

DK IB collections

*Supporting transdisciplinary understanding,
inquiry, and international mindedness*

“I’ve had DK books in my libraries for over 20 years.
I always love them! And because they have so many
books about so many topics, students know how to navigate
them immediately – when they choose a DK book, they know
what to expect. The content is age appropriate and presented
in a way that encourages curiosity and deeper inquiry.”

IB school librarian, Hong Kong

DK IB collections

Perfect for fostering student agency, transdisciplinary understanding, and inquiry

For PYP

- A collection of 18 PYP books grouped around the six transdisciplinary themes
- Beautifully illustrated titles to support social and emotional learning
- Inspirational examples of how local actions can have positive global impacts

For MYP

- Two collections, one for MYP 1–3 (13 books) and one for MYP 4–5 (14 books)
- Matched to the core disciplines with a focus on creative and critical thinking
- Thought-provoking content to inspire topics for community projects

For DP

- A collection of 13 books with resources for integrating Theory of Knowledge (TOK)
- Opportunities to explore the global topics of development, conflict, rights, and the environment
- Interdisciplinary content ideal for internal assessment and extended essay topics

Each collection comes complete with a free downloadable guide offering:

- Suggestions for activities to support the growth of learner profile attributes
- Practical ideas for promoting transdisciplinary thinking
- Examples of how to use the collections to develop ATL skills

Example content from the MYP 1–3 guide

Climate change

ACTION

Climate change is an issue that has an impact on multiple layers of the world, including people, plants, animals, weather, air, water, and geography. Read as much as you can about your topic to get a broad perspective of it. Use the table of contents in *Climate Change* and the *Climate Emergency Atlas* to find topics (for example, disappearing forests, fast fashion, animals in danger, melting ice, and so on). Be sure to look through both books as they present information in different ways.

Inquiry task 6: Unveiling stories

By thinking in terms of what the “story” is, our minds often find it easier to understand and empathize with others. Copy and complete this chart, starting with your topic in the centre. Fill in the surrounding sections with information about what each group is experiencing.

- **Your story:** What is your story? How has this topic affected you personally?
- **Nature's story:** What is nature's story? What parts of nature have been impacted?
- **Animals' story:** What is the animals' story? Which ones are affected?
- **World story:** What is the world story? On a global level, how has this affected us all?
- **Future generations' story:** What is the future story? How might future generations look back on this?
- **Story of your choice:** What additional story of your choice would you like to add to the circle?

Integration of ATL skills

Alignment to learner profile attributes

ATL reflection: How did this activity help you better appreciate global issues?

Learner profile attributes: thinker, caring

MYP assessment help: communicating, reflecting

Connections to assessment

DK IB collection: Primary Years Programme (PYP)

A vibrant and varied set of 18 titles packed with highly illustrated, visually engaging, and fact-filled pages, this DK PYP collection offers so many benefits for the IB classroom! Selected specifically to fit with the PYP transdisciplinary themes and accompanied by a free downloadable guide, these books are also perfect for developing ATL skills and supporting the PYP learner profile, as well as key concepts.

“DK has a huge range of fantastic books that will be useful for your inquiry, as well as supporting learner profiles, ATL skills and key concepts.”

Susanne Fischer,
PYP Coordinator, Barbados

Beautiful, confidence-boosting books to encourage care for the self and others

Inspiring opportunities to develop cultural awareness across contexts and communities

Creative inspiration to spark originality, experimentation, and expression

Amazing information to fuel curious minds and the desire to keep learning

Emphasis on agency to make change for good, locally and globally

Fact-filled pages on pertinent topics to enlighten young thinkers

DK IB collection: Middle Years Programme (MYP)

Two exciting collections matched to core MYP disciplines, with 13 titles for MYP 1–3 and 14 titles for MYP 4–5. Books in these collections have been matched to core MYP disciplines and come with free downloadable guides suggesting how to incorporate links to ATLs, learner profile attributes, subject-specific assessment criteria, global contexts, and related concepts.

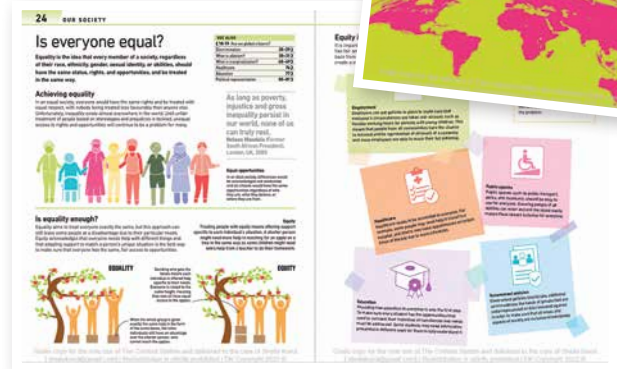

"I'm always grateful to find smart, accessible, and useful resources to support teaching and learning. It's an added bonus that these are grounded in MYP philosophy and in the approaches of building conceptual understanding and learning through inquiry."

Jennifer Gryzenhout, MYP and DP teacher, The Netherlands

Inspiring books with transdisciplinary approaches to encourage curiosity about how we build, travel, fight illness, and keep discovering more

Thought-provoking content to promote reflection on communities, helping develop awareness of the opinions, values, and needs of others. Perfect for the Community Project!

Informative titles to build international-mindedness and inquisitiveness about what has shaped how we live as individuals and societies

Insightful books to support inquiries into the global contexts of orientation in space and time, and personal and cultural expression

DK IB collection: Diploma Programme (DP)

This exciting DP collection comprises 18 books from the bestselling Big Ideas Simply Explained series. It features innovative graphics and engaging writing to make complex subjects easier to understand. Perfect for agency-led, independent learning, the Big Ideas series is perfect for deeper and wider reading and for extended essay (EE) research. The content is wide-ranging and sophisticated enough for the rigors of the DP and offers a wealth of information for transdisciplinary inquiry.

"The new DK Learning supplementary materials for the International Baccalaureate Diploma Programme courses are bold, colorful, and clearly presented with specifically tailored IB content, making them excellent resources."

Jennifer Gryzenhout, MYP and DP teacher, The Netherlands

Inquiry-rich resources to help students extend their thinking skills for Theory of Knowledge (TOK), packed with transdisciplinary links to subjects including art, politics, religion, languages, math, and science

Original material to challenge learners to explore their own creative and cultural expectations and boundaries, and to closely analyze from a variety of perspectives

Awe-inspiring pages to complement the nature of science (NOS) philosophy of the DP curriculum, including scientific methods, historical and contemporary issues, and the progression of ideas

Fascinating books to enable in-depth, independent, and interdisciplinary study in the exploration of key concepts and questions, ideal for extended essay research
