

## Fund Update for the Generate KiwiSaver Scheme: Defensive Fund

30 June 2024

This fund update was first made publicly available on 26 July 2024.

### What is the purpose of this update?

This document tells you how the Defensive Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Generate Investment Management Ltd prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Defensive Fund aims to provide a stable return over the very short term. It invests in an actively managed portfolio made up entirely of income assets. This fund is useful if you plan to withdraw your KiwiSaver funds within the next 12 months and need certainty of the amount you intend to withdraw, like for a deposit on a first home. Volatility is likely to be the lowest of the funds, however a negative return is still possible.

Defensive Fund	
Total value of the fund	\$47,705,608
Number of investors in the fund	1,597
The date the fund started	16 May 2022

### What are the risks of investing?

#### Risk indicator for the Defensive Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [generatewealth.co.nz/survey](https://generatewealth.co.nz/survey). Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last five years<sup>1</sup>. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

# Generate KiwiSaver Scheme

## Fund Update for the Generate KiwiSaver Scheme: Defensive Fund 30 June 2024

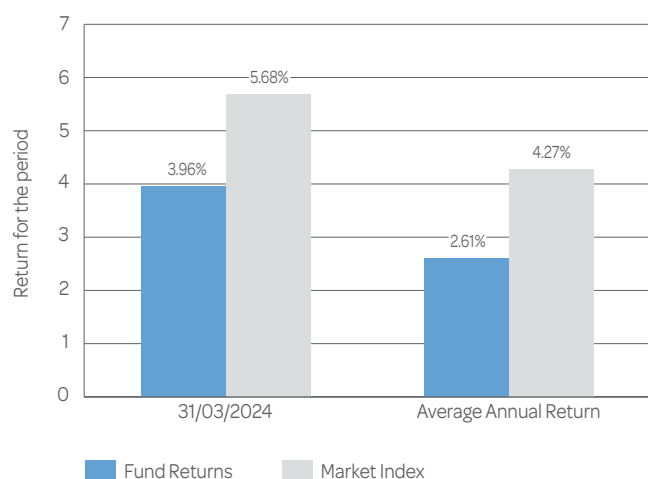

### How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	4.48%
Annual return (after deductions for charges but before tax)	6.26%
Market index annual return (reflects no deduction for charges and tax)	6.37%

The market index return reflects a composite of benchmark index returns, weighted for the fund's target asset allocation, being the fund's relevant benchmark since inception. All of the share market benchmark indices used include dividends but do not include imputation credits.

Additional information about the market index is available in the SIPO on the register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz).

### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2024.

**Important:** This does not tell you how the fund will perform in the future. Returns in this graph are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. Benchmark returns in the graph are before the deduction of tax.

### What fees are investors charged?

Investors in the Defensive Fund are charged fund charges. In the year to 31 March 2024 these were:

	% of net asset value
<b>Total fund charges</b>	0.79%
Which are made up of:	
Total management and administration charges including:	
Manager's basic fee	0.76%
Other management and administration charges	0.03%
Total performance based fees	0.00%
<b>Other charges</b>	\$ amount per investor
Membership Fee <sup>2</sup>	\$36.00 per year

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Hannah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Hannah received a return after fund charges were deducted of \$448 (that is 4.48% of her initial \$10,000). Hannah also paid \$36 in other charges. This gives Hannah a total return after tax of \$412 for the year.

### Further information

You can also obtain this information, the PDS for the Generate KiwiSaver Scheme, and some additional information from the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz).

### Notes

1. As the fund has not been in existence for 5 years a combination of market index returns and the fund's actual returns have been used to complete the risk indicator. Actual returns have been used from 20 May 2022 to the end of the period to which this fund update relates. For all relevant periods prior to 20 May 2022 market index returns have been used in order to construct a total of 5 years of returns on which to base the risk indicator. As a result of estimated returns partially being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
2. Membership fees are the monthly fixed dollar charges for membership in the Generate KiwiSaver Scheme. You will pay only \$3 each month even if you are invested in multiple funds within the Generate KiwiSaver Scheme.
3. Cash and cash equivalents' includes the value of foreign exchange hedging derivatives related to the fund's off-shore investments.
