Data collection of business services 2022

The inquired data

The inquiry concerns the distribution of your enterprise's turnover by product category in 2022. In addition, please specify possible sales to households (private customers) by product category. The inquiry concerns enterprises whose accounting period ended during 2022.

From whom are data inquired

Data are inquired from enterprises in service industries and also from certain enterprises in other industries that have service production. Depending on the industry, the data are inquired from enterprises with at least five or 20 employees and in certain cases from smaller enterprises than that either yearly or every two years. All the largest enterprises in the industries are included and smaller enterprises are included in the inquiry based on random sampling.

What are the data used for

The statistics compiled based on the inquiry data are published on 21st of December 2023 at <https://stat.fi/en/statistics/pahy>. The collected data are also utilised in the compilation of the Producer Price Index for Services and in the national accounts. The data will also be used in the EU's production of statistics, in compilation of other economic statistics, and in scientific research.

Instructions for responding

Please respond with the electronic form. You can also respond using a mobile device. The Internet address of the inquiry and the login identifiers for your enterprise are in the top right-hand corner of this letter. You can also utilise the Suomi.fi authorisation service by The Digital and Population Data Services Agency. Statistics Finland's Suomi.fi mandate is responding to data collections from enterprises and organisations and defining specifier is pahy. Further information and instructions for responding can be found on the Internet at <https://www.stat.fi/en/surveys/pahy>.

We ask for your response by no later than 4 September 2023.

Further information on the obligation to provide data and treatment of the data

Confidentiality, data protection and publicity

Statistics Finland uses the data for the compilation of statistics. Unit level data collected for statistical purposes must be kept confidential by virtue of Section 24, Paragraph 1, Sub-paragraph 16 of the Act on the Openness of Government Activities (621/1999). According to Section 13 of the Statistics Act (280/2004), Statistics Finland may also release data for scientific studies and statistical surveys without data enabling direct identification. Statistics Finland may release data with their identification data to another Finnish statistical authority for the purpose of compilation of statistics on an activity falling within its sphere of influence. In addition to Statistics Finland, the statistical authorities are the Natural Resources Institute Finland, the National Institute for Health and Welfare and Finnish Customs. Data with their identification data can also be released in accordance with the Regulation of the European Parliament and of the Council on business registers to the EuroGroups Register of multinational enterprises maintained by Eurostat (EC No 177/2008, Article 11). In addition, Statistics Finland may release data with their identification data for cooperation between national statistical institutes in accordance with Article 21 of Regulation (EC) No 223/2009 on European statistics and according to Section 13, Subsection 4 of the Statistics Act, to the Bank of Finland for the development, production and quality improvement of the European statistics for which it is responsible.

According to Section 12 of the Statistics Act, data describing the activities and public service production of central and local government authorities that are public based on other legislation are also public as statistical data. The collected data concerning individual persons are treated confidentially and they are used only for statistical purposes. The data are protected against unauthorised access in accordance with the data protection rules adopted by Statistics Finland. The Statistics Act prohibits the use of data collected for statistical purposes in an investigation, surveillance, legal proceedings, administrative decision-making or other similar handling of a matter concerning the enterprise. Unit-level data on enterprises may only be handled at Statistics Finland by persons whose tasks require the use of such data. The email address of the person responsible for data protection at Statistics Finland is tietosuoja@stat.fi. The data protection description of personal data concerning respondents can be found at: www.stat.fi/yhteisojen_vastaajien_yhteystiedot (in Finnish).

Obligation to provide data

The obligation to provide data is based on Sections 14 and 15 of the Finnish Statistics Act (280/2004). Notwithstanding the provisions on data secrecy, entrepreneurs are obliged to provide Statistics Finland with such data that are necessary for the compilation of statistics. By virtue of Section 21 of the Statistics Act, Statistics Finland is entitled to receive these data free of charge.

By virtue of Section 8 of the Statistics Act, data providers have the right to seek exemption from the obligation to provide data wholly or partially if the provision of data causes the respondent unreasonable inconvenience and the exemption will not essentially hamper the production of statistics or weaken the reliability and usability of statistics. Unreasonable inconvenience refers to putting the respondent in an unequal position with regard to other data providers. Further information about the obligation to provide data and exemption from it as well as a form to apply for exemption can be found on Statistics Finland's web page www.stat.fi/keruu/yrityksille_en.html.

Duration of storage

Digital statistical data formed from the supplied data are permanently stored at Statistics Finland in accordance with the National Archives of Finland's confirmed storage period decision (KA/19843/07.0 1.01.03.01/2017).

About the data collection

The European Union's regulations also require the collection of the data in question (Council Regulation No 295/2008 concerning structural business statistics).

Data collection service for enterprises

Statistics Finland provides a service where enterprises can check in which Statistics Finland's data collections they have previously been and will in the near future be included. Further information about the service is available at: www.stat.fi/keruu/yrityksille_en.html
