

## Gift tags with reindeer print

Add a personal touch to your Christmas presents with these gift tags, featuring an adorable reindeer print and a sparkling foil star. These festive tags will bring a smile to the recipient's face even before the gift is unwrapped. Fun and easy to make!

1 Place brown linen cardstock into the Nellie's Choice reindeer print embossing folder and run it through the embossing machine.

2 Take ivory linen cardstock and place both Studio Light star dies, one inside the other, onto the cardstock. Use washi tape to prevent shifting, if needed. Repeat this step to create two star borders.

3 Use the largest star die from step 2, place it on the snowflake-patterned foil, and run it through the die-cutting machine.

4 Position the reindeer stencil over the embossed paper from step 1, and apply gold ink using a blending tool.

5 Cut strips of paper measuring 4.5 x 2.5 inches and turn them into tags using a label punch.

6 Place the tags in the die-cutting machine and position the smaller star from step 2 over three-quarters of the tag. Run it through the machine.

7 Attach a star border to the foil star and fix the star to the tag.

8 Glue the second star border to the back of the tag, and add a fun message to the front using 3D foam tape. Finish the label off with a piece of twine or ribbon.
