ACCIDENT

A chargeable, at-fault accident is an occurrence for which the applicant, insured or operator is deemed to be wholly or partially responsible and results in third party and/or collision damage, and/or personal injury arising out of the ownership, use or operation of a vehicle, in consequence of which:

- An amount has been paid or would have been paid but for the existence of provincial direct compensation laws or agreements; or
- A loss remains unsettled or unpaid; or
- A civil suit has been commenced against the applicant, insured or operator; or
- An amount would have been paid had the loss been reported to an insurer; or
- The amount of the loss exceeds the policy deductible.

A chargeable at-fault accident is always taken into account even though:

- There was no insurance in effect; or
- The loss was repaid to the insurer by or on behalf of the applicant, insured or driver.

The following will not be regarded as chargeable at-fault accidents:

1. Damage to the vehicle if:

- It occurred while the vehicle was legally parked and is reported to police authorities within 24 hours of the occurrence;
- It was caused by a hit-and-run driver and is reported to police authorities within 24 hours of the occurrence;
- An uninsured party is responsible; and
 - o The repair cost was paid under the Uninsured Motorist portion of the policy, or

- c) No payment was made by any insurer with respect to damage to any automobile or property resulting from the accident.

NOTE:

An insurer may consider a minor accident that occurred on or after June 1, 2016 if, within the previous three years, any automobiles that were or would be covered by the contract of automobile insurance were involved in a "total of more than one minor accident" and, in any of those accidents, the driver of that automobile was at fault. The application of the "total of more than one minor accident" where the driver was at fault within the previous three years begins with the occurrence of the first forgiven minor accident.

ACCIDENT RATING

- Accidents are assigned to the vehicle that had the accident or its substitute.
- This includes when the driver responsible for the accident is not listed as a driver of the vehicle.
- If the driver responsible for the accident is deleted from the policy, the accident will continue to apply to a vehicle on the policy, unless evidence is received that the deleted driver has coverage under another policy and is being rated for the accident.
- If the driver, responsible for the accident, is assigned to more than one automobile, the accident will only affect the rating of the automobile involved in the accident, or its substitute.

LAPSE IN COVERAGE

- The suspension of the insured person's driver's licence as a result of a conviction for an offence related to the use or operation of an automobile.
- The insured person's attempt to misrepresent their driving record due to earlier accidents or convictions, in order to avoid paying higher insurance premiums.
- Driving record 0 will apply from the date coverage is resumed. If the lapse in coverage occurred more than 12 months ago, the driving record will be established by the length of time since coverage was resumed.

Note: If the lapse resulted from the termination of an automobile insurance policy because the insured person failed to pay the premium due under the policy, we will accept the risk subject to all other eligibility criteria.

Persons convicted of driving without insurance during a lapse in coverage must be placed with the Facility Association Residual Market.

my Drive™ (Added Value) Program

my Drive, available through the Intact Insurance App (the “Application”), collects driving behaviour information for our Usage Based Insurance Program. This collected data will be used to generate a personalized rating factor (Adjustment) which could increase, decrease, or have no impact on the automobile insurance premium, depending on the driving behaviour recorded. To participate in the **my Drive** Program, each enrolled driver must provide consent to the Terms of Use in order to activate the Application.

Eligibility Rules for the Program:

- Must be principal operator of an eligible private passenger vehicle listed on the policy (excluding Antique and Classic vehicles).
- The policyholder must provide consent for all drivers participating in the Program.
- The enrolled driver must have a smartphone compatible with the most recent version of the Application. The Application must remain installed throughout the participation in the Program and updated when required.
- A data plan must be maintained with a mobile service provider, throughout the participation in the Program, allowing the Application to transfer data to us and our service providers.
- Cellular coverage must be available in the vehicle operation region that is sufficient to collect the data for the principal driver’s driving behaviour.
- The policyholder must provide their email address, which must remain valid throughout the participation in the Program.
- Each enrolled driver must provide their mobile phone number and email address, which must remain valid throughout their participation in the Program.

Notes:

- Principal drivers who have opted out of the Program or deleted the Application can re-enrol as long as they meet the Program's eligibility. We reserve the right at our sole discretion to terminate a driver's participation in the Program if we deem there to be any misuse of the Application (e.g., tagging a trip as a passenger trip when they were the driver). If a driver's participation in the Program was terminated by Intact Insurance, re-enrolment in the Program will be at our discretion.
- Existing drivers who have already completed the original my Driving Discount Program (device or mobile), will remain in that Program, unless they choose to enrol in the **my Drive** (Added Value) Program.

Migration to the **my Drive** (Added Value) Program from the **my Drive** (Continuous) Program:

- The **my Drive** (Continuous) Program is being discontinued. Existing drivers enrolled in the **my Drive** (Continuous) Program will be sent requests/reminders to give their consent in order to migrate to the new Program prior to their renewal. Once consent is received, they will continue to receive their **my Drive** (Continuous) Program discount and/or mid-term update until renewal.
- Upon renewal, enrolled principal drivers who have given their consent will migrate to the new **my Drive** (Added Value) Program, where the data collected during the **my Drive** (Continuous) Program will be used in determining the initial Added Value Adjustment.
- Drivers enrolled in the **my Drive** (Continuous) Program who do not give their consent to migrate to the new **my Drive** (Added Value) Program, will be removed from the **my Drive** (Continuous) Program upon renewal and any associated UBI Program discount will be removed.

- Principal drivers who had their **my Drive** (Continuous) Program discount removed upon renewal can still migrate to the new **my Drive** (Added Value) Program as long as consent is given before the policy renewal effective date. Since the renewal premium has already been offered, consent to migrate to the new **my Drive** (Added Value) Program will only result in a premium decrease or it will remain unchanged. The premium will not increase as a result of the migration to the new **my Drive** (Added Value) Program in this situation.
- Enrolled drivers who have not provided consent prior to the policy renewal effective date but wish to participate in the **my Drive** Program can only be enrolled in the **my Drive** (Added Value) Program as new enrolments. As the enrolment is added to a renewal policy term, the Activation Discount will not apply. In addition, the historical data from the **my Drive** (Continuous) Program is no longer available and therefore cannot be used in determining a **my Drive** Adjustment either.

Activation Discount:

- Enrolled drivers will receive an Activation Discount on all eligible private passenger vehicles where they are assigned as principal driver.
- The discount will apply on a new business policy term only. The discount will not be applied to drivers who enrol on a renewal policy term.
- The discount is removed on the following renewal and replaced with an Adjustment.
- A driver will be un-enrolled and discount removed if they do not activate the Application.
- The discount will be removed if the driver is un-enrolled from the Program; however, their Driving Data may still be used to provide an Adjustment on subsequent renewals.
- The discount applies to the premium for the principal and occasional operators (class 05/06).

Eligible Coverages	Discount
Bodily Injury, DC-PD, Accident Benefits, All Perils, Collision, Comprehensive, Specified Perils	10%

Adjustment:

- The Driving Data of each enrolled driver will be used to generate a personalized rating factor (Adjustment) on renewal and will be applied to all eligible private passenger vehicles where they are assigned as principal driver. The assessment of the Driving Data may also include historical Driving Data collected during the driver's participation in prior versions of the Program.
- If the principal operator has not been tagged as a driver by the Application for a minimum of 500 km, the Adjustment may not apply, or it might have a smaller impact.
- The Adjustment is updated upon each renewal.
- If a driver is un-enrolled from the Program, their Driving Data may still be used to provide an Adjustment on current and subsequent renewals.
- The Adjustment applies to the premium for the principal and occasional operators (class 05/06).

No protection is offered under this endorsement to occasional operators of the insured motor vehicle who are rated under class 05 or class 06.

PERSONAL INSURANCE PRODUCT MANUAL

ENDORSEMENTS

At renewal, the driving record of the principal operator on the insured vehicle will not be negatively impacted by the first chargeable at-fault accident, provided that all eligibility and other conditions are met.

What happens if a second chargeable at-fault accident occurs?

- If it occurs within 7 years of the first chargeable at-fault accident:
 - (i) It will be treated as if it was a first chargeable at-fault accident that did not have the benefit of protection under this endorsement, and
 - (ii) It will affect the driving record of the principal operator of the insured vehicle and/or the principal operator's eligibility for insurance.
- If the driving record of the principal operator is driving record 9 and a second chargeable at-fault loss occurs more than 7 years and less than 9 years from the first chargeable at-fault accident, the driving record of the principal operator will renew at driving record 7, provided that all eligibility and other conditions are met.

The third chargeable at-fault accident and any subsequent chargeable at-fault accidents will also affect the driving record and the eligibility for insurance of the principal operator of the insured vehicle.

*(*The operator will not be considered "accident free" if there was an accident, which was previously protected under a special endorsement (other than under Responsible Driver Guarantee), in Canada or the USA.)*

- The Responsible Driver Guarantee may be purchased at any time during the policy term.
- The Responsible Driver Guarantee must be purchased every year, as coverage is valid for one year only.
- Should there be a first chargeable at-fault accident while the Responsible Driver Guarantee is in-force; the Responsible Driver Guarantee must be renewed each year following the year in

which such first chargeable at-fault accident occurred, in order for the principal operator's driving record to continue to be protected.

There will be no protection if:

- There has been a violation of any statutory conditions or a policy condition in relation to the accident.
- The driver of the insured vehicle has been convicted of a major or serious offence or an offence under the Criminal Code of Canada.

PRIVATE PASSENGER CLASSES

Our rating algorithm uses traditional factors of age, marital status, gender and vehicle use, but no longer combines these to make up an individual driving class.

Class 05

Used for an occasional female driver, under age 25, where the vehicle's principal operator is a class 01, 02, 03 or 07. A separate premium is charged.

Class 06:

Used for an occasional male driver, under age 25, where the vehicle's principal operator is a class 01, 02, 03 or 07. A separate premium is charged.

Note:

Applicable to Class 05 and Class 06

- Charge separate additional premium for Property Damage, Bodily Injury, Accident Benefits, Collision or All Perils.
- Class 05 or 06 charge will not be made if the sole occasional operator has a class G1 licence.
- Where there is only one vehicle in the household and more than one occasional operator under age 25, charge only one class 05 or class 06 premium, applying the highest premium developed from the respective driving records.
- Where there is only one occasional operator under age 25 and more than one vehicle in the household, charge the class 05 or class 06 on the highest rated vehicle.
- Where there is more than one vehicle in the household, the total number of class 05 or class 06 charges must be equal to the lesser of:
 - The number of class 05 or class 06 drivers in the household; or
 - The number of vehicles in the household; and

- If there are multiple occasional operators under age 25, the premium charged would be the highest classes 05 or 06 premiums, developed from the respective driving records.
- If a class 05 or a class 06 driver is at fault in an accident, which results in a claim payout, the claim is charged against the class 05 or class 06 on the policy.
- If the class 05 or class 06 driver subsequently acquires her or his own vehicle; and
 - Insures it with us, the claims rating will be transferred to the new vehicle; or
 - Does not insure it with us, the claim will be transferred to the principal operator unless proof is furnished that the vehicle insured elsewhere is carrying that chargeable loss.
