# Nexthink Experience.

Leading Digital Employee Experience Management

Nexthink provides IT teams with unprecedented insight into the digital employee experience and how to improve it through a unique combination of real-time analytics, employee feedback and automated remediation. By correlating technical performance and employee sentiment, IT teams gain complete employee-centric visibility over their IT ecosystem to move from reactive problem solving to continuous, proactive improvement.

Finally, IT can deliver on the promise of the modern digital workplace.

## The power of being proactive

Nexthink provides IT with the means to quantify the digital employee experience, as well as a simple, guided process to focus on and resolve issues with the greatest impact.  With real-time visibility and automatic issue prioritization, IT can easily detect and remediate issues before they impact employees.

# The Cloud-Native Platform for Managing Digital Employee Experience

Nexthink Experience provides an employee-centric view of devices, applications and networks. From pre-built dashboards to detailed event analysis and advanced visualizations, you can measure and manage the digital employee experience in an ongoing, continuous fashion.

## Real-time, event-level visibility and analytics

Obtain real-time, actionable insights into every employee and activity, at every moment - across devices, operating systems and any workplace location.

## Experience quantified, enterprise-wide

Score and benchmark the experience of internal groups and use prioritized recommendations to proactively improve experience across the organization.

## AI-driven insights and automated remediation guidance

Implement AI-driven recommendations based on precise user, device and infrastructure issue detection to improve the employee experience.

## Targeted employee engagement

Conduct contextual employee engagement, correlating sentiment with technical metrics to reveal unreported issues and drive awareness and self-help campaigns.

## Pre-built use-case content

Access an ever-growing catalog of 100+ Library Packs offering out-of-the-box content to meet specific IT or business needs.

## Learn More

Nexthink is the leader in digital employee experience management software. The company gives IT leaders unprecedented insight into employees' daily experiences of technology at the device level – freeing IT to progress from reactive problem solving to proactive optimization.
