

# Q: WHY CHOOSE DASHLANE BUSINESS?

A: For a password management solution that's as easy to use as it is secure

## What is Dashlane Business?

Business is Dashlane's most powerful plan, helping companies protect their online data with advanced features, customizable settings, and an SSO integration. Plus, you can rest assured employees stay protected in the office *and* at home:

- Employees can keep their business and personal accounts separate while managing them all in one secure vault
- All members of a Business plan can start a Family plan and invite up to 5 other loved ones to Dashlane—for free

**“Any company that takes security seriously should use Dashlane.”**

—Maria Rodillo, Executive Assistant & Board Liaison, NETA

## What do you get?

Some key Business features include:

U.S.-patented, zero-knowledge security architecture	Security dashboard
Customizable policy management	Advanced reporting
Directory sync (AD/SCIM)	Secure group sharing
Compromised password alerts	Zero-knowledge account recovery
SAML-based single sign-on (SSO)	Two-factor authentication (2FA)
Virtual private network (VPN)	Free Family plan for every seat

## What does Business cost?

You can protect your business for only \$8 USD\*/month per user. This pricing includes each member's free Family plan (\$90 USD\* annual value) and premium Hotspot Shield VPN (\$156 USD\* annual value).

\*Prices subject to location and currency.
