

Make a pop-up shark card

You will need:

- ★ sheet of white paper or thin card
- ★ sheet of red paper or thin card
- ★ scissors
- ★ felt-tip pens
- ★ glue stick

What to do:

1. Take your white sheet of card and fold it in half. Cut a line about an inch long, halfway up the fold, like this:

2. Fold a triangle either side of the cut line, like this:

3. Open up the card and push the folded triangles through, like this: This will make the mouth of your shark!

4. Fold the card closed. It should look like this:

5. Open it up again, and draw a shark around the mouth. You can cut some zigzag teeth! Color your shark with the pens.

6. Now take the red sheet of card and fold it in two. Stick the shark card inside the red card. Make sure the shark's mouth opens and closes when you open the card!

7. Give your shark card to someone special – or keep it for yourself!
