

Adhesive savings up to 70%

Eliminates plant air

ROI in as little as 4 months

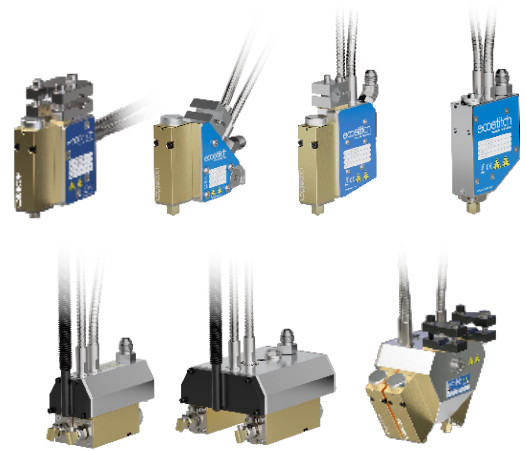

Improve OEE and minimize TCO

EcoStitch is Valco Melton's line of high-performance all-electric adhesive applicators, melt tanks, and drivers. EcoStitch technology ensures cartons are glued more efficiently, effectively, and with greater consistency.

EcoStitch valves contain fewer moving parts than traditional pneumatic valves, resulting in less downtime for repairs and a significant reduction in your consumption of spare parts.

## EcoStitch Series Applicators

- All-electric adhesive applicator
- No dynamic seals
- Up to 15,000 cycles per minute\*
- Service life of up to 2 billion cycles

## VD2 Valve Drivers

- Electronic adhesive volume control
- Improves valve cycle speed, accuracy, and lifespan
- Dot/Gap, Dot Count, Bead, or Stitch Percentage modes
- Direct ethernet/IP integration with parent PLC

## Hot Melt Units

- All-electric gear pump units
- Ethernet IP integration
- On-screen adhesive tracking
- Digital pressure control

Available in 4L, 10L, and 16L capacities
