

300 SERIES

Cold Glue Dispensing Valves

Valco Melton's 300 Series Electric Valve offers unexampled speed in a 15mm wide package. With advanced solenoid technology, the 300 series valve can apply extremely short patterns at high machine speeds. An adjustable stroke version is also available to enhance dotting performance. Life cycles exceeding 1-billion are made possible with a lightweight plunger featuring carbide ball seating on a ceramic nozzle tip. The 300 series valve is ideal for the envelope, mailer, folding carton, high speed graphics, paper converting, and specialty folder-gluer applications.

- Fully-sealed, with an 18-in (1/2m) cable
- Can be completely immersed in water for cleaning
- Only the spring, plunger, and seat are involved in disassembly

300-EZT Valve

Low restriction nozzle improves restart capabilities after downtime

Valco's signature purge switch is located on the front of the valve. The nozzle size is clearly imprinted on the outside of the tip.
