Department: Computer Engineering

Event Heading: WordPress / CMS workshop

Date: 26/07/2019
Section: TE
Purpose: To give the TEs hands-on experience of CMS/Wordpress so that they can work efficiently for their mini-projects.

Content:

The CMS (Content Management System) workshop conducted for TE Comps Students by the BE Comps Students of ACM was held on 26th july 2019.

The Purpose of The workshop was to get a hands on experience on WordPress. This could help in future projects and tasks. WordPress is an online, open source website creation tool written in PHP. But in non-geek speak, it's probably the easiest and most powerful blogging and website content management system (or CMS) in existence today.

The Workshop consisted of two parts. First, The workshop started with a brief introduction about Cms , types of Cms and Application. Second, the basic functions of Wordpress was explained and students were instructed to try and explore more functions of WordPress. After which the students were given a task to create their first, website

This workshop was a success as the students showed a lot of sincerity, and were eager to create a website and show their skills even though a few of the computers did not have proper internet access.
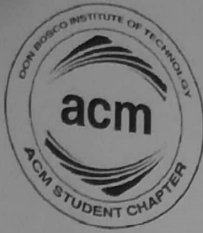

Attendees of the CMS/WORDPRESS workshop:-
