CVA PROGRAM OVERVIEW

The course begins with an overview of fundamental aspects of Chinese Medicine, including *Yin-yang* and Five Elements theory, which serve as a foundation for case diagnoses and treatment presented later in the class. A variety of acupuncture techniques are taught, including electro-acupuncture, aqua-acupuncture, moxibustion, etc. in addition to conventional "dry" needling. Mixed practice is available, which includes both small animals and horses). In acupoint labs, students learn acupuncture points both dogs and horses.

The course is presented in 2 online sessions and 3 hybrid sessions. Each hybrid session includes two segments: online and on-site. Online segments include lectures and case demos that students can stream at their convenience. On-site segments give students the opportunity to learn acupuncture points on live animals in small acupoint lab groups of four to six students per instructor.

Chi's hands-on acupoint labs and low student-to-instructor ratio ensure you gain the confidence to start practicing acupuncture after the first on-site session.
