type	Hand laser scanner, cordless system
Capture range	≥ 15 cm
Interface	USB
System requirements	– TopImage10 ≥ 17.4 – TopImage7 ≥ 15.3 – TopWin ≥ 14.x – HMI x.xx
Protection class	IP67
Dimensions (L×W×H)	229.4 × 99.8 × 82.6 mm
Weight (Craddle + Scanner)	776 g (340 + 436 g)

Your benefits

– Quality Assurance
– Large capture range
– Durability based on robustness
– Optimal production support
– Material verification with production release
– Easy installation and handling
