TEKNACK 2022

DON BOSCO INSTITUTE OF TECHNOLOGY, MUMBAI

ACM STUDENT CHAPTER

EVENT REPORT

PREPARED BY,
GRACE LEWIS

ABOUT US

ACM-DBIT chapter took birth in the year 2003 and is in its 19th year of enhancing Dbitians' lives by providing a platform to enjoy learning. Teknack is one of the amazing battlefields provided by ACM for students of not just DBIT but also of other colleges to boost up their creative skills and pump up their technical skills by amalgamating with newer ideas and facts to build up Games that give the players an experience that would last with them forever.

An act once done becomes a memory, but an action consciously done again and again makes a habit that upskills one's soul to being a better human. And one of the best ways to carve some good ideas into minds, especially of the young is through a game and keeping this in mind, Teknack has produced some value-enhancing games that give the player a chill down the spine.

JOURNEY OF TEKNACK

TEKNACK 2022

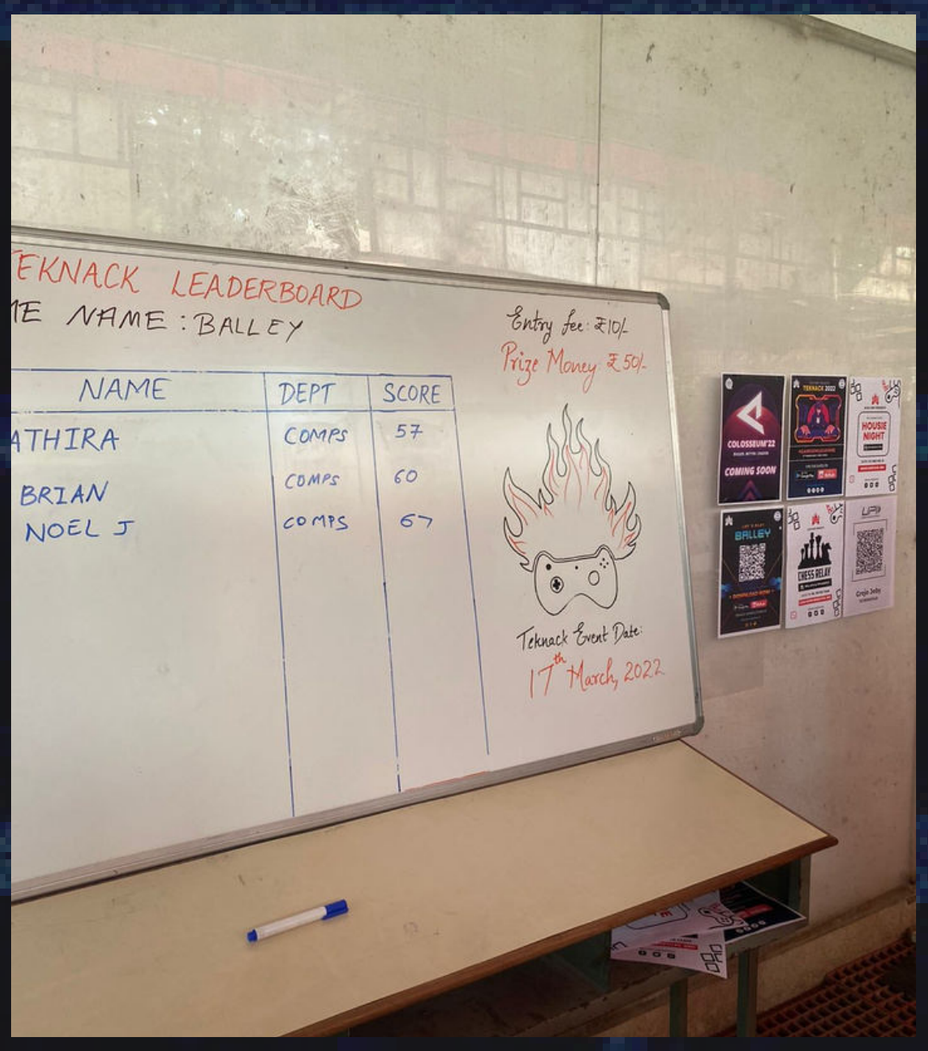
PRE EVENTS



Held on 8th March, 9th March & 10th March

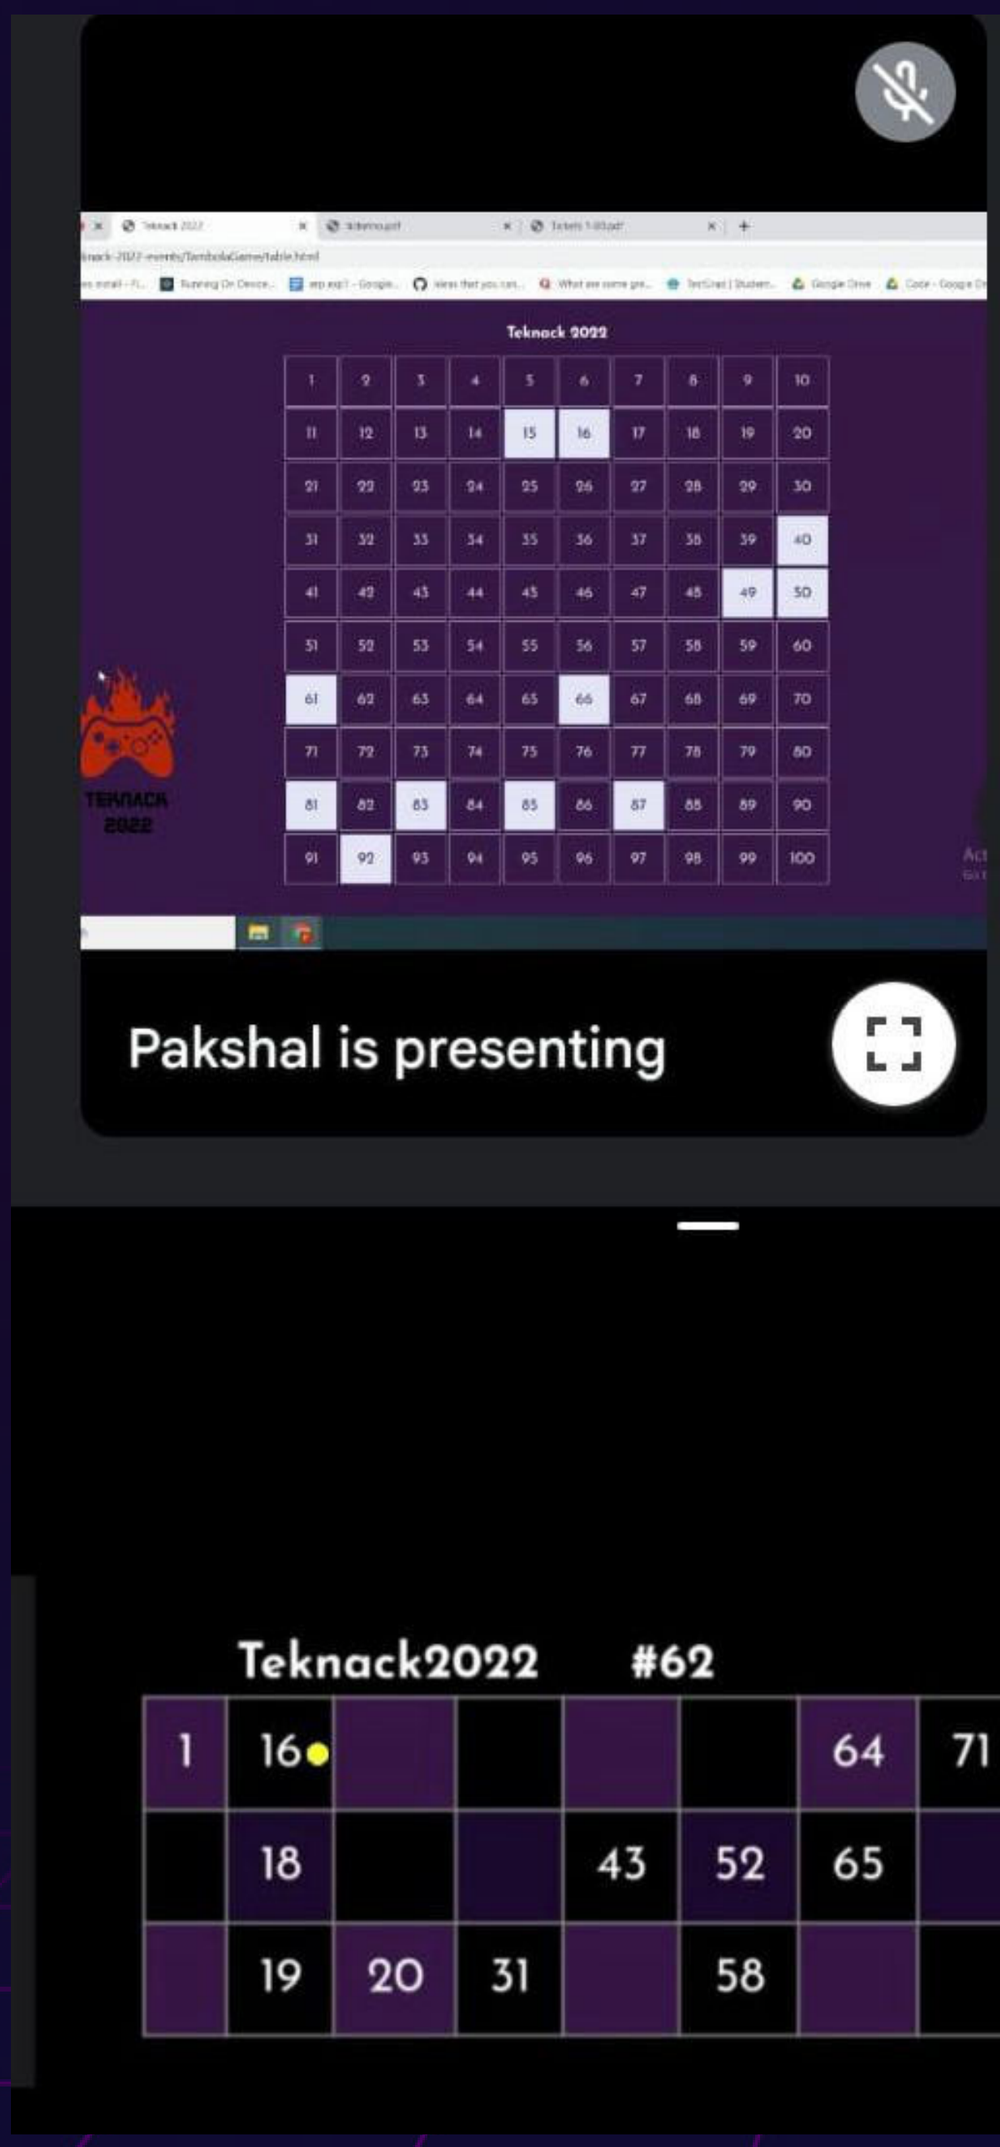
- Games developed by our developers were available to be played by everyone.
- The player who beat the high score was awarded with cash prizes.

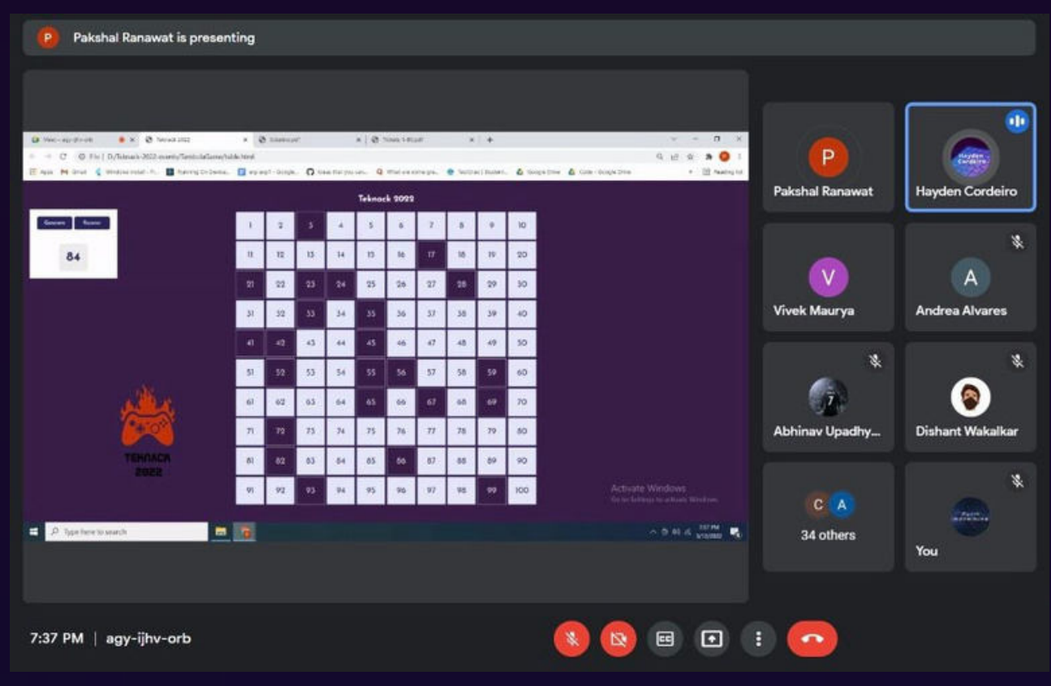
08-10 March, 2022

12:00 - 02:00 pm

HOUSIE NIGHT

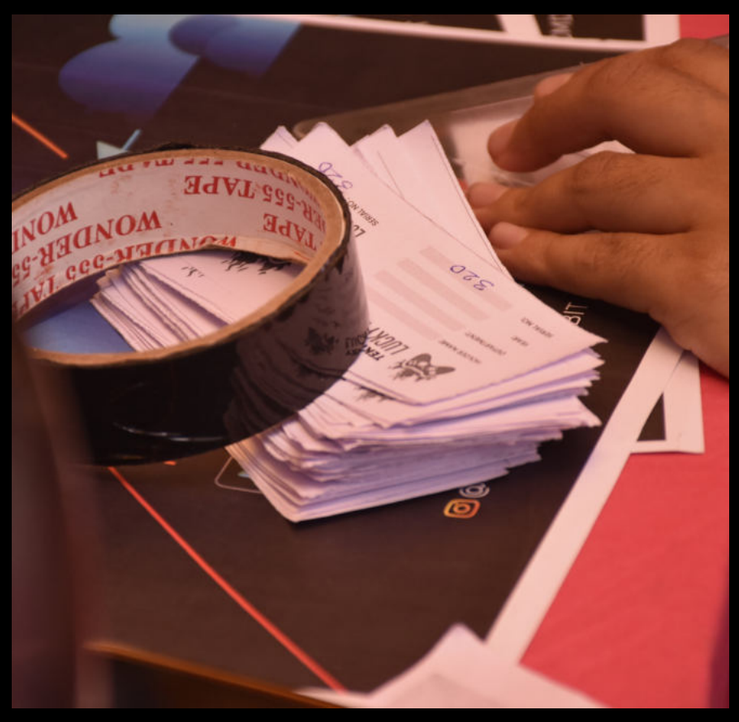
12 March, 2022 at 07:00pm





ACM organised HOUSIE NIGHT with a goal of promoting Teknack as well as just for students to enjoy a saturday night with their peers and family. The event was a success and ended with cheers.

INAUGURATION



GAME EXHIBITION

Our developers had their games on display for people to play. Teachers, Students as well as people from outside DBIT were intrigued and enjoyed playing our games. The game exhibition was a great success.

- Fun events like 7 up 7 down and drop the coin were organised.
- A refreshment stall and a merchandise booth were set up.

AWARD CATEGORIES

Best Game UI

Awarded to the game with the best overall ui, consistent interface , and an environment that is appealing to the end user.

Best GamePlay

Awarded to the game with least glitches, smooth gameplay and animations, Fluid navigations between scenes and button clicks, proper gameplay mechanics and controls, and overall execution.

Best Game Concept

Awarded to the game with the best concept which is unique but at the same time should be designed and planned well with best execution.

People's Choice Award

Winner to this award is chosen by the audience. This award is decided by a 50-50 rule. 50% Downloads on Play Store. 50% Likes on Instagram.

TEKNACK
2022

DEVELOPERS STORY

"Teknack turned out to be very informative and enlightening. We learnt how to design game assets, how to choose the right sound effects for our game, how to present our game STORY, pros and cons while deciding UI UX, targeting audience and much more. The mentors assigned to us were very helpful. We learnt time-management and our hardwork resulted fruitful."

Erica DSouza
People's Choice Winner

"So, while developing our game for teknack, along with the experience of developing a game of our own, we had a newfound respect for the game development studios and indie game devs who make such amazing games.
The Teknack main event was really fun as we were able to see people enjoy our games in front of us. The mentor assigned to us was very supportive, overall it was a fun experience."

Siddhant Naidu
Best Game Play Winner

"The whole process of game development was an amazing experience. Our mentors were supportive and cooperative. At times when we faced difficulty with regards to our code or a feature of the game they helped us solve it and encouraged us to not give up. When we got stuck during implementing a few things it was frustrating, but the end result brought us happiness. Overall, I enjoyed the process a lot.”

Manish Shingre
Best Game Concept Winner

"Teknack 2022 provided us a platform, not only to learn but also to bring forth our creative thinking and convert it into reality, into a game. As rocky as the journey was to convert this idea into a playable game, it was worth the experience we received and we're really grateful to the ACM DBIT team."

Gaurav Samantha
Best Game UI Winner

CRITERIA FOR AWARDS

The winners of the three major award categories are decided based on the marks awarded by the jury. The judging criteria is based on - Game UI, Gameplay, Game Concept and the Overall Appeal.

JURY SEAN D'CRUZ

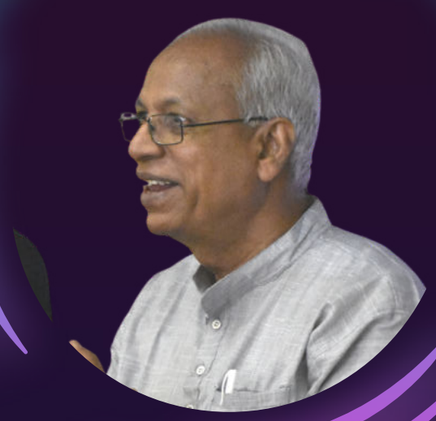
THANK YOU

Fr. Antony Pinto, SDB
Director

Fr. Mcenro Lopes, SDB
Administrator

Fr. Mario Vaz, SDB
Excecutive Director

Dr Prasana Nambiar
Principal



Fr. Nelson Carvalho, SDB
Campus Minister

Gratitude seems to have a ripple effect that we would like to reciprocate through our appreciation. Thank you for supporting us throughout our journey and for providing encouragement and motivation. Teknack 2022 wouldnt have been such a huge success without your support.

A SPECIAL THANK YOU

Ms. Sana Shaikh
ACM Faculty Cordinator

for always supporting us throughout and giving us the necessary push and drive to complete our tasks and to widen our horizons. We owe it to you for helping us grow and learn in these past years. Ma'am you really are the back-bone for ACM.

A BIG THANK YOU

to *our faculty* for always being a pillar of support and always encouraging and guiding us in the right direction through out the years, without them achieving our goals would have been a difficult task.
