

TEKNACK 2021

DON BOSCO INSTITUTE OF TECHNOLOGY, MUMBAI
ACM STUDENT CHAPTER

EVENT REPORT

October 2020 to April 2021

Prepared by
Grejo Joby

ABOUT US

ACM-DBIT chapter took birth in the year 2003 and is in its 18th year of enhancing Dbitians' lives by providing a platform to enjoy learning. Teknack is one of the amazing battlefields provided by ACM for students of not just DBIT but also of other colleges to boost up their creative skills and pump up their technical skills by amalgamating with newer ideas and facts to build up Games that give the players an experience that would last with them forever... An act once done becomes a memory...

But an action consciously done again and again makes a habit that upskills one's soul to being a better human. And one of the best ways to carve some good ideas into minds, especially of the young is through a game and keeping this in mind, Teknack has produced some value-enhancing games that give the player a chill down the spine.

Journey of Teknack

17 November 2020	-	Teknack Induction Meeting
18 November - 25 November 2020	-	Idea Submission Time
28 November 2020	-	Mentors Meeting

EXPANDING TEKNACK

Teknack Gaming Studio was launched in the year 2018 and the games were built using Unity Engine. To take Teknack to further heights, this year, an initiative was taken to expand the technological domain of Teknack further ahead from just Unity. Therefore, this year a game was developed on the Unreal Engine. This marks the expansion of Teknack and this has proven to be a success and it has now opened a new path for Teknack developers.

TO NEWER PLATFORMS

Another step towards the expansion of Teknack 2021 that was taken this year was to not just deploy our games on Google Playstore but also we deployed our games on **Itch.io**.

Itch.io is a popular platform for developers to publish their games. By publishing our games on Itch, we have increased the reach of our games much more and this has led to an increased number of downloads for our games.

ACM-DBIT PRESENTS

TEKNACK

ABOUT US

01 02 03

KNOW ABOUT US

WHAT WE DO?

Teknack is one of the amazing battlefields provided by ACM for students of not just DBIT but also of other colleges to boost up their creative skills and pump up their technical skills by amalgamating with newer ideas and facts to build up Games that give the players an experience that would last with them forever

VIEW OUR GAMES

Training and Guidance

We teach and train the students to develop mobile games using the Unity Engine. We guide them throughout the journey from ideation to release of the game.

Unity Development

The games are developed using the Unity Engine. Developers get hands-on experience on the platform through their journey of development.

Gaming Events and Fest

We also host an annual fest named "Teknack" every year and during this fest, the games are published on Google Play Store and various awards are declared for the developers. Also we keep gaming events as part of the fest to inculcate a gaming culture.

Publishing Games on Play Store

The games developed by the students are published on Google Play Store under the banner of Teknack. This provides them a platform to showcase their talents and bring out to the world, their creativity and technical skills.

About us

Teknack is one of the amazing battlefields provided by ACM for students of not just DBIT but also of other colleges to boost up their creative skills and pump up their technical skills...

Thank You!

for always supporting us throughout and giving us the necessary push and drive to complete our tasks and to widen our horizons. We owe it to you for helping us grow and learn in these past years. Ma'am you really are the back-bone for ACM.

Ms. Sana Shaikh
ACM Faculty Coordinator

A BIG THANK YOU

to all our faculty for always being a pillar of support and always encouraging and guiding us in the right direction through out the years, without them achieving our goals would have been a difficult task.
