Crafting with fuse beads: garland

Discover how to make a pretty garland using fuse beads! In this easy DIY project, we'll guide you step by step to create colourful fuse bead flags. Perfect for an afternoon of crafting, this activity is great for both kids and adults.

1

Create a pattern that is 15 beads wide, forming a downward point. See the photo for reference.

2

Make two flags per peg board. You can choose to use the same colours for both flags or different colours for each flag.

3

Place parchment paper over the fuse beads and iron them.

4

Sometimes, the holes in the corners may melt shut. Carefully use a pin or the tip of a pair of scissors to reopen them without breaking the flags.

5

String all the flags onto a piece of baker's twine. Add a few loose fuse beads between the flags to complete the garland.
