IMPROVE
PRODUCTIVITY

INCREASE POLICY
PLACEMENT

Calculate quote class with confidence

The Paperless Solutions Group (PSG) eValueateSM product is a robust multi-level field-underwriting tool, capturing application information and providing preliminary quotes in real time based on carrier specific underwriting rules.

With a unique rules based underwriting technology platform, eValueateSM is able to provide immediate insights to help streamline the application process, providing dynamic quote classifications and prices more efficiently for both agents and carriers.

**Ensure your applications have the best chance
of turning into placed policies.**
