

OWFA's Commitment to Safety

Safeguarding a healthy and safe environment for our workers is our top priority, and we ensure compliance with all applicable health and safety laws and regulations, as well as international standards and industry best-practices.

We are committed to ensuring zero incidents, as we firmly believe that no number of casualties is acceptable.

Therefore, in the event of any incidents, we have implemented a robust incident investigation and transparency mechanism which includes:

- Immediate cessation of work
- Conducting an in-depth incident investigation to determine the root cause
- Analysing the weak links that led from the root cause to the incident
- Taking appropriate corrective and preventive measures
- Sharing our findings and learnings with other OWFA members

Furthermore, all OWFA members pledge to:

- Communicate this information internally within their respective companies in a manner that is understandable to everyone.
- Maintain transparent communication with developers and other stakeholders about our health and safety practices and any related incidents.
