

A full-page photograph of a wedding couple standing in a grand, vaulted stone aisle of a cathedral. The bride is wearing a long, lace-trimmed white gown with a long veil and holding a bouquet. The groom is in a dark suit. They are facing each other and smiling. The architecture features high, pointed Gothic arches and stone columns. The lighting is soft and warm, creating a romantic atmosphere. The text 'IVY AND PINE' is overlaid in the upper center in a white, stylized font with decorative flourishes.

WHO ARE WE?

We are Gina & Jack, a couple of love birds from Bristol, UK. We fell in love in the summer of 2017 and have been inseparable ever since.

Film Photography is what inspired us both to pick up a camera in the first place. Our editing style is inspired by film, there is no heavy editing and stylising. We want our photographs to be timeless, so when you're looking through them in years to come, you'll still love them.

When photographing a wedding our intention is to tell the story of your day, and capture the raw emotions. Building a connection with you is so important to us, we want your guests asking how long we've been friends. This connection always leads to better photographs and more fun.

We LOVE photographing weddings. It's a privilege to be invited into someone's life and asked to capture such a special day. Being a part of that really does mean the world to us. Delivering photos to a happy clients is beyond rewarding. So, this is why we're here.

EXTRAS: FILM PHOTOGRAPHY

NO, NOT VIDEO, FILM PHOTOGRAPHY

What the bloody hell is that then? It's not digital, it's photographed on a film negative. Old school like.

Film has a classic look, that *can't* be replicated by a digital camera.

We base our digital editing style on film photography. There's a reason the most popular film stocks haven't changed much over the years. The colours and textures in film photos are irreplaceable, each film produces a different colour and texture.

Film forces you to stop and take a second to think about what you are photographing, it's way more manual. We find the process of shooting film so fun. Everything is very hands on, and waiting to see your photos once they've been developed leaves you so excited to see them.

It's nostalgic, classic and timeless.

Film is the reason we both started photographing, we both learnt on film cameras, we love it.

Are you convinced?

Let's delve into what film we use, why, and a little more into the process.

EXTRAS: TYPES OF FILM

FILM PHOTOGRAPHY

We love film, if you want it in your wedding, we are 100% here for it.

We recommend about 4 rolls of film per wedding;

What we use:

35MM

Smaller formats like 35mm are a little grainier, but that's a much-loved result of film photography.

Quantity:
24 or 36 images
per roll of film
£50.00 per roll

120, MEDIUM FORMAT

120 film is a more expensive format than 35mm, the increased size of the film negative allows for more detail.

Medium format “3D pop:” The easiest way to explain this is the blurring of the foreground/background and making the image seem almost 3D.

Quantity: 8-16 images per roll of film
£50.00 per roll

INSTAX

Instax are ‘instant’ photos, a lot of people know them as polaroids,
Quantity: 10 shots per pack
£20.00 per pack

MAJORITY FILM (PHOTO) PACKAGES

Film photography is becoming incredibly popular, and making a bit of a comeback.

Especially in the wedding photography world.

The majority of our 2024/2025 weddings have film, either as add ons per roll, or as the primary type of photography.

If this sounds like something you and your hunny would like at your day. We do offer film *priority* packages.

We have different amounts of film we can shoot throughout the day, *instead of* using our digital cameras.

If this sounds like a bit of you, and you'd prefer this over our standard digital packages, let us know and we can make sure we tailor something that suits your day best.

EXTRAS: INVESTING IN A PHOTO ALBUM

WHY ORDER A PHOTO ALBUM BEFORE YOUR WEDDING?

How do you order one?

It will be on your personalized wedding quote, fancy, we know.

We have had so many couples desperate to print their photos into an album once they receive their online gallery. But have to wait months before they can invest a photo book.

To put it simply, it's to spread the cost

This sucks and we don't want it to suck.

So, if you order a photo album when you book your wedding package, it splits the cost over four payments.

-No big payment after you're hitched

-Choose your favs and order your album right away (yes this will be difficult, there will be many)

-If you change your mind and you want to upgrade any options, pay the extra after the wedding

THANK YOU!

Thank you for reading through all of this information and considering us for your wedding!
We are insanely grateful.

Drop us a message/email if you have any questions.
If we have made sense, all of your questions are answered and you want to book us
send us an email and we can get the process started.

Jack*
