The fixed assets' inquiry

The inquired data

Statistics Finland collects data on increases and decreases in fixed assets from the biggest enterprises measured by turnover.

From whom are data inquired

The inquiry on fixed assets covers around 1,800 most important enterprises in their respective industries. The inclusion criterion for the sample of the sales inquiry is the size of the enterprise's turnover relative to the turnover of the respective industry. In addition, the most significant construction projects are included in the inquiry on fixed assets for a fixed period, in case they are not included in the sample based on the enterprise's turnover. **In the latest sample update, your enterprise was selected to the inquiry as fixed asset data starting from data for 4/2023.** The obligation to provide data remains valid until further notice.

What are the data used for

Data on fixed assets are used for compiling quarterly national accounts, as well as preliminary data on annual national accounts. The results of the calculations are published monthly on Statistics Finland's website and links to the statistical releases can be found on the front page of the electronic form after you log in.

To thank you for responding you receive a link to a compilation made of enterprise statistics where you can view statistical data by industry. A link to the compilation can be found on the end page of the form.

Instructions for responding

Instructions for responding can be found on the web form and on the data collection page www.stat.fi/en/surveys/kotmt.

You can use the Suomi.fi identification and mandate. The mandate code of the data collection is **Respond to data collections from enterprises and associations** (and the mandate definer is **myy**). Instructions for granting the Suomi.fi mandate for Statistics Finland's data collections: www.stat.fi/en/surveys/kotmt.

Alternatively, you can log in to the form using the login identifiers in the top right-hand corner of this accompanying letter.

We ask for your response by no later than 15 May 2023.

Further information on the obligation to provide data and treatment of the data

Confidentiality, data protection and publicity

Statistics Finland uses the data for the compilation of statistics. Unit level data collected for statistical purposes must be kept confidential by virtue of Section 24, Paragraph 1, Sub-paragraph 16 of the Act on the Openness of Government Activities (621/1999). According to Section 13 of the Statistics Act (280/2004), Statistics Finland may also release data for scientific studies and statistical surveys without data enabling direct identification. Statistics Finland may release data with their identification data to another Finnish statistical authority for the purpose of compilation of statistics on an activity falling within its sphere of influence. In addition to Statistics Finland, the statistical authorities are the Natural Resources Institute Finland, the National Institute for Health and Welfare and Finnish Customs. Data with their identification data can also be released in accordance with the Regulation of the European Parliament and of the Council on business registers to the EuroGroups Register of multinational enterprises maintained by Eurostat (EC No 177/2008, Article 11). In addition, Statistics Finland may release data with their identification data for cooperation between national statistical institutes in accordance with Article 21 of Regulation (EC) No 223/2009 on European statistics and according to Section 13, Subsection 4 of the Statistics Act, to the Bank of Finland for the development, production and quality improvement of the European statistics for which it is responsible.

The data are protected against unauthorised access in accordance with the data protection rules adopted by Statistics Finland. The Statistics Act prohibits the use of data collected for statistical purposes in an investigation, surveillance, legal proceedings, administrative decision-making or other similar handling of a matter concerning the enterprise. Unit-level data on enterprises may only be handled at Statistics Finland by persons whose tasks require the use of such data. The email address of the person responsible for data protection at Statistics Finland is tietosuoja@stat.fi. The data protection description of personal data concerning respondents can be found at: www.stat.fi/yhteisojen_vastaaajien_yhteystiedot (in Finnish).

Obligation to provide data

The obligation to provide data is based on Sections 14 and 15 of the Finnish Statistics Act (280/2004).

Notwithstanding the provisions on data secrecy, entrepreneurs are obliged to provide Statistics Finland with such data that are necessary for the compilation of statistics. By virtue of Section 21 of the Statistics Act, Statistics Finland is entitled to receive these data free of charge.

By virtue of Section 8 of the Statistics Act, data providers have the right to seek exemption from the obligation to provide data wholly or partially if the provision of data causes the respondent unreasonable inconvenience and the exemption will not essentially hamper the production of statistics or weaken the reliability and usability of statistics. Unreasonable inconvenience refers to putting the respondent in an unequal position with regard to other data providers. Further information about the obligation to provide data and exemption from it as well as a form to apply for exemption can be found on Statistics Finland's web page www.stat.fi/keruu/yrityksille_en.html.

Duration of storage

Digital statistical data formed from the supplied data are permanently stored at Statistics Finland in accordance with the National Archives of Finland's confirmed storage period decision (KA/19843/07.0 1.01.03.01/2017).

About the data collection

The Council Regulation (EC) No 2019/2152 and No 2020/1197 concerning short-term statistics obliges Statistics Finland to produce statistics describing short-term economic cycles on the volumes of industrial output and the sum of wages and salaries, for example. The data on fixed assets are required in order to comply with the Regulation of the European Union (EC 1161/2005).

Data collection service for enterprises

Statistics Finland provides a service where enterprises can check in which Statistics Finland's data collections they have previously been and will in the near future be included. Further information about the service is available at: www.stat.fi/keruu/yrityksille_en.html
