

Certificate of Purchase

## Atomico measured scopes 1, 2 and 3\* with Watershed and funded carbon removal equivalent to the FY2021 carbon footprint

This purchase funds a long-running cooperative carbon removal program in Uganda that combines community-led activities to increase carbon sequestration, encourages sustainable land-use practices, and provides farmers with performance-based payments.

Project **Trees for Global Benefits | Uganda**

Tonnes **1,650**

Delivered **Expected Q4 2022**

\*Scope 3 emissions cover categories 3.1 to 3.14 of the GHG Protocol
